produced by European sciences to preserve their cities It is even more impressive that these technological advances were created without the influence of outside cultures unlike in Europe Maya cities were designed and built on a grand scale with functional efficiency and artistic elegance Each city was a triumph of grace and power with its monumental palaces and temples There are no other styles of architecture like Mayan Unlike any different culture in Mesoamerica and any other world style of architecture its inventive design is alien and bizarre Where did this style originate Their art style also inspires their veneration of the cosmos and its impact on the Maya civilization's philosophy Ancient Egypt had fewer cities and pyramids than the Maya civilization which was among history's longest lived cultures More than 50 independent city states governed the Maya world spread out over 125 000 square miles
