government has put into place a smart roadside detection system that can prevent accidents involving the cats Tunnels have also been constructed under roads to allow animals to cross safely So far efforts appear to be working as evidenced by the drop in leopard cat deaths Even so leopard cats still have a long way to go before they re in the clear Those who want to help can choose eco friendly products that don t pollute their habitat Additionally drive slowly on mountain roads and report any traps you see while walking in the woods Together we can make sure the leopard cat doesn t go the way of the Formosan clouded leopard
