Landscapes of the Soul Douglas V. Porpora,2001 Almost all Americans believe in God But the author shows this belief has little impact on their lives He finds them unable to see any meaning in life lacking any heroes and without a compelling moral vision **Heroic Leadership** Scott T. Allison,George R. Goethals,2024-12-30 *Heroic Leadership* is a celebration of our greatest heroes from well known legends to the legions of unsung heroes who transform our world quietly behind the scenes Now in its second edition this book offers a compelling conceptual framework for understanding heroism and heroic leadership drawing from theories of great leadership and heroic action With over 50 revised heroic leader profiles and 30 new profiles of individuals that have transformed the world the book explores the many counterintuitive ways that heroes lead shape and mobilize their followers The authors offer a definition of heroic leadership that explains how people easily misconstrue both leadership and heroism and provide an innovative take on why people are drawn to heroic leaders and why

this can be considered a fatal attraction Incorporating the latest theory and research the authors unpack the following ten categories of heroism trending heroes transitory heroes transparent heroes transitional heroes tragic heroes transposed heroes transitional heroes traditional heroes transforming heroes and transcendent heroes From within these categories the authors identify 100 exceptional individuals describing their lives and how they exemplify the characteristics of the category they have been assigned Suggesting that our most cherished heroes make for our most transforming leaders this is a vital resource for students and scholars of leadership studies organizational behaviour and social psychology Presenting valuable insights into the lives of both historical and modern leaders the book is also a fascinating read for casual readers

Empowering Leadership Michael Fletcher, 2018-01-23 A major problem in the local church today is lack of leadership Simply put we have more needs than we have leaders to meet those needs So how do we train better leaders faster The truth is very few churches really have a well thought out leadership development plan Growth requires continually adding healthy new leaders who carry the church culture forward and embody its core values Everyone knows it but how do we achieve it In Empowering Leadership author and leadership consultant Michael Fletcher says leaders like this can't simply be bought nor can they be hired from someone else's leadership assembly line Developing leaders at every level to create an environment that attracts potential leaders and to build better leaders faster an organization needs more than a pipeline It needs a culture that develops leaders organically Finding the right kind of leaders to guide your church on a path of continual growth comes out of keeping the right focus and that focus is not just on the leaders In fact as Fletcher says It isn't about the leader It never was about the leader It will never be about the leader It will always and only be about Jesus and his people It's about the people True leadership development includes the often messy but necessary interaction of life upon life So hiring pastors and key staff roles from within the church is the very best policy people who breathe the culture of the church and who have helped create the culture you want to maintain If your church or organization needs a good leadership development structure then you're holding the right book Empowering Leadership details Michael's greatest insights on how to build better leaders faster by creating a leadership development culture in your church or organization naturally organically continually Empower your church or organization through great leadership This book will show you how
