be even more accessible to beginning philosophers *Urban Playmaking* Bethany Nelson, 2021-02-25 This book explores the concept of playmaking and activism through three research projects in which culturally and linguistically diverse high school students and young adults created original theatre around the issues that inform their lives and constrain their futures. Each study discussed by the author is considered through the lens of one or more best practices. The outcomes of the playmaking experiences communicated through detailed ethnographic data and the voices of student participants make a strong case for using what we already know about teaching to positively impact gross inequities of outcome for culturally and linguistically diverse students. This study will be of great interest to students, scholars, and practitioners in Applied Theatre, Theatre Education, and Art Therapy.
