Lane,2002 Explores the dramatic colonial history of Ecuador and southern Colombia fleshing out everyday life and individual exploits **Ecology of Fear** Mike Davis,2014-01-14 Rich with detail bold and original Mike Davis's Ecology of Fear is a gripping reconnaissance into the urban future an essential portrait of America at the millennium Los Angeles has become a magnet for the American apocalyptic imagination Riot fire flood earthquake only locusts are missing from the almost biblical list of disasters that have struck the city in the 1990s From Ventura to Laguna more than one million Southern Californians have been directly touched by disaster related death injury or damage to their homes and businesses Middle class apprehensions about angry underclasses are exceeded only by anxieties about blind thrust faults underlying downtown L A or about the firestorms that periodically incinerate Malibu And the force of real catastrophe has been redoubled by the obsessive fictional destruction of Los Angeles by aliens comets and twisters in scores of novels and films The former Land of Sunshine is now seen by much of the world including many of L A's increasingly nervous residents as a veritable Book of the Apocalypse theme park In this extraordinary

book Mike Davis the author of City of Quartz and our most fascinating interpreter of the American metropolis unravels the secret political history of disaster real and imaginary in Southern California As he surveys the earthquakes of Santa Monica the burning of Koreatown the invasion of man eating mountain lions the movie Volcano and even Los Angeles's underrated tornado problem he exposes the deep complicity between social injustice and perceptions of natural disorder Arguing that paranoia about nature obscures the fact that Los Angeles has deliberately put itself in harm's way Davis reveals how market driven urbanization has for generations transgressed against environmental common sense And he shows that the floods fires and earthquakes reaped by the city were tragedies as avoidable and unnatural as the beating of Rodney King and the ensuing explosion in the streets
