**Reading** David J. Alworth,2018-11-20 Site Reading offers a new method of literary and cultural interpretation and a new theory of narrative setting by examining five sites supermarkets dumps roads ruins and asylums that have been crucial to American literature and visual art since the mid twentieth century Against the traditional understanding of setting as a static background for narrative action and character development David Alworth argues that sites figure in novels as social agents Engaging a wide range of social and cultural theorists especially Bruno Latour and Erving Goffman Site Reading examines

how the literary figuration of real material environments reorients our sense of social relations To read the sites of fiction Alworth demonstrates is to reveal literature as a profound sociological resource one that simultaneously models and theorizes collective life Each chapter identifies a particular site as a point of contact for writers and artists the supermarket for Don DeLillo and Andy Warhol the dump for William Burroughs and Mierle Laderman Ukeles the road for Jack Kerouac Joan Didion and John Chamberlain the ruin for Thomas Pynchon and Robert Smithson and the asylum for Ralph Ellison Gordon Parks and Jeff Wall and shows how this site mediates complex interactions among humans and nonhumans The result is an interdisciplinary study of American culture that brings together literature visual art and social theory to develop a new sociology of literature that emphasizes the sociology in literature Reading Shakespeare on Stage Herbert R.

Coursen,1995 Reading Shakespeare on Stage offers a straightforward set of criteria whereby anyone from the first time playgoer to the most experienced Shakespearean scholar may evaluate his or her response to a production of one of Shakespeare s scripts This articulation of response is not a by product of going to the theater but a central part of the experience The invitation to response is a function of Shakespeare s stage which was open to the audience on three sides and is incorporated into his scripts through soliloquies asides and references to Shakespeare s stage and his dramaturgy The concept of script as opposed to text makes possible an approach to Shakespeare s plays as plays a function to which their literary quality is subordinate That fact however does not mean that recent critical tendencies are irrelevant to the scripts Feminist and historicist readings of the plays are contextualized in and by the ongoing energy system of production It remains true however that many members of the growing audience for live performances can not determine what may have been strong or weak about a given production The size and shape of the stage and the size of the auditorium for example define what can occur within the given space but few spectators take that crucial factor into account Reading Shakespeare on Stage provides the criteria for evaluation while at the same time admitting that the criteria themselves are subject to debate and that their application emerges from the subjective psychology of perception of individual spectators BOOK
