George II (Penguin Monarchs) Norman Davies, 2021-05-27. From the celebrated historian and author of *Europe: A History*, a new life of George II. George II, King of Great Britain and Ireland and Elector of Hanover, came to Britain for the first time when he was thirty-one. He had a terrible relationship with his father, George I, which was later paralleled by his relationship to his own son. He was short-tempered and uncultivated, but in his twenty-three year reign he presided over a great flourishing in his adoptive country: economic, military, and cultural, all described with characteristic wit and elegance by Norman Davies. George II so admired the Hallelujah chorus in Handel's *Messiah* that he stood while it was being performed, as modern audiences still do. Much of his attention remained in Hanover and on continental politics, as a result of which he was the last British monarch to lead his troops into battle at Dettingen in 1744. The Cambridge Companion to Australian Literature Elizabeth Webby, 2000-08-21. An indispensable reference for the study of Australian literature. **Transgender Migrations** Trystan Cotten, 2012-05-23. *Transgender Migrations* brings together a top-notch collection of emerging and established scholars to examine the way that the term migration can be used, not only to look at the way trans bodies migrate from one gender to the other, but the way that trans people migrate in the larger geopolitical contexts of immigration reform, the war on terror, the war on drugs, and the increased policing of national borders. The book centers trans experiences, identities, and politics, and treats these identities as inextricably intertwined with other social identities, institutions, and discourses of sexuality, nationality, race, and ethnicity, globalization, colonialism, and terrorism. The chapter authors explore not only the movement of bodies in through and across spaces and borders, but also chart the metamorphoses of these bodies in relation to migration and mobility. *Transgender Migrations* takes the theory documented in *The Transgender Studies Reader* and blows it up to a global scale. It is the logical next step for scholarship in this dynamic, emerging field. Penguin Books and political change Dean Blackburn, 2020-11-12. Founded in 1935 by a young publisher disillusioned with the class prejudices of the interwar

publishing trade Penguin Books set out to make good books available to all The Penguin Specials a series of current affairs books authored by leading intellectuals and politicians embodied its democratising mission Published over fifty years and often selling in vast quantities these inexpensive paperbacks helped to shape popular ideas about subjects as varied as the welfare state homelessness social class and environmental decay Using the Specials as a lens through which to view Britain's changing political landscape Dean Blackburn tells a story about the ideas that shaped post war Britain Between the late 1930s and the mid 1980s Blackburn argues Britain witnessed the emergence and eclipse of a meritocratic moment at the core of which was the belief that a strong relationship between merit and reward would bring about social stability and economic efficiency Equal opportunity and professional expertise values embodied by the egalitarian aspirations of Penguin's publishing ethos would be the drivers of social and economic progress But as the social and economic crises of the 1970s took root many contemporary thinkers and politicians cast doubt on the assumptions that informed meritocratic logic Britain's meritocratic moment had passed
