Way Metaphors and Way Topics in Isaiah 40-55 Øystein Lund,2007 Oystein Lund gives a new approach to texts in Isaiah 40 55 that deal with ways and desert transformation Earlier exegesis has mainly read these texts in a literal way In recent years exegetes have pointed out that the so called exodus texts should rather be interpreted metaphorically The author supports this and accordingly seeks to continue this discourse by systematizing intensifying and deepening the argumentation for a metaphorical reading He argues that most of the way texts in Isaiah 40 55 are interrelated and gradually contribute to explore questions regarding the way situation of the people The way theme appears in the prologue and in 40 27 a problem approach is established when the people is addressed How can you say O Jacob and speak O Israel My way is hidden from the LORD and my right passes by my God Several subsequent way texts are related to this text and together these draw a coherent picture in which the problematic way situation of the people in the past and present is transformed JHWH establishes new ways in which he leads his people through their difficult landscape Oystein Lund argues that such a coherent reading of the way texts gives good meaning which is consistent with the over all message of Isaiah 40 55
