Handbook of Moral and Character Education Larry Nucci, Tobias Krettenauer, 2014-04-24 There is widespread agreement that schools should contribute to the moral development and character formation of their students In fact 80% of US states currently have mandates regarding character education However the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its meaning and methods The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive research oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future Now in its second edition this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings and much more

The Dismantling of Moral Education Perry L. Glanzer, 2022-02-20 American educators have consistently splintered our humanity into pieces throughout higher education s history Although key leaders of America s colonial colleges shared a common functional understanding of humans as made in God s image with a robust but vulnerable moral conscience latter moral philosophers did not build upon that foundation Instead they turned to shards of our identity to help students find their moral bearings They sought to create ladies and gentlemen honorable students and finally good professionals As a result fragmentation ensued as university leaders pitted these identity fragments against each other

inciting a war of attrition As the war of identities raged its effects spilled out beyond the bounds of the curriculum into the co curricular dimension that struggled with moving beyond being en loco parentis The major identity they cultivated was that of being a political citizen Thus the major identity and story of students lives became the American political story of democracy what I call Meta Democracy In higher education guided by Meta Democracy students lose their autonomy to administrators who reduce the student identities they try to develop along with the range of virtues that comprise the good life The Dismantling of Moral Education How Higher Education Reduced the Human Identity explains why and how we arrived at diminishing ourselves
