Macroeconomic Policy, Credibility and Politics Torsten Persson, Guido Enrico Tabellini, 2011 *Macroeconomic Policy, Credibility and Politics* T. Persson, G. Macroeconomic Policy, Credibility and Politics: Reputation and signalling Torsten Persson, 1990

Macroeconomic Policy and Public Choice David Kiefer, 2012-12-06 Subject of this book is the intersection between political science and macroeconomics The central idea is the existence of a political economic equilibrium in which the government acts to dampen the business cycle The election cycle implies that this equilibrium may be a cycle rather than a point An extension of new Keynesian theory provides a model of endogenous stabilization in which the government practices short run stabilization policy which dampens the impact of exogenous shocks This is a situation in which rational voters favor discretionary policy over a fixed policy rule even with rational economic agents Special attention is given to the relevant data and to the possibilities of hypothesis testing *Macroeconomic Policy* Alan Marin, 2013-10-31 First published in 1990

Fiscal Policy, Public Debt and the Term Structure of Interest Rates Roland Demmel,2012-12-06 The introduction of the thesis consists of four parts first we motivate our chosen macroeconomic setting by looking at some real world phenomena For a better understanding of these phenomena we argue that the mutual dynamic interactions between fiscal policy and financial markets need to be closely examined in a macroeconomic framework Second we review different strands of the economic literature in order to show that most of the literature has so far exclusively concentrated either on financial market dynamics or on fiscal policy issues We conclude that a more integrated model setting is called for in order to explain the dynamic interactions observed in reality Third we discuss at length the economic assumptions underlying our model This avoids multiple repetition later on Finally we outline the structure of the thesis and the objectives we pursue in the different chapters 1 1 Motivation Fiscal policy and financial market reactions are increasingly receiving world wide attention The most recent examples are the Maastricht criteria about fiscal control the South East Asia financial crisis and the resulting IMF policy stance the high level of public debt in developed and developing countries and the effect on interest rates and economic growth In contrast to the still underdeveloped theoretical literature on these dynamic links finding empirical evidence that supports the existence of these links is not a very hard task The Changing Face of Central Banking Pierre L. Siklos,2002-11-21 Central banks have emerged as the key players in national and international policy making This book explores their evolution since World War II in 20 industrial countries The study considers the mix of economic political and institutional forces that have affected central bank behaviour and its relationship with government The analysis reconciles vastly different views about the role of central banks in the making of economic policies One finding is that monetary policy is an evolutionary process *Banking and Financial Control in Reforming Planned Economies* Haiqun Yang,2015-12-29 This book analyses the advantages and disadvantages of the banking system reforms with particular reference to centrally planned economies The book reviews the socialist banking reforms and analyses their financial problems Employing a critical exposition of banking theories it assesses current financial disorders and takes issue with some established theories
