New Middle East:

The New Middle East Shimon Peres, Arye Naor, 1993 The Israeli Minister of Foreign Affairs offers a vision of the future for the Middle East He sees a reconstructed region free of past conflicts set to take its place in a new era one that will not tolerate backwardness or ignorance and a social and economic revival fuelled by the billions of dollars wasted for decades on defence He also offers an analysis of how peace can be achieved seeking nothing short of an historic new chapter between two peoples an end to 100 years of hostility and a beginning of 100 years of peace and understanding The New Middle East James L. Gelvin, 2017-10-03 In the aftermath of the collapse of the USSR the American invasion of Iraq and the Arab uprisings of 2010 11 a new Middle East has emerged The Syrian civil war has displaced half the country's population and ISIS and other jihadi groups thrive in the political vacuum there and in Iraq setting a new standard for political violence Meanwhile regimes in Egypt and Bahrain have become even more repressive after the uprisings there and Libya and Yemen have virtually ceased to exist as states The hallmarks of this new Middle East are rebellion and repression proxy wars sectarian strife the rise of the Islamic State and intraregional polarization International and regional actors stoke the flames with the United States and Russia seeking to reposition themselves in the region and Saudi Arabia and Iran vying for supremacy In the long term perils including climate change food and water insecurity and population growth along with bad governance and stagnant economies will determine the destiny of the region In The New Middle East What Everyone Needs to Know renowned Middle East scholar James L Gelvin explains all these developments and more in a concise question and answer format Outlining the social political and economic contours of the New Middle East he illuminates the current crisis in the region and explores how the region will continue to change in the decades to come **The New Middle East**, 1969

The New Middle East James L. Gelvin, 2023 In the second edition of The New Middle East What Everyone Needs to Know renowned Middle East scholar James L Gelvin explains how in the aftermath of the collapse of the USSR the American invasion of Iraq and the Arab uprisings of 2010 11 a new Middle East has emerged Syria Libya and Yemen have become crisis states where warlords vie against governments and each other The economies of Iran Turkey and Lebanon weakened by corruption sanctions and neoliberal economic policies have imploded Some states have doubled down on repression while others intervene in the internal affairs of their neighbors with impunity The revised and expanded edition explores these hallmarks of the New Middle East along with the end of American hegemony in the region the expansion of conflict zones the continued centrality of the Saudi Iranian competition and the ramifications of the breakdown of the Israel Palestine peace process It also highlights the crisis of human security brought on by the COVID 19 pandemic bad governance stagnant economies poor healthcare and educational delivery systems climate change food and water insecurity population growth and imbalance and the unprecedented displacement of populations In a concise question and answer format Gelvin outlines the social political and economic contours of the New Middle East illuminating the current crisis in the region and exploring

how it is likely to evolve in the decades to come **The New Middle East** Fawaz A. Gerges, 2013-12-30 The New Middle East is one of the first comprehensive books to critically examine the Arab popular uprisings of 2011-12. While these uprisings prompted a number of cursory publications, this volume contains meticulous and thoughtful reflections on the causes, drivers, and effects of these seminal events on the internal, regional, and international politics of the Middle East and North Africa. Although specific conditions in individual countries that have experienced large-scale popular mobilizations are investigated, they are neither treated in isolation nor separated from broader developments in the region. Instead, the authors highlight connections between individual case studies and systemic conditions throughout the Arab arena. These include the crisis of political authority, the failure of economic development, and new genres of mobilization and activism, especially communication technology and youth movements. The careful analysis and reflection on the prospects for democratic change in the region ensures the book will have both an immediate and enduring appeal. *The New Middle East* Paul Danahar, 2013-08-15 In 2011, the Arab revolts changed the Middle East forever. The toppling of a generation of dictators left the region in turmoil. Has the promise of the Arab Spring been lost? What does the rise of religious extremism on Europe's doorstep mean for the West and its allies? Is America giving up on the region, and if so, who will lead the new Middle East? Drawing on compelling first-hand reporting, a deep knowledge of the region's history, and access to many of the key players, BBC Bureau Chief Paul Danahar lays bare the forces that are shaping the region. Now completely revised and updated to include everything that has happened in the region since the book was first published. *Making the New Middle East* Valerie J. Hoffman, 2019-02-28 Demands for freedom, justice, and dignity have animated protests and revolutions across the Middle East in recent years, from the Iranian Green Movement and the Arab Spring uprisings to Turkey's March for Justice and the ongoing struggle in Palestine. Although expectations raised by the Arab Spring were largely disappointed, and protests that toppled entrenched rulers unleashed vicious counterrevolutionary forces, there is no doubt that the landscape of the Middle East has changed. Drawing from diverse disciplines, this volume offers critical perspectives on these changes, covering politics, religion, gender, dynamics, human rights, media, literature, and music. What ultimately has changed in the new Middle East? Who are the actors pushing the direction of change? How are aspirations for change being expressed through media and the arts? With extensive analysis and thoughtful reflection, this book gives readers an in-depth portrayal of a modernizing Middle East. *The Kurds in a New Middle East* Cengiz Gunes, 2018-09-29 This book examines the Kurds' rise as new regional actors in the Middle East and the impact this is having on the regional order. Kurdish political activism has reached a new height in the beginning of the 21st Century, with Kurdish movements in Iraq, Turkey, and Syria establishing themselves as a significant force in the domestic politics of these states. The consolidation of Kurdish autonomy in Iraq and the establishment of a Kurdish de facto autonomous region within Syria is adding to the Kurds' growing influence in the region and enabling Kurds to forge stronger relations with regional and international forces. The author analyses recent

developments in the Kurdish question in Turkey Iran Iraq and Syria to understand the inter connections and inter dependencies that exist in the transnational Kurdish political space The book s policy relevance is likely to attract strong interest from policy makers as well as from academics and students in the fields of Middle Eastern Politics and International Relations

Oil States in the New Middle East Kjetil Selvik, Bjørn Olav Utvik, 2015-07-16 Oil has been central to regime survival for oil states across the Arabian Peninsula and has been at the heart of their attempts to defuse the wave of Arab revolutions However in 2011 revolution hit Libya the most oil dependent regime in the Middle East The political storm winds that have swept this region have thrown into doubt the resilience of Arab rentier states and highlight how the political effects of oil vary across the oil producing countries Oil States in the New Middle East brings together leading experts to critically assess the centrality of oil and the relevance of Rentier State Theory in light of the post 2011 upheaval across the Middle East and North Africa It combines overall reflections on the political dynamics in oil states with focused case investigations of individual countries Taking as its starting point the centrality of oil in explanations of regime survival the book analyses how the oil states have responded to and fared throughout the Arab popular upheavals resulting in a critical assessment of the continued relevance of Rentier State Theory While observers have asked how the uprisings varied between oil and non oil states this book turns the comparative focus inward arguing for a more fine grained understanding of the political effects of oil in different oil producing countries This book would be of interest to students and scholars of Middle East North Africa and Gulf Studies Oil and Politics as well as Comparative Politics and International Political Economy

Gelvin, 2023 In the second edition of The New Middle East What Everyone Needs to Know renowned Middle East scholar James L Gelvin explains how in the aftermath of the collapse of the USSR the American invasion of Iraq and the Arab uprisings of 2010 11 a new Middle East has emerged Syria Libya and Yemen have become crisis states where warlords vie against governments and each other The economies of Iran Turkey and Lebanon weakened by corruption sanctions and neoliberal economic policies have imploded Some states have doubled down on repression while others intervene in the internal affairs of their neighbors with impunity The revised and expanded edition explores these hallmarks of the New Middle East along with the end of American hegemony in the region the expansion of conflict zones the continued centrality of the Saudi Iranian competition and the ramifications of the breakdown of the Israel Palestine peace process It also highlights the crisis of human security brought on by the COVID 19 pandemic bad governance stagnant economies poor healthcare and educational delivery systems climate change food and water insecurity population growth and imbalance and

the unprecedented displacement of populations In a concise question and answer format Gelvin outlines the social political and economic contours of the New Middle East illuminating the current crisis in the region and exploring how it is likely to evolve in the decades to come Dispatches from the Arab Spring Paul Amar,Vijay Prashad,2013-09-01 The Arab Spring unleashed forces of liberation and social justice that swept across North Africa and the Middle East with unprecedented speed ferocity and excitement Although the future of the democratic uprisings against oppressive authoritarian regimes remains uncertain in many places the revolutionary wave that started in Tunisia in December 2010 has transformed how the world sees Arab peoples and politics Bringing together the knowledge of activists scholars journalists and policy experts uniquely attuned to the pulse of the region Dispatches from the Arab Spring offers an urgent and engaged analysis of a remarkable ongoing world historical event that is widely misinterpreted in the West Tracing the flows of protest resistance and counterrevolution in every one of the countries affected by this epochal change from Morocco to Iraq and Syria to Sudan the contributors provide ground level reports and new ways of teaching about and understanding the Middle East in general and contextualizing the social upheavals and political transitions that defined the Arab Spring in particular Rejecting outdated and invalid yet highly influential paradigms to analyze the region from depictions of the Arab street as a mindless reactive mob to the belief that Arab culture was unfit for democratic politics this book offers fresh insights into the region s dynamics drawing from social history political geography cultural creativity and global power politics Dispatches from the Arab Spring is an unparalleled introduction to the changing Middle East and offers the most comprehensive and accurate account to date of the uprisings that profoundly reshaped North Africa and the Middle East Contributors Sheila Carapico U of Richmond Nouri Gana UCLA Toufic Haddad Adam Hanieh SOAS U of London Toby C Jones Rutgers U Anjali Kamat Khalid Medani McGill U Merouan Mekouar Maya Mikdashi NYU Paulo Gabriel Hilu Pinto U Federal Fluminense Brazil Jillian Schwedler Hunter College CUNY Ahmad Shokr Susan Slyomovics UCLA Haifa Zangana **Israel Facing a New Middle East** Itai Brun,Itamar Rabinovich,2017-04-01 The turmoil which has been rattling the Middle East in recent years has confronted Israel with fresh challenges and opportunities and requires it to rethink the three levels of its strategy and security policies National security Strategy sometimes referred to as Grand Strategy National Security Policy and National Military Strategy The book points to the years 1979 1981 as the years of transition from conventional military challenges faced by Israel to the novel challenges of terrorism missiles and rockets sub state guerrilla organizations on its borders and the prospect of nuclear weapons in hostile hands Some of these challenges have been exacerbated by the unraveling of neighboring Arab states The book s review of the evolution of Israeli policies through almost seven decades of war and conflicts shows the absence of a full fledged grand strategy the structural weakness of national security policy formulation by successive governments at the cabinet level and the dominant role of the IDF This state of affairs helps explain why and how Israel has responded to the recent turmoil in a piecemeal fashion rather than formulate a comprehensive policy that would

enhance its ability to respond to the new challenges and take advantage of the new opportunities **Hope and Despair**

Michael A. Horowitz, 2024-03-08 Days before his country signed a deal to normalise ties with Israel the Emirati Ambassador to the US penned an article in Hebrew directly addressing Israelis Israel he argued faced a choice between engagement with the rest of the region or isolation His words struck a chord then and will continue to ring true in the decades to come Michael A Horowitz tells the unfolding story of this decision of tension between the hope ushered in by the normalisation agreements and the enduring despair both Israelis and Palestinians feel about the waning prospects of peace Rather than examining the past Horowitz looks to Israel's future one marked by new opportunities but also tremendous challenges as the country tries to find its place in a region trying to find itself Israel is a ship in a storm navigating a new Middle East where unfinished revolutions regional competition perceived US disengagement and an unstable but menacing Iran all warrant caution In the promised land itself existing gaps are widening and the space for optimism is shrinking Hope and Despair is a brutally honest exploration of what lies ahead for Israel the waves the winds and the ray of light above the clouds **Iran Nuclear Accord**

and the Remaking of the Middle East Nader Entessar, Kaveh L. Afrasiabi, 2017-12-20 Entessar Afrasiabi's Iran Nuclear Negotiations Rowman Littlefield October 2015 offered a thorough analysis of the negotiation process between Iran and the 5 1 great powers about its nuclear program This book essentially builds upon it focusing this time on the final nuclear agreement the ensuing debates around it and its global and regional ramifications especially in the Middle East The first section analyzes the agreement through the prism of international relations theories using a constructivist critical theory approach This is followed by an overview of the intense debates in Iran the West and other parts of the world on the nuclear agreement and its various pros and cons not to mention the connected yet separate Iran IAEA agreement The second section covers Iran's foreign policy and its various priorities looking in particular at the impact of the nuclear deal on the country's external relations and orientations contextualized in terms of pre-existing issues and concerns and the profound influence of the nuclear agreement on the perceptions of Iranian power in the region and beyond Iran's relations with its Arab Turkish Russian and other neighbors are discussed focusing on both the direct and indirect impact of the nuclear agreement on these relations especially the paradoxical implications of the nuclear deal with respect to the non nuclear crises in the Middle East such as the Syria Iraq crisis and the re-alignments that have put Iran at the crossroads of East and West Other issues covered include energy security regional economic cooperation the endemic sectarianism highlighted by Iran Saudi competition and the deadlock on the Middle East peace process The third section then examines the issue of a Middle East nuclear weapons free zone and the likely consequences of the Iran nuclear deal on this prospect which in turn raises the issue of regional proliferation and counterproliferation The last section explores some possible various scenarios and the challenges of implementation as a relatively long term agreement providing specific policy recommendations for the regional actors and the external powers that are stakeholders in the volatile Middle East **Understanding the Volatile and Dangerous**
