Maganar Hannu Language Of The Hands A Descriptive Analysis Of Hausa Sign Language:

Maganar Hannu, Language of the Hands Constanze Schmaling,2000 *Maganar Hannu, Language of the Hands* Constanze Schmaling,2000 Language of the Hands A descriptive analysis of Hausa Sign Language Recurrent Gestures of Hausa Speakers Izabela Will,2021-11-15 Is the relation between gestures and language conventionalized Is it possible to investigate the backgrounds of the users by means of these gestures This book offers an in depth analysis and description of five recurrent gestures used by Hausa speakers from northern Nigeria examined from a cross cultural perspective The method based on studying naturalistic data available online sermons interviews and talk shows can be applied to other languages with no speech corpora Particular attention is paid to cultural practices and routinized behavior that affect both the form of a gesture and its meaning Everyday activities such as greetings and religious rituals as well as social hierarchy and gender differences are reflected in gestures The results show that gestures and language reveal the shared cultural background of the speakers and reflect identical cognitive processes **The Sociolinguistics of Sign Languages** Ceil

Lucas,2001-10-04 This is an accessible introduction to the major areas of sociolinguistics as they relate to sign languages and deaf communities Clearly organised it brings together a team of leading experts in sign linguistics to survey the field and covers a wide range of topics including variation multilingualism bilingualism language attitudes discourse analysis language policy and planning The book examines how sign languages are distributed around the world what occurs when they come in contact with spoken and written languages and how signers use them in a variety of situations Each chapter introduces the key issues in each area of inquiry and provides a comprehensive review of the literature The book also includes suggestions for further reading and helpful exercises The Sociolinguistics of Sign Languages will be welcomed by students in deaf studies linguistics and interpreter training as well as spoken language researchers and researchers and teachers of sign language

A Phonological Grammar of Kenyan Sign Language Hope E. Morgan,2022-07-05 This grammar of Kenyan Sign Language KSL phonology adds to a sparse literature on the units of categorical form in the world s sign languages At the same time it brings descriptive and theoretical research on sign language phonology into better alignment by systematically evaluating current models of sign language phonology for each of the main parameters handshape location and movement against the KSL data This grammar also makes a methodological contribution by using a unique dataset of KSL minimal pairs in the analysis demonstrating that minimal pairs are not as infrequent in sign languages as previously thought The main content of the book is found in five chapters on handshape location core articulatory movement manner of movement and other distinctive features e g orientation mouth actions The book also contains two large appendices that document the phonological evidence for each of the 44 handshapes and 37 locations This book will be a key reference for descriptive and typological studies of sign phonology as well as a helpful resource for linguists interested in understanding the similarities and differences between current models of sign phonology and identifying promising avenues for future research **Sign**

Languages of the World Julie Bakken Jepsen,Goedele De Clerck,Sam Lutalo-Kiingi,William B. McGregor,2015-10-16

Although a number of edited collections deal with either the languages of the world or the languages of particular regions or genetic families only a few cover sign languages or even include a substantial amount of information on them This handbook provides information on some 38 sign languages including basic facts about each of the languages structural aspects history and culture of the Deaf communities and history of research This information will be of interest not just to general audiences including those who are deaf but also to linguists and students of linguistics By providing information on sign languages in a manner accessible to a less specialist audience this volume fills an important gap in the literature

The Use of Signing Space in a Shared Sign Language of Australia Anastasia Bauer,2014-09-11 In this book an Australian Aboriginal sign language used by Indigenous people in the North East Arnhem Land Northern Territory is described on the level of spatial grammar Topics discussed range from properties of individual signs to structure of interrogative and negative sentences The main interest is the manifestation of signing space the articulatory space surrounding the signers for grammatical purposes in Yolngu Sign Language

Sign Language Roland Pfau,Markus Steinbach,Bencie Woll,2012-08-31 Sign language linguists show here that all questions relevant to the linguistic investigation of spoken languages can be asked about sign languages Conversely questions that sign language linguists consider even if spoken language researchers have not asked them yet should also be asked of spoken languages The HSK handbook Sign Language aims to provide a concise and comprehensive overview of the state of the art in sign language linguistics It includes 44 chapters written by leading researchers in the field that address issues in language typology sign language grammar psycholinguistics neurolinguistics sociolinguistics and language documentation and transcription Crucially all topics are presented in a way that makes them accessible to linguists who are not familiar with sign language linguistics

Current Directions in Turkish Sign Language Research Engin Arik,2014-07-18 This book aims to contribute to our knowledge of Turkish Sign Language T D and sign language linguistics in general T D is a relatively old signed language and is at present believed to be historically unrelated to other signed languages Linguistic studies on this language started in the early 2000s There has been growing academic interest and an increasing body of work on T D within the past decade enhancing the need for this this book which brings together chapters covering a variety of topics such as the history of deaf education and T D issues regarding language documentation a phonological study of fingerspelling reciprocals interrogatives reported utterances expressions of spatial relations including their acquisitions and expressions of multiple entities This book was supported in part by the T B TAK Research Fund Project No 111K314 This edited volume serves as a useful resource for newcomers to the field gives new momentum to future research on T D and offers unique perspectives in investigating sign languages in general Finally the intention is that the conversations within this volume will open up new discussions not only within sign linguistics but also in other related fields such as cognitive science

Sign Languages Diane Brentari,2010-05-27 What are the unique characteristics of sign

languages that make them so fascinating What have recent researchers discovered about them and what do these findings tell us about human language more generally This thematic and geographic overview examines more than forty sign languages from around the world It begins by investigating how sign languages have survived and been transmitted for generations and then goes on to analyse the common characteristics shared by most sign languages for example how the use of the visual system affects grammatical structures The final section describes the phenomena of language variation and change Drawing on a wide range of examples the book explores sign languages both old and young from British Italian Asian and American to Israeli Al Sayyid Bedouin African and Nicaraguan Written in a clear readable style it is the essential reference for students and scholars working in sign language studies and deaf studies

The Languages and Linguistics of Africa Tom Güldemann, 2018-09-10 This innovative handbook takes a fresh look at the currently underestimated linguistic diversity of Africa the continent with the largest number of languages in the world It covers the major domains of linguistics offering both a representative picture of Africa's linguistic landscape as well as new and at times unconventional perspectives The focus is not so much on exhaustiveness as on the fruitful relationship between African and general linguistics and the contributions the two domains can make to each other This volume is thus intended for readers with a specific interest in African languages and also for students and scholars within the greater discipline of linguistics

Oxford Handbook of Deaf Studies, Language, and Education Marc Marschark Professor at the National Technical Institute of the Deaf at Rochester Institute of Technology, Patricia Elizabeth Spencer Research Professor in the Department of Social Work Gallaudet University, 2003-03-27 In Plato's *Cratylus* which dates to 360 B C Socrates alludes to the use of signs by deaf people In his *Natural History* completed in 79 A D Pliny the Elder alludes to Quintus Pedius the deaf son of a Roman consul who had to seek permission from Caesar Augustus to pursue his training as an artist During the Renaissance scores of deaf people achieved fame throughout Europe and by the middle of the 17th century the talents and communication systems of deaf people were being studied by a variety of noted scientists and philosophers However the role of deaf people in society has always been hotly debated could they be educated Should they be educated If so how How does Deaf culture exist within larger communities What do advances in the technology and the genetics of hearing loss portend for Deaf communities In this landmark volume a wide range of international experts present a comprehensive and accessible overview of the diverse field of deaf studies language and education Pairing practical information with detailed analyses of what works why and for whom and banishing the paternalism once intrinsic to the field the handbook consists of specially commissioned essays on topics such as language and language development hearing and speech perception education literacy cognition and the complex cultural social and psychological issues associated with individuals who are deaf or hard of hearing Through careful planning collaboration and editing the various topics are interwoven in a manner that allows the reader to understand the current status of research in the field and recognize the opportunities and challenges that lie ahead providing the most

comprehensive reference resource on deaf issues Written to be accessible to students and practitioners as well as researchers The Oxford Handbook of Deaf Studies Language and Education is a uniquely ambitious work that will alter both theoretical and applied landscapes It surveys a field that has grown dramatically over the past 40 years since sign languages were first recognized by scientists to be true languages From work on the linguistics of sign language and parent child interactions to analyses of school placement and the mapping of brain function in deaf individuals research across a wide range of disciplines has greatly expanded not just our knowledge of deafness and the deaf but of the very origins of language social interaction and thinking Bringing together historical information research and strategies for teaching and service provision Marc Marschark and Patricia Elizabeth Spencer have given us what is certain to become the benchmark reference in the field **Oxford Handbook of Deaf Studies, Language, and Education** Marc Marschark, Patricia Elizabeth Spencer, 2005 This title is a major professional reference work in the field of deafness research It covers all important aspects of deaf studies language social psychological issues neuropsychology culture technology and education

Perspectives on Classifier Constructions in Sign Languages Karen Emmorey, 2003-04-02 Classifier constructions are universal to sign languages and exhibit unique properties that arise from the nature of the visual gestural modality The major goals are to bring to light critical issues related to the study of classifier constructions and to present state of the art linguistic and psycholinguistic analyses of these constructions It is hoped that by doing so more researchers will be inspired to investigate the nature of classifier constructions across signed languages and further explore the unique aspects of these forms The papers in this volume discuss the following issues how sign language classifiers differ from spoken languages cross linguistic variation in sign language classifier systems the role of gesture the nature of morpho syntactic and phonological constraints on classifier constructions the grammaticization process for these forms and the acquisition of classifier forms Divided into four parts groups of papers focus on a particular set of issues and commentary papers end each section **Understanding Signed Languages** Erin Wilkinson, Jill P.
