Novel Professions Interested Disinterest And The Making Of The Professional In The Victorian Novel:

Novel Professions Jennifer Ruth, 2006 **Novel Professions** Jennifer Ruth, 2006 *The Oxford Handbook of the Victorian Novel* Lisa Rodensky, 2013-07-11 Much has been written about the Victorian novel and for good reason The cultural power it exerted and to some extent still exerts is beyond question The Oxford Handbook of the Victorian Novel contributes substantially to this thriving scholarly field by offering new approaches to familiar topics the novel and science the Victorian Bildungsroman as well as essays on topics often overlooked the novel and classics the novel and the OED the novel and allusion Manifesting the increasing interdisciplinarity of Victorian studies its essays situate the novel within a complex network of relations among for instance readers editors reviewers and the novelists themselves or among different cultural pressures the religious the commercial the legal The handbook's essays also build on recent bibliographic work of remarkable scope and detail responding to the growing attention to print culture With a detailed introduction and 36 newly commissioned chapters by leading and emerging scholars beginning with Peter Garside's examination of the early nineteenth century novel and ending with two essays proposing the last Victorian novel the handbook attends to the major themes in Victorian scholarship while at the same time creating new possibilities for further research Balancing breadth and depth the clearly written nonjargon laden essays provide readers with overviews as well as original scholarship an approach which will serve advanced undergraduates graduate students and established scholars As the Victorians get further away from us our versions of their culture and its novel inevitably change this Handbook offers fresh explorations of the novel that teach us about this genre its culture and by extension our own **The Victorian Novel, Service Work, and the Nineteenth-Century Economy** Joshua Gooch, 2015-08-13 This book offers a much needed study of the Victorian novel's role in representing and shaping the service sector's emergence Arguing that prior accounts of the novel's relation to the rise of finance have missed the emergence of a wider service sector it traces the effects of service work's many forms and class positions in the Victorian novel **Late Victorian Crime Fiction in the Shadows of Sherlock** C. Clarke, 2014-09-26 This book investigates the development of crime fiction in the 1880s and 1890s challenging studies of late Victorian crime fiction which have given undue prominence to a handful of key figures and have offered an over simplified analytical framework thereby overlooking the generic moral and formal complexities of the nascent genre The Professional Ideal in the Victorian Novel S. Colon, 2007-05-14 This book makes the claim that Victorian novels do not simply reflect professional ideology they also scrutinize its dilemmas contradictions and limitations In this volume innovative readings of canonical texts like Sybil Barchester Towers Romola and Daniel Deronda accompany groundbreaking work on less familiar texts like Tancred and My Lady Ludlow to illuminate the Victorians own struggles with the emerging professional ideology The Victorians engagement with fundamental ideas of professional identity such as autonomy meritocracy and the service ethic reveal professionalism's dual basis in materialist and idealist rationalities Samuel Butler against the Professionals David

Gillott,2017-07-05 In the wake of the 2009 Darwin bicentenary Samuel Butler 1835 1902 is becoming as well known for his public attack on Darwin's character and the basis of his scientific authority as for his novels *Erewhon* and *The Way of All Flesh* In the first monograph devoted to Butler's ideas for over twenty years David Gillott offers a much needed reappraisal of Butler's work and shows how Lamarckian ideas pervaded the whole of Butler's wide ranging oeuvre and not merely his evolutionary theory In particular he argues that Lamarckism was the foundation on which Butler's attempt to undermine professional authority in a variety of disciplines was based Samuel Butler against the Professionals provides new insight into a fascinating but often misunderstood writer and on the surprisingly broad application of Lamarckian ideas in the decades following publication of the *Origin of Species* [Male Professionals in Nineteenth Century Britain](#) Laurence Brockliss,Harry Smith,2024-06-25 *Male Professionals in Nineteenth Century Britain* is the first statistically based social cultural and familial history of a fast growing and socially prominent section of the Victorian propertied classes It is built around a representative cohort of 750 men who were recorded in the 1851 census as practising a profession in eight British provincial towns with distinctive economic and social profiles Brighton Bristol Dundee Greenock Leeds Merthyr Tydfil Winchester and the twin county town of Northumberland Alnwick Morpeth The book provides a collective account of the cohort's lives and the lives of their families across four generations starting with their parents and ending with their grandchildren It touches on the history of 16 000 individuals The book aims to throw light on the extent to which nineteenth century professionals had a distinctive socio cultural profile as sociologists and some historians have claimed or were largely indistinguishable from other members of propertied society as most historians today assume without further investigation In exploring this question particular attention is paid to the cohort families wealth household size education occupational history geographical mobility and broader involvement in society measured by their members choice of marriage partner their kinship and friendship circles their political allegiance and their leisure activities The book demonstrates that male professionals in the Victorian era were far from being a homogenous group but were divided in many ways The most important was wealth which played a key role in the social and occupational fortunes of their descendants These divisions largely explain why some professionals and some individual professions were much more likely to display endogenous characteristics than others The book also demonstrates that even the most successful professional families got poorer over time and reveals how easily in the age of industrialisation branches of families and sometimes complete families could drop out of the elite **Moral Authority, Men of Science, and the Victorian Novel** Anne DeWitt,2013-07-18 Anne DeWitt examines how Victorian novelists challenged the claims of men of science to align scientific practice with moral excellence **The Politics of Disinterestedness in Nineteenth-Century Literature** Natalie Roxburgh,2025-05-01 *The Politics of Disinterestedness in Nineteenth Century Literature* historicizes the concept of disinterestedness by examining discourses on political economy during and before the 19th century It argues that certain literary texts respond to the way all interests are transformed into economic interests

during this period It also shows that this has implications for aesthetics and questions of aesthetic autonomy in which discourses on disinterestedness are tied up Through a New Formalist approach Natalie Roxburgh provides fresh readings of texts by Robert Browning George Eliot and Oscar Wilde whose respective oeuvres demonstrate an attention to the formal affordances of literary disinterestedness that compete with and critically assess other versions Browning develops a dramatic monologue so that the reader is enticed to re read his poems Eliot cultivates the problematic character who must struggle with her desire within a larger play of interests in a way that evolves the realist Condition of England novel and Wilde experiments with the blending of genres in his critical essays by rendering them as dramatic dialogues that serve as contemplative mechanisms for playing with a multiplicity of interests which he explores in terms of influence Reading these canonical authors through the politics of disinterestedness sheds new light on literary value and in particular the formal techniques seen as important by the end of the 19th century just as liberal democracy emerged in Britain

Crafting the Woman Professional in the Long Nineteenth Century Kyriaki Hadjiafxendi, Patricia Zakreski, 2016-05-13 Over the course of the nineteenth century women in Britain participated in diverse and prolific forms of artistic labour As they created objects and commodities that blurred the boundaries between domestic and fine art production they crafted subjectivities for themselves as creative workers By bringing together work by scholars of literature painting music craft and the plastic arts this collection argues that the constructed and contested nature of the female artistic professional was a notable aspect of debates about aesthetic value and the impact of industrial technologies All the essays in this volume set up a productive inter art dialogue that complicates conventional binary divisions such as amateur and professional public and private artistry and industry in order to provide a more nuanced understanding of the relationship between gender artistic labour and creativity in the period Ultimately how women faced the pragmatics of their own creative labour as they pursued vocations trades and professions in the literary marketplace and related art industries reveals the different ideological positions surrounding the transition of women from industrious amateurism to professional artistry

Nineteenth-Century Fiction and the Production of Bloomsbury Matthew Ingleby, 2018-11-05 This study explores the role of fiction in the social production of the West Central district of London in the nineteenth century It tells a new history of the novel from a local geographical perspective tracing developments in the form as it engaged with Bloomsbury in the period it emerged as the city's dominant literary zone A neighbourhood that was subject simultaneously to socio economic decline and cultural ascent fiction set in Bloomsbury is shown to have reconceived the area's marginality as potential autonomy Drawing on sociological theory this book critically historicizes Bloomsbury's trajectory to show that its association with the intellectual fraction known as the Bloomsbury Group at the beginning of the twentieth century was symptomatic rather than exceptional From the 1820s onwards writers positioned themselves socially within the metropolitan geography they projected through their fiction As Bloomsbury became increasingly identified with the cultural capital of writers rather than the economic capital of established

wealth writers subtly affiliated themselves with the area and the figure of the writer and Bloomsbury became symbolically conflated

Creating Identity in the Victorian Fictional Autobiography Heidi L. Pennington, 2018-04-30 This is the first book length study of the fictional autobiography a subgenre that is at once widely recognizable and rarely examined as a literary form with its own history and dynamics of interpretation Heidi L Pennington shows that the narrative form and genre expectations associated with the fictional autobiography in the Victorian period engages readers in a sustained meditation on the fictional processes that construct selfhood both in and beyond the text Through close readings of Jane Eyre David Copperfield and other well known examples of the subgenre Pennington shows how the Victorian fictional autobiography subtly but persistently illustrates that all identities are fictions Despite the subgenre s radical implications regarding the nature of personal identity fictional autobiographies were popular in their own time and continue to inspire devotion in readers This study sheds new light on what makes this subgenre so compelling up to and including in the present historical moment of precipitous social and technological change As we continue to grapple with the existential question of what determines who we really are this book explores the risks and rewards of embracing conscious acts of fictional self production in an unstable world

Virginia Woolf and the Professions Evelyn Tsz Yan Chan, 2014-07-28 This book explores Virginia Woolf s engagement with the professions in her life and writing Woolf underscored the significance of the professions to society such as the opportunity they provided for a decent income and the usefulness of professional accreditation However she also resisted their hierarchical structures and their role in creating an overspecialised and fragmented modernity which prevented its members from leading whole fulfilling lives This book shows how Woolf s writing reshaped the professions so that they could better serve the individual and society and argues that her search for alternatives to existing professional structures deeply influenced her literary methods and experimentation

Work, Inheritance, and Deserts in Joseph Conrad's Fiction Evelyn Tsz Yan Chan, 2022-08-19 This book focuses on the complex relationships between inheritance work and desert in literature It shows how from its manifestation in the trope of material inheritance and legacy in Victorian fiction inheritance gradually took on additional more modern meanings in Joseph Conrad s fiction on work and self making In effect the emphasis on inheritance as referring to social rank and wealth acquired through birth shifted to a focus on talent ability and merit often expressed through work The book explores how Conrad s fiction engaged with these changing modes of inheritance and work and the resulting claims of desert they led to Uniquely it argues that Conrad s fiction critiques claims of desert arising from both work and inheritance while also vividly portraying the emotional costs and existential angst that these beliefs in desert entailed The argument speaks to and illuminates today s debates on moral desert arising from work and inheritance in particular from meritocratic ideals Its new approach to Conrad s works will appeal to students and scholars of Conrad and literary modernism as well as a wider audience interested in philosophical and social debates on desert deriving from inheritance and work

Rotunno, 2013-07-12 By 1840 the epistolary novel was dead Letters in Victorian fiction however were unmistakably alive *Postal Plots* explores how Victorian postal reforms unleashed a new and sometimes unruly population into the Victorian literary marketplace where they threatened the definition and development of the Victorian literary professional

Author Fictions Ingo Berensmeyer, 2023-10-04 Fictional novelists and other author characters have been a staple of novels and stories from the early nineteenth century onwards What is it that attracts authors to representing their own kind in fiction *Author Fictions*

addresses this question from a theoretical and historical perspective Narrative representations of literary authorship not only reflect the aesthetic convictions and social conditions of their actual authors or their time they also take an active part in negotiating and shaping these conditions The book unfolds the history of such author fictions in European and North American texts since the early nineteenth century as a literary history of literary authorship ranging from the Victorian bildungsroman to contemporary autofiction It combines rhetorical and sociological approaches to answer the question how literature makes authors Identifying author fictions as narratives that address the fragile material conditions of literary creation in the actual and symbolic economies of production Ingo Berensmeyer explores how these texts elaborate and manipulate concepts and models of authorship This book will be relevant to English American and comparative literary studies and to anyone interested in the topic of literary authorship

Problem Novels Anna Maria Jones, 2007 In *Problem Novels* Anna Maria Jones argues that far from participating invisibly in disciplinary regimes many Victorian novels articulate sophisticated theories about the role of the novel in the formation of the self In fact it is rare to find a Victorian novel in which questions about the danger or utility of novel reading are not embedded within the narrative In other words one of the stories that the Victorian novel tells over and over again is the story of what novels do to readers This story occurs in moments that call attention to the reader's engagement with the text In chapters on Wilkie Collins Anthony Trollope and George Meredith Jones examines problem novels that is novels that both narrate and invite problematic reading as part of their theorizing of cultural production *Problem Novels* demonstrates that these works posit a culturally embedded sensationably susceptible reader and at the same time present a methodology for critical engagement with cultural texts Thus the novels theorize paradoxically a reader who is both unconsciously interpellated and critically empowered And Jones argues it is this paradoxical construction of the unconscious critical subject that re-emerges in the theoretical paradigms of Victorian cultural studies scholarship Indeed as *Problem Novels* shows Victorianists' attachments to critical detective work closely resemble the sensational attachments that we assume shaped Victorian novel readers
