extended appropriation within the criminal justice system and to discuss a normative framework that may assist in assessing the legitimacy of such confiscation schemes It also seeks to explore what a fair and reasonable balance between the interests of the state and those of the individual in this field might look like The analysis starts from an acknowledgement not only of the need for having effective confiscation regimes in place but also of the need for protecting the interests of the individual It is hoped that the book will stimulate further discussion on the legitimacy of asset recovery as a crime control measure
