Germany.- v.19. Keltie, J.S. Africa ,1910 **Mining in Africa** Bonnie Campbell,2009-06-15 The continent of Africa is rich in minerals needed by Western economies but rather than forming the basis for economic growth the mining industry contributes very little to African development Investigating the impact of the 2003 Extractive Industries Review on a number of African countries the contributors find the root of the problem in the controls imposed on the African countries by the IMF and World Bank They aim to convince academics governments and industry that regulation needs to be reformed to create a mining industry favourable towards social economic and environmental development The book takes a multidisciplinary approach and provides a historical perspective of each country making it ideal for students of development studies and development organizations *Translations on Sub-Saharan Africa* United States. Joint Publications Research Service,1974 Africa: Continent of Economic Opportunity David Fick,2007-04-01 Divided into geographic regions and representing every African nation this comprehensive collection of case studies explores how successful business enterprises of varying size along with community projects help to create jobs in Africa A valuable guide to conducting business anywhere on the continent this account also offers information on finding business opportunities and handling oft encountered problems *Prisms of Work* Michael Rösser,2023-12-18 The phenomenon of labour takes the character of a prism Labour is thereby always context dependent and constituted through the actions of all protagonists involved in any labour relationship On the basis of three case studies in colonial German East Africa the construction of the Central Railway 1905 1916 the Otto Plantation in Kilossa 1907 1916 and the palaeontological Tendaguru Expedition 1909 1911 labour and labour relations are analysed The focus lies on hitherto neglected actors and groups of actors of labour in the colonial context of East Africa These were especially German companies and their staff white subaltern railway sub contractors and labour recruiters Indian skilled workers and qualified East African workers Furthermore all three sites of labour proved to have their individual logics and characteristics But all of them were in tension between the global and the local coercion and voluntariness machine and manual labour skilled and unskilled labour reproductive and wage labour as well as between black and white Michael Rösser's dissertation has been awarded with honorary distinction by the European Network in Universal and Global History ENIUGH The Book in Africa C.
