Frontiers of History Donald R. Kelley, 2006-01-01 In 1764-65 the irrepressible playwright Beaumarchais travelled to Madrid where he immersed himself in the life and society of the day Inspired by the places he had seen and the people he had met Beaumarchais returned home to create *The Barber of Seville* and *The Marriage of Figaro* plays that became the basis for the operas by Rossini and Mozart that continue to delight audiences today This book is a lively and original account of Beaumarchais's visit to Madrid he never went to Seville and a recreation of the society that fired his imagination Drawing on Beaumarchais's letters and commentaries translated into English for the first time Hugh Thomas investigates the full range of the playwright's activities in Madrid He focuses particular attention on short plays that Beaumarchais attended and by which he was probably influenced and he probes the

inspirations for such widely recognized characters as the barber valet Figaro the lordly Count Almaviva and the beautiful but deceived Rosine Not neglecting Beaumarchais's many other pursuits ranging from an endeavour to gain a contract for selling African slaves to an attempt to place his mistress as a spy in the bed of King Charles III Lord Thomas provides a highly entertaining view of a vital moment in Madrid's history and in the creative life of the energetic Beaumarchais Lawrence Durrell, Postmodernism and the Ethics of Alterity Stefan Herbrechter, 1999 This book is of interest for any reader wishing to explore the interface between literature and critical and cultural theory It investigates the notions of alterity which underlie the work of Lawrence Durrell and postmodernist theory Grass Irmgard Elsner Hunt History in the Discursive Condition Elizabeth Ermarth, 2011-03-25 Elizabeth Deeds Ermarth University of Edinburgh UK and Trent University Canada teaches and writes about interdisciplinary cultural history and theory Book Jacket *On the Future of History* Ernst Breisach, 2007-11-01 What does postmodernism mean for the future of history Can one still write history in postmodernity To answer questions such as these Ernst Breisach provides the first comprehensive overview of postmodernism and its complex relationship to history and historiography Placing postmodern theories in their intellectual and historical contexts he shows how they are part of broad developments in Western culture Breisach sees postmodernism as neither just a fad nor a universal remedy In clear and concise language he presents and critically evaluates the major views on history held by influential postmodernists such as Derrida Foucault Lyotard and the new narrativists Along the way he introduces to the reader major debates among historians over postmodern theories of evidence objectivity meaning and order truth and the usefulness of history He also discusses new types of history that have emerged as a consequence of postmodernism including cultural history microhistory and new historicism For anyone concerned with the postmodern challenge to history both advocates and critics alike *On the Future of History* will be a welcome guide *Visions of the Past* Robert A. Rosenstone, 1998-08-04 Rosenstone investigates how a visual medium subject to conventions of drama and fiction might be used as a serious vehicle for thinking about our relationship with the past Employing such films as *Reds* *JFK* and *Sans Soleil* he considers issues like the rapport between fact and film and the documentary as visionary truth *Narrative Concerns* Todd Davis, Kenneth Womack, 2025-08-20 Bridging existing gaps between postmodern theory fiction and ethics *Narrative Concerns* Ethical Criticism in Literature Music and Film offers an innovative critical analysis of the ways in which fictional narratives impact our lives as well as of the evolving nature of our understanding of the ethical possibilities inherent in postmodern humanism The wide array of writers directors and musicians examined in *Narrative Concerns* include Steven Spielberg Quentin Tarantino Jean Rhys John Irving Norman Maclean Anthony Burgess Kurt Vonnegut James Cameron Beyoncé and Mary Oliver These creators frequently explore our postmodern preoccupation with the void in new and often innovative ways from their challenging perceptions of the family humor and narrative design to their examinations of the past the power of history and the redemptive nature of humanity Davis and Womack read their works to demonstrate a fascinating

assortment of literary characters in the act of generating new conceptions of selfhood underscore how a given text's construction affects our understanding of the ethically motivated acts of authorship and storytelling and address the powerful bonds of human community. By challenging the very nature in which we conduct literary and theoretical studies, ethical criticism thus offers useful forays into a wide range of disciplines from feminism and gender studies to cultural criticism and the dynamics of race and ethnicity.

Rewriting Democracy Elizabeth Deeds Ermarth, 2017-05-15 Illuminating and comprehensive, this excellent volume addresses the problematic relationship between democratic institutions and the current critique of enlightenment and modernity. Since at least the beginning of the twentieth century and across the range of practice from science to politics to art, various cultural shifts have unsettled assumptions that have been fundamental to the development of democratic institutions: assumptions concerning individual identity, the nature of political systems, and the viability of egalitarian ideals. Can democracy survive these changes to the value systems upon which it has been based for over two centuries? This study does not focus on the often repeated particulars of past or current events such as 9/11 or the genocide in Darfur, but instead examines the terms and conditions under which it would be possible to prevent such events in the future.

Space and Time David C. Wright, Jr., Allan W. Austin, 2010-04-19 Essays in this work examine treatments of history in science fiction and fantasy television programs from a variety of disciplinary and methodological perspectives. Some essays approach science fiction and fantasy television as primary evidence demonstrating how such programs consciously or unconsciously elucidate persistent concerns and enduring ideals of a past era and place. Other essays study television as secondary evidence investigating how popular media construct and communicate narratives about past events.

Outside, America Hikaru Fujii, 2013-04-25 The idea of the outside as a space of freedom has always been central in the literature of the United States. This concept still remains active in contemporary American fiction, however its function is being significantly changed. *Outside America* argues that among contemporary American novelists, a shift of focus to the temporal dimension is taking place. No longer a spatial movement, the quest for the outside now seeks to reach the idea of time as a force of difference à la Deleuze by which the current subjectivity is transformed. In other words, the concept is taking a temporal turn. Discussing eight novelists including Don DeLillo, Richard Powers, Paul Theroux, and Annie Proulx, each of whose works describe forces of given identities, masculine identity, historical temporality, and power, etc., which block quests for the outside, Fujii shows how the outside in these texts ceases to be a spatial idea. With due attention to critical and social contexts, the book aims to reveal a profound shift in contemporary American fiction.

Representation and the Twentieth-century Novel Paul D. Morris,2005 *Postmodern Music, Postmodern Listening* Jonathan D. Kramer,2016-08-11 Kramer was one of the most visionary musical thinkers of the second half of the 20th century In his The Time of Music he approached the idea of the many different ways that time itself is articulated musically This book has become influential among composers theorists and aestheticians Now in his almost completed text written before his untimely death in 2004 he examines the concept of postmodernism in music Kramer created a series of markers by which we can identify postmodern works He suggests that the postmodern project actually creates a radically different relationship between the composer and listener Written with wit precision and at times playfully subverting traditional tropes to make a very serious point about this difference Postmodern Music Postmodern Listening leads us to a strongly grounded intellectual basis for stylistic description and an intuitive sensibility of what postmodernism in music entails Postmodern Music Postmodern Listening is an examination of how musical postmodernism is not just a style or movement but a fundamental shift in the relationship between composer and listener The result is a multifaceted and provocative look at a critical turning point in music history one whose implications we are only just beginning to understand **The Routledge Companion to**
