Leal, Bradley Hoot, Stavros Skopeteas, Joseph V. Casillas, Oksana Laleko, 2025-08-19 Human languages constrain the form utterances can take with constraints on grammaticality being but one example Beyond grammaticality utterances can vary in terms of their infelicity depending on how constituents relate to the surrounding discourse context speakers communicative needs and speakers assessment of the hearers beliefs The study of information structure explores how speakers package their utterances into blocks with varying informational values formalizing these units with notions like focus background or topic These categories among others have been the subject of substantial interest and debate in linguistics generating both theoretical models and experimental studies bearing on how information structure is represented and interpreted in the minds of speakers and how particular information structural categories are encoded in the grammar However the study of how information structure is acquired is still fledgling with uneven coverage across populations and

languages Similarly the wide cross linguistic variation in the use of syntactic prosodic and morphological means of its expression has been a major stumbling block in the development of a solid methodological foundation for experimental investigations As things stand the field is ripe for contributions from more varied approaches and drawing on linguistic data from under represented languages and populations

Syntax, Semantics and Acquisition of Multiple Interrogatives Lydia Grebenyova, 2012-10-17 Multiple interrogatives questions with multiple wh phrases e g Who bought what have long presented analytical challenges for linguistic theory This monograph presents a new theoretical and experimental study of this construction The theoretical findings concern the interaction between superiority effects subject auxiliary inversion and the distribution of pair list and single pair readings cross linguistically The author examines multiple interrogatives under sluicing i e clausal ellipsis presenting new arguments for the deletion analysis of sluicing The author also reports the results of several experimental studies on how children acquire the language specific properties of multiple interrogatives in English

Russian and Malayalam The results suggest a correlation between the acquisition of multiple interrogatives and the acquisition of contrastive focus which has been independently motivated in the syntactic literature The monograph will be of interest to linguists concerned with syntax semantics and language acquisition as well as readers who are interested in a comprehensive theory of language in general , *Successful Family Language Policy* Mila Schwartz, Anna Verschik, 2013-12-12 This book presents the forefront of research in the emerging field of family language policy This is the first volume to explore the link between family language policy practice and management in the light of state and community language policy in more than 20 ethno linguistic communities worldwide Contributions by leading scholars from eight countries and three continents offer insights in how family language policy might be interpreted from various theoretical perspectives using innovative methodologies In particular the authors present novel data on successful family language practices such as faith related literacy activities and homework sessions as well as management including prayer choice of bilingual education and links with mainstream and complementary learning which permit the realization of language ideology within three contexts immigrant families inter marriage families and minority and majority families in conflict ridden societies **Mind Expanding: Teaching For Thinking And Creativity In Primary Education** Wegerif, Rupert, 2010-08-01 There is considerable interest in education around the world in flexible thinking and learning skills but very little consensus as to the nature of these skills and how best to promote them in schools This book puts forward a clear and practical framework for understanding thinking creativity and learning to learn as the fruits of engagement in dialogue It also outlines in detail how this framework can be applied to teaching across the curriculum at both primary and secondary level drawing on the best practices associated with the teaching thinking creativity and learning to learn movements explaining their success in terms of dialogic theory In particular the book incorporates aspects of a number of thinking skills approaches such as Lipman s Philosophy for Children approach as well as features of contemporary innovations in education such as assessment for learning and the development of creativity Each chapter opens with a vignette to set the scene and continue into a light and popularly written exposition of theory before moving on to a description of practice and concluding with practical guidelines for how to teach for thinking and creativity in schools and classrooms The first six chapters in the book have more of a focus on developing core theoretical themes and the following six chapters in the second half of the book focus more on practice led themes The relationship between theory and practice is treated as flexible and dynamic theory being developed by practice as much as practice implementing theory *Linguistic Choices in the Contemporary City* Dick Smakman, Jiří Nekvapil, Kapitolina Fedorova, 2022-05-22 *Linguistic Choices in the Contemporary City* focuses on how individuals navigate conversation in highly diversified contexts and provides a broad overview of state of the art research in urban sociolinguistics across the globe Bearing in mind the impact of international travel and migration the book accounts for the shifting contemporary studies to the workings of language choices in places where people with many different
