Semiotics And Thematics In Hermeneutics:

Semiotics and Thematics in Hermeneutics T. K. Seung, 1982 Semiotics and Thematics in Hermeneutics Lily Bess Campbell, 1972 Hermeneutics and Modern Philosophy Brice R. Wachterhauser, 1986-11-20 Hermeneutics and Modern Philosophy is a collection of interpretive and critical essays on philosophical hermeneutics focusing on the seminal work of Heidegger and Gadamer The anthology brings together classic pieces in the field that previously were widely scattered and includes new articles that shed light on much debated issues in contemporary hermeneutics Along with essays by Habermas and Gadamer it features works by Paul Ricoeur Wolfhart Pannenberg Richard Bernstein David Hoy Reiner Wiehl Marjorie Grene Gianni Vattimo Merold Westphal John Caputo Kathleen Wright Charles Larmore and Brice Wachterhauser Hermeneutics and Modern Philosophy provides both an excellent introduction to the field and a useful commentary on its current state *The Hermeneutic Tradition* Gayle L. Ormiston, Alan D. Schrift, 1990-01-01 Here are the major statements of the leading figures in the nineteenth and twentieth century German and French hermeneutic traditions the major statements on the aims methods and techniques of interpretation Some of these appear here for the first time in English This book establishes the context for contemporary analyses of interpretation Part I traces the evolution of hermeneutics from Friedrich Ast and Friedrich Schleiermacher through Wilhelm Dilthey to Martin Heidegger s placing of hermeneutics at the center of the ontological analysis of human being Part II follows the development of the Heideggerian tradition in the writings of Hans Georg Gadamer Gadamer s philosophical hermeneutics is then located at the center of several important exchanges with more traditional objective hermeneutical methodologists like Emilio Betti ideology critics like J rgen Habermas and linguistic phenomenological thinkers like Paul Ricoeur **Transforming the Hermeneutic Context** Gayle L. Ormiston, Alan D. Schrift, 1990-01-01 This book presents contemporary analyses of interpretation by some of the most prominent figures in contemporary philosophy and literary criticism These essays question and transform traditional statements on the aims methods and techniques of interpretation The essays demonstrate how contemporary discussions of interpretation are necessarily sent back to the hermeneutic tradition Emphasizing the importance of Friedrich Nietzsche s influence on the contemporary debates concerning current interpretive practices this volume traces the differences in interpretive perspectives generated in the writings of Michel Foucault Eric Blondel Julia Kristeva Jacques Derrida Manfred Frank Werner Hamacher and Jean Luc Nancy The essays by Foucault Blondel Frank Hamacher and Nancy appear here for the first time in English *Introduction to Philosophical Hermeneutics* Jean Grondin, 1994-01-01 In this wide ranging historical introduction to philosophical hermeneutics Jean Grondin discusses the major figures from Philo to Habermas analyzes conflicts between various interpretive schools and provides a persuasive critique of Gadamer s view of hermeneutic history though in other ways Gadamer s Truth and Method serves as a model for Grondin s approach Grondin begins with brief overviews of the pre nineteenth century thinkers Philo Origen Augustine Luther Flacius Dannhauer Chladenius Meier Rambach Ast and Schlegel

Next he provides more extensive treatments of such major nineteenth century figures as Schleiermacher B ckh Droysen and Dilthey There are full chapters devoted to Heidegger and Gadamer as well as shorter discussions of Betti Habermas and Derrida Because he is the first to pay close attention to pre Romantic figures Grondin is able to show that the history of hermeneutics cannot be viewed as a gradual steady progression in the direction of complete universalization His book makes it clear that even in the early period hermeneutic thinkers acknowledged a universal aspect in interpretation that long before Schleiermacher hermeneutics was philosophical and not merely practical In revising and correcting the standard account Grondin s book is not merely introductory but revisionary suitable for beginners as well as advanced students in the field

Goethe, Nietzsche, and Wagner T. K. Seung, 2006-01-01 The author reads Goethe s Faust as the first epic written under Spinoza s influence He shows how its thematic development is governed by Spinoza s pantheistic naturalism He further contends that Wagner and Nietzsche have tried to surpass their mentor Goethe s work by writing their own Spinozan epics of love and power in The Ring of the Nibelung and Thus Spoke Zarathustra These Spinozan epics are designed to succeed the Christian epics in the Western literary tradition Whereas the Christian epics dared to groom human beings for their destiny in the supernatural world the Spinozan epics try to reinstate humanity as the children of Mother Nature and overcome their alienation from the natural world which had been dictated by the long reign of Christianity However it has been well noted that none of these new epics seems to hang together thematically as a coherent work By his Spinozan reading the author not only demonstrates the thematic unity of each of them singly but further illustrates their thematic relation with each other

A Pentecostal Hermeneutic for the Twenty First Century Kenneth Archer, 2004-12-30 The purpose of this book is to present a critically informed contemporary Pentecostal hermeneutic rooted in Pentecostal identity in its stories beliefs and practices As Pentecostals began entering academic communities of higher learning their interpretive methods became both mainstream and modernistic as they adapted the historical critical methods or the so called scientific hermeneutic The proposed hermeneutic contained in this book desires to move beyond the impasse created by Modernity instead pushing Pentecostals into the contemporary context by critically re appropriating early Pentecostal ethos and interpretive practices for a contemporary Pentecostal community The Pentecostal hermeneutic is a three way interaction for theological meaning between the Holy Spirit the Pentecostal community and sacred Scripture

Law and Semiotics Roberta Kevelson, 2012-12-06 of those problems in law which we inherit and or retrieve in order to reconstruct and interpret in the light of legal semiotics however defined In addition to three main areas of underlying metaphysical assumptions there are also three main areas of possible editorial focus and these should be mentioned The three areas of focus are 1 the state of the art of legal semiotics 2 the dynamic intense and exceptionally interactive quality of conference participation and 3 the content of the papers presented which is the material of this volume My choice of this triad of focal possibilities is to exclude the last since the papers speak for themselves and need but a brief reportorial caption I also eliminate the second possible

focus as the main focus since the discussion was not taped for editing into this volume and must remain for all those who participated a quality of scholarly meetings to be remembered savored and hoped for My main focus is on the state of the art of legal semiotics II At the conclusion of the First Round Table on Law and Semiotics 1987 it was noted that there were no working paradigms in Kuhn's sense that thus far emerged but rather that several problematic areas were disclosed which warrant attention Therefore the first concern of Legal Semiotics should be to address the surface i e

Reading Dante Jesper Hede, 2007-01-01 Reading Dante The Pursuit of Meaning examines the problem of determining the thematic unity of Dante s Divina Commedia in the history of Dante studies The question of unity has puzzled Dante readers for centuries due to an apparent discrepancy between Dante s construction of the afterworld and medieval Christian teachings on the conditions of the afterlife If all sins condemned in Hell can be forgiven we would expect to see them purged in Purgatory and their virtuous opposite celebrated in Paradise In Dante s account however the three realms of the afterlife appear as self contained entities with only partially related structures that undermine the establishment of thematic correspondences and the determination of the poem s thematic unity Was Dante inconsistent in his exposition of the divine order or have Dante scholars been inconsistent in their treatment of the poem s thematic content Jesper Hede examines the prevalent strategies of reading applied by Dante scholars in their attempt to solve the problem of unity Detailing the major contributions to the resolution of the problem and focusing on medieval philosophy and modern hermeneutics Hede argues that a systematic parallel reading of the poem s three parts reveals that it is the vision of divine order that gives the poem its thematic unity

The Return of Thematic Criticism Werner Sollors,1993 In the glory days of high modernist formalism it was anathema to speak about the content of a work of art Those days are gone and critical practice now is largely thematic practice A focus on the themes of literature informs feminist new historicist ethnic and even second generation deconstructionist approaches However such practice is not always recognized The specter of theoretically impoverished positivism still haunts thematic analysis making it the approach to literature that dare not speak its name This volume brings together for the first time an international group of writers critics and theoreticians who have thought deeply about this issue How can we determine the theme of a given text May the focus on form be the theme of a certain moment Can the motif be understood as a formal category What operations permit us to say that three or four texts constitute variants of the same theme The contributors challenge the conventional dismissal of merely thematic approaches and offer the reader different ways of tackling the issue of what a piece of writing is about The work here comes out of such diverse intellectual traditions as Russian film theory French phenomenology Foucault narratology the Frankfurt School intellectual history Geistesgeschichte psychoanalytic criticism linguistics ideological criticism Proppian folklore studies and computerized plot summary models In addition to a collection of aphorisms from Plato to Robert Coover and a group of general and theoretical essays this volume contains examples of practical engagement with such topics as literary history Shakespeare autumn poetry anti-Semitism fading colors bachelors Richard Wagner and the Mexican Revolution No comparable volume exists *Twentieth-Century Literary Theory* K.M. Newton,1997-09-30 A thoroughly revised edition of this successful undergraduate introduction to literary theory this text includes core pieces by leading theorists from Russian Formalists to Postmodernist and Post colonial critics An ideal teaching resource with helpful introductory notes to each chapter

Unwording the World Carla Locatelli, 2016-11-11 This comprehensive study of Beckett's art proposes a doubly contextualized reading of his later works Carla Locatelli reads late Beckett through his previous writings and relates them to the literary philosophical and critical community which surrounds him To appreciate his contribution as an epistemological rhetorician she proposes a multidisciplinary approach that draws upon a remarkably wide range of theorists including Kierkegaard Husserl Heidegger Peirce Jakobson Deleuze Lacan and Derrida In Part One of this study Locatelli traces the evolution of Beckett's writing proposing that his principal concern devolves more and more upon the essential character of representation and its role in the constitution and signification of the subject Part One also provides a history of this thematic showing how Beckett's writing effects a radical displacement of representation from function to object of discourse In Part Two Locatelli focuses on Beckett's fiction after the Nobel Prize of 1969 and on the epistemological and aesthetic issues in *Company* 1980 *Ill Seen Ill Said* 1981 and *Worstward Ho* 1983 She examines his unwording in this *Second Trilogy* and defines it as a process of subtraction that probes into the most basic mode of our being in the world Here Beckett proposes as Locatelli suggests a very real hermeneutics of experience beyond the schools of suspicion which are still influencing some postmodernist thinking This volume will be of particular value to scholars and students of twentieth century English literature French literature and literary theory
