Map History of Russia, A. Brian Catchpole, 1983 **Russia's 'Age of Silver' (Routledge Revivals)** Ian

Blanchard, 2014-05-01 First published in 1989 Russia's Age of Silver represents a major contribution to the history of the international economy during the eighteenth century challenging old prejudices and establishing the importance of Russian precious metal production Ian Blanchard examines the nature of the Central and South America specie crisis of 1670 to 1760 and the response of European precious metal producers He highlights the rise of the Russian copper industry to a position of world supremacy and the Siberian gold and silver mines to old world supremacy The study explains why Russia experienced little inflation and why no metal was exported the economy acted as a sponge absorbing the flood of coins as monetary expansion was paralleled by rapid economic growth These developments doubled average per capita incomes over the course of the century so that between 1788 and 1807 the average Russian enjoyed an income equivalent to that of their British counterpart Providing a comprehensive analysis this reissue will be of particular value to students and researchers with an interest in Russian economic history **Mapping Russia's Natural Focal Diseases** Svetlana Malkhazova, Varvara

Mironova, Natalia Shartova, Dmitry Orlov, 2018-10-24 This book is the first scientific publication on diseases caused by agents circulating in natural environments independently from humans covering the whole territory of the Russian Federation It contains diverse and multifaceted information both in textual and cartographic form The book focuses on the historical and current distribution of natural focal diseases in Russia epidemiological aspects natural and socio economic determinants conducting natural foci With a series of maps this book depicts population morbidity rates in particular regions and on a national level for the 21st century With numerous color illustrations this book appeals to a wide audience and is of particular interest to geographers environmental workers epidemiologists and other specialists interested in environmental and public health issues *Vladimir Putin and Russia? Imperial Revival* David E. McNabb, 2017-07-05 Discerning the early stages of the

rebirth of a new Russian empire from the ashes of the Soviet Union Vladimir Putin and Russia's Imperial Revival argues that Russia's recent overtly aggressive actions and foreign policy doctrines have signaled a renewal of the Cold War At the least Russia's actions represent the potential for renewal This book explains these developments in a historical context The book begins by describing Russia's initial policy of rapprochement after the collapse of the Soviet Union and its development into a foreign policy of threatened or actual armed aggression It identifies today's Russia as a nation determined to re-establish itself as a political and military force As a prominent figure in the development and continuation of its current foreign policy Vladimir Putin plays a central role in the topics covered Previous literature often treats Putin as an individual phenomenon examining his connections to corruption or the secret police but here David E McNabb examines him as the latest in a long history of Russian despots who followed similar expansionist policies He details some of the tactics Putin uses to instill fear and dominate political policies of republics newly independent from Russia These tactics include the use of energy as a

weapon cyber terrorism and military support for ethnic Russian separatists in other sovereign nations most recently exemplified by Russia's annexation of Crimea from Ukraine via armed invasion In an attempt to demystify Russia's emergence as an international political force Vladimir Putin and Russia's Imperial Revival grounds its analyses in history It explores as far back as the establishment of the first Russian empire and regards Putin as a leader determined to establish a fifth imperial incarnation It provides a nuanced understanding of how Russia arrived at its current position through recent and distant internal and international events
