**The Woman Who Turned Into a Jaguar, and Other Narratives of Native Women in Archives of Colonial Mexico** Lisa Sousa, 2017-01-11 This book is an ambitious and wide ranging social and cultural history of gender relations among indigenous peoples of New Spain from the Spanish conquest through the first half of the eighteenth century In this expansive account Lisa Sousa focuses on four native groups in highland Mexico the Nahuatl Mixtec Zapotec and Mixe and traces cross cultural similarities and differences in the roles and status attributed to women in prehispanic and colonial Mesoamerica Sousa intricately renders the full complexity of women's life experiences in the household and community from the significance of their names age and social standing to their identities ethnicities family dress work roles sexuality acts of resistance and relationships with men and other women Drawing on a rich collection of archival textual and pictorial sources she traces the shifts in women's economic political and social standing to evaluate the influence of Spanish ideologies on native attitudes and practices around sex and gender in the first several generations after contact Though catastrophic depopulation economic pressures and the imposition of Christianity slowly eroded indigenous women's status following the Spanish conquest Sousa argues that gender relations nevertheless remained more

**A Mexican Elite Family, 1820-1980** Larissa Adler Lomnitz, Marisol Pérez-Lizaur, 2021-03-09 This book presents the history of the Gomez an elite family of Mexico that today includes several hundred individuals plus their spouses and the families of their spouses all living in Mexico City Tracing the family from its origins in mid nineteenth century Mexico through its rise under the Porfirio Diaz regime and focusing especially on the last three generations the work shows how the Gomez have evolved a distinctive subculture and an ability to advance their economic interests under changing political and economic conditions One of the authors major findings is the importance of the kinship system particularly the three generation grandfamily as a basic unit binding together people of different generations and different classes The authors show that the top entrepreneurs in the family the direct descendants of its founder remain the acknowledged leaders of the kin each one ruling his business as a patron owner through a network of client<sup>2</sup> relatives Other family members though belonging to the middle class identify ideologically with the family leadership and the bourgeoisie and family values tend to overrule considerations of strictly business interest even among entrepreneurs *Unwanted Pregnancies and Public Policy* Héctor Correa, 1994 *Unwanted Pregnancies Public Policy An International Perspective* Supplement to the Handbook of Middle American Indians, Volume 6 John D. Monaghan, Barbara W. Edmonson, 2000 In this *Ethnology* supplement anthropologists who have carried out long term fieldwork among indigenous people review the ethnographic literature in the various regions of Middle America and discuss the theoretical and methodological orientations that have framed the work of scholars over the last several decades They examine how research agendas have developed in relationship to broader interests in the field and the ways in which the anthropology of the region has responded to the sociopolitical and economic policies of Mexico and Guatemala Most importantly they focus on the changing conditions of life of the indigenous peoples of Mesoamerica This volume offers a comprehensive picture of both the indigenous populations and developments in the anthropology of the region over the last thirty years Economic Action in Theory and Practice Donald C. collaboration with Chicana gang members in which they contest popular and academic representations of Chicana o youth and also construct their own narratives of self identity through a documentary film It s a Homie Thang In telling the story of her research in the Fruitvale community of Oakland California Miranda honestly reveals how even a sympathetic ethnographer from the same ethnic group can objectify the subjects of her study She recounts how her project evolved into a study of representation and its effects in the public sphere as the young women spoke out about how public images of their lives rarely come close to the reality As Miranda describes how she listened to the gang members and collaborated in the production of their documentary she sheds new light on the politics of representation and ethnography on how inner city adolescent Chicanas present themselves to various publics and on how Chicana gangs actually function
