## Quebec And Radical Social Change:

Québec and Radical Social Change Dimitrios I. Roussopoulos, 1974 The 1960s marked the rise of a powerful and reformulated nationalism in Quebec characterized by a deep sense of identity and widespread frustration especially among the younger generation This fervor gave birth to a large nationalist movement encompassing a diverse spectrum of ideologies from left to right Simultaneous to the rise of Quebec separatism a growing Marxist movement emerged fostering a development of class consciousness and labour welfare in the province This culminated in a massive mobilization in 1972 where 350 000 workers went on strike showcasing an unprecedented wave of socio political activism in Quebec This book is the fourth in a series compiling exceptional articles from the radical quarterly journal *Our Generation* selected by the journal's founding editor Dimitrios Roussopoulos Founded in 1961 *Our Generation* significantly contributed to the social study of Quebec until its final publication in 1991 The articles selected for this volume address major currents of thought and action in Quebec from the mid 1960s until this book's publication in 1974 *Quebec and Radical Social Change* offers a glimpse into the transformative era of the 1960s and 1970s acting as a historical document that speaks to present times *The Psychology of Radical Social Change* Brady Wagoner, Fathali M. Moghaddam, Jaan Valsiner, 2018-04-03 Since 2011 the world has experienced an explosion of popular uprisings that began in the Middle East and quickly spread to other regions What are the different social psychological conditions for these events to emerge what different trajectories do they take and how are they represented to the public To answer these questions this book applies the latest social psychological theories to contextualized cases of revolutions and uprisings from the eighteenth to the twenty first century in countries around the world In so doing it explores continuities and discontinuities between past and present uprisings and foregrounds such issues as the crowds collective action identity changes globalization radicalization the plasticity of political behaviour and public communication *The City and Radical Social Change* Dimitrios I. Roussopoulos, 1982 **Quebec and radical social change** Dimitrios I. Roussopoulos, 1974 **Recent Social Trends in Quebec, 1960-1990** Simon Langlois, Baillargeon, 1992-02-05 Readers will follow an intense period of social change in Quebec during which there was a remarkable increase in the level of modernization They will note a massive entry of women into the labour force and a growing service sector that now constitutes seventy percent of all economic activity They will observe also that the Québécois have dramatically increased their television viewing and that while they express a generally high level of satisfaction with life the Québécois must contend with escalating crime and suicide rates *The Impossible Québec* Pierre Vallières, 1980 A strongly felt criticism of the Parti Québécois proposal for sovereignty association A genuine humanist and idealist who tries to awaken the people to a better life *Globe and Mail Canadian Essay and Literature Index, 1975* Andrew D. Armitage, 1977-02 *Decentralization and Intrastate Struggles* Kristin M. Bakke, 2015-06-04 There is no one size fits all decentralized fix to deeply divided and conflict ridden states One of the hotly debated policy prescriptions for states facing

self determination demands is some form of decentralized governance including regional autonomy arrangements and federalism which grants minority groups a degree of self rule Yet the track record of existing decentralized states suggests that these have widely divergent capacity to contain conflicts within their borders Through in depth case studies of Chechnya Punjab and Qu bec as well as a statistical cross country analysis this book argues that while policy fiscal approach and political decentralization can indeed be peace preserving at times the effects of these institutions are conditioned by traits of the societies they are meant to govern Decentralization may help preserve peace in one country or in one region but it may have just the opposite effect in a country or region with different ethnic and economic characteristics **Activism and**
