Almost All Aliens Paul Spickard, Francisco Beltrán, Laura Hooton, 2022-09-15 Almost All Aliens offers a unique reinterpretation of immigration in the history of the United States Setting aside the European migrant centered melting pot model of immigrant assimilation Paul Spickard Francisco Beltrán and Laura Hooton put forward a fresh and provocative reconceptualization that embraces the multicultural racialized and colonially inflected reality of immigration that has always existed in the United States Their astute study illustrates the complex relationship between ethnic identity and race slavery and colonial expansion Examining the lives of those who crossed the Atlantic as well as those who crossed the Pacific the Caribbean and the North American Borderlands Almost All Aliens provides a distinct inclusive and critical analysis of immigration race and identity in the United States from 1600 until the present The second edition updates Almost All Aliens through the first two decades of the twenty first century recounting and analyzing the massive changes in immigration policy the reception of immigrants and immigrant experiences that whipsawed back and forth throughout the era It includes a new final chapter that brings the story up to the present day This book will appeal to students and researchers alike studying the history of immigration race and colonialism in the United States as well as those interested in American identity especially in the context of the early twenty first century

Kinship by Design Ellen Herman, 2009-08-01 What constitutes a family Tracing the dramatic evolution of Americans answer to this question over the past century Kinship by Design provides the fullest account to date of modern adoption s history Beginning in the early 1900s when children were still transferred between households by a variety of unregulated private arrangements Ellen Herman details efforts by the U S Children s Bureau and the Child Welfare League of America to establish adoption standards in law and practice She goes on to trace Americans shifting ideas about matching children with physically or intellectually similar parents revealing how research in developmental science and technology shaped adoption as it navigated the nature nurture debate Concluding with an insightful analysis of the revolution that ushered in special needs transracial and international adoptions Kinship by Design ultimately situates the practice as both a different way to make a family and a universal story about love loss identity and belonging In doing so this volume provides a new vantage point from which to view twentieth century America revealing as much about social welfare statecraft and science as it does about childhood family and private life

Killing the Black Body Dorothy Roberts, 2014-02-19 Killing the Black Body remains a rallying cry for education awareness and action on extending reproductive justice to all women It is as crucial as ever even two decades after its original publication A must read for all those who claim to care about racial and gender justice in America Michelle Alexander author of The New Jim Crow In 1997 this groundbreaking book made a powerful entrance into the national conversation on race In a media

landscape dominated by racially biased images of welfare queens and crack babies Killing the Black Body exposed America's systemic abuse of Black women's bodies From slave masters economic stake in bonded women's fertility to government programs that coerced thousands of poor Black women into being sterilized as late as the 1970s these abuses pointed to the degradation of Black motherhood and the exclusion of Black women's reproductive needs in mainstream feminist and civil rights agendas Compelling Deftly shows how distorted and racist constructions of black motherhood have affected politics law and policy in the United States Ms *Research Relating to Children*, 1976 **Adopting for God** Soojin Chung, 2021-12-14 Explores the role played by missionaries in the twentieth century transnational adoption movement Between 1953 and 2018 approximately 170 000 Korean children were adopted by families in dozens of different countries with Americans providing homes to more than two thirds of them In an iconic photo taken in 1955 Harry and Bertha Holt can be seen descending from a Pan American World Airways airplane with twelve Asian babies eight for their family and four for other families As adoptive parents and evangelical Christians who identified themselves as missionaries the Holts unwittingly became both the metaphorical and literal parental figures in the growing movement to adopt transnationally Missionaries pioneered the transnational adoption movement in America Though their role is known there has not yet been a full historical look at their theological motivations which varied depending on whether they were evangelically or ecumenically focused and what the effects were for American society relations with Asia and thinking about race more broadly Adopting for God shows that somewhat surprisingly both evangelical and ecumenical Christians challenged Americans to redefine traditional familial values and rethink race matters By questioning the perspective that equates missionary humanitarianism with unmitigated cultural imperialism this book offers a more nuanced picture of the rise of an important twentieth century movement the evangelization of adoption and the awakening of a new type of Christian mission Raising Biracial Children Kerry Rockquemore, Tracey A. Laszloffy, 2005 As the multiracial population in the United States continues to rise new models for our understanding of mixed race children and how their conception of racial identity must be developed A wide divide between academics who research biracial identity and the everyday world of parents and practitioners who raise and deal with mixed race children exists This book aims to fill this gap by providing an extensive synthesis of the existing research in the field as well as a model for better understanding the unique process of racial identity development for mixed race children Raising Biracial Children provides parents educators social workers and anyone interested in multiracial issues with an accessible framework for understanding healthy mixed race identity development and to translate those findings into practical care giving strategies **Kin of Another Kind** Cynthia Callahan, 2011 Rereads 20th century American literature as it has portrayed adoption across racial lines from Faulkner to Kingsolver **Rethinking the Color Line** Charles A. Gallagher, 2022-01-20 Rethinking the Color Line helps make sense of how race and ethnicity influence aspects of social life in ways that are often made invisible by culture politics and economics Charles A Gallagher has assembled a collection of

readings that are theoretically informed and empirically grounded to explain the dynamics of race and ethnicity in the United States Students will be equipped to confidently navigate the issues of race and ethnicity examine its contradictions and gain a comprehensive understanding of how race and ethnic relations are embedded in the institutions that structure their lives User friendly without sacrificing intellectual or theoretical rigor the Seventh Edition has been thoroughly updated to reflect the current debates and the state of contemporary U S race relations
