Rationalizing Myth in Antiquity Greta Hawes, 2014-05-29 The Greek myths are characteristically fabulous they are full of monsters metamorphoses and the supernatural However they could be told in other ways as well This volume charts ancient dissatisfaction with the excesses of myth and the various attempts to cut these stories down to size by explaining them as misunderstood accounts of actual events In the hands of ancient rationalizers the hybrid forms of the Centaurs become early horse riders seen from a distance the Minotaur the result of an illicit liaison not an inter species love affair and Cerberus

nothing more than a notorious snake with a lethal bite Such approaches form an indigenous mode of ancient myth criticism and show Greeks grappling with the value and utility of their own narrative traditions Rationalizing interpretations offer an insight into the practical difficulties inherent in distinguishing myth from history in ancient Greece and indeed the fragmented nature of myth itself as a conceptual entity By focusing on six Greek authors Palaephatus Heraclitus Excerpta Vaticana Conon Plutarch and Pausanias and tracing the development of rationalistic interpretation from the fourth century BC to the Second Sophistic first to second centuries AD and beyond Rationalizing Myth in Antiquity shows that far from being marginalized as it has been in the past rationalization should be understood as a fundamental component of the pluralistic and shifting network of Greek myth as it was experienced in antiquity Tense Future Paul K. Saint-Amour, 2015-03-02 We know that trauma can leave syndromes in its wake But can the anticipation of violence be a form of violence as well Tense Future argues that it can that twentieth century war technologies and practices particularly the aerial bombing of population centers introduced non combatants to a coercive and traumatizing expectation During wartime civilians braced for the next raid during peacetime they braced for the next war The pre traumatic stress they experienced permeates the century s public debates and cultural works In a series of groundbreaking readings Saint Amour illustrates how air war prophets theorized the wounding power of anticipation how archive theory changed course in war s shadow and how speculative fiction conjured visions of a civilizational collapse that would end literacy itself And in this book s central chapters he shows us how Ford Madox Ford Robert Musil James Joyce Virginia Woolf and other interwar modernist writers faced the memory of one war and the prospect of another some by pitting their fictions encyclopedic scale and formal turbulence against total war others by conceding war s inevitability while refusing to long for a politically regressive peace Total war a conflict that exempts no one disregarding any difference between soldier and civilian Tense Future forever alters our understanding of the concept of total war by tracing its emergence during the First World War its incubation in air power theory between the wars and above all its profound partiality For total war during most of the twentieth century meant conflict between imperial nation states it did not include the violence those states routinely visited on colonial subjects during peacetime Tacking back and forth between metropole and colony between world war and police action Saint Amour describes the interwar refashioning of a world system of violence production one that remains largely intact in our own *Birdscapes* Jeremy Mynott, 2021-10-12 What draws us to the beauty of a peacock the flight moment of perpetual interwar of an eagle or the song of a nightingale Why are birds so significant in our lives and our sense of the world And what do our ways of thinking about and experiencing birds tell us about ourselves Birdscapes is a unique meditation on the variety of human responses to birds from antiquity to today and from casual observers to the globe trotting twitchers who sometimes risk life limb and marriages simply to add new species to their life lists Drawing extensively on literature history philosophy and science Jeremy Mynott puts his own experiences as a birdwatcher in a rich cultural context His sources range from the

familiar Thoreau Keats Darwin and Audubon to the unexpected Benjamin Franklin Giacomo Puccini Oscar Wilde and Monty Python Just as unusual are the extensive illustrations which explore our perceptions and representations of birds through images such as national emblems women s hats professional sports logos and a Christmas biscuit tin as well as classics of bird art Each chapter takes up a new theme from rarity beauty and sound to conservation naming and symbolism and is set in a new place as Mynott travels from his home patch in Suffolk England to his away patch in New York City's Central Park as well as to Russia Australia and Greece Conversational playful and witty Birdscapes gently leads us to reflect on large questions about our relation to birds and the natural world It encourages birders to see their pursuits in a broader human context and it shows nonbirders what they may be missing Kierkegaard and Climate Catastrophe Isak Winkel Holm, 2023 This volume argues for the relevance of Kierkegaard's employment of the prophetic noir modelled after the prophetic books of the Hebrew Bible to understanding how to live in a time of climate change Savage Breast Tim Ward, 2006-04-13 THE DA VINCI CODE tapped a deep fascination for the sacred feminine hidden at the heart of Christianity Best selling author Tim Ward digs deeper into this mystery propelling the reader into the pre Christian Goddess religions of the Mediterranean Ward confronts tough questions Are men threatened by the innate power of the feminine Why do men abuse rape and dominate women Shouldnt loving relationships with the opposite sex be natural and easy Did we all lose an essential part of ourselves when we turned our back on the feminine divine How would opening to the feminine face of God help men resolve their issues with women What would it take for men to really let go of patriarchy and genuinely accept women as equals To answer these questions Ward decided to seek out the Goddess with his own demons in tow Over a period of three years he travelled to the ruined temples and shrines of the Goddess in the cradles of Western Civilization At each he encountered one aspect of the many faces of the Goddess He vividly recreates the experience of ancient believers the Eleusinian Mysteries of Demeter the sexual rites of the priestesses of Aphrodite and a human sacrifice on a mountaintop shrine in Crete And in Turkey he sits at the feet of the many breasted Artemis of Ephesus whose rioting followers once threatened to kill the Apostle Paul Facing the Goddess unleashes turbulent emotions for Ward With frank honesty he describes the traumas that erupt in his relationship with the woman he loves who accompanied him on many of his journeys
