Racial Issues In Criminal Justice:

Racial Issues in Criminal Justice Marvin D. Free, 2003-09-30 Almost a third of all African American men in their twenties in the United States are in jail or prison or on probation or parole African Americans who comprise approximately 13% of the general population make up about half of the prison population Between 1980 and 2000 38 states added more African American men to their prison systems than were added to their respective systems of higher education However these statistics fail to tell the entire story To understand how the dynamics of disproportionate minority confinement came to exist one must examine the historical and cultural antecedents that affected and continue to affect this group Examining proposed solutions and providing alternative perspectives this volume addresses the overrepresentation of African Americans in the criminal justice system by critically examining the significance of race in American society and criminal justice responses to crime and African Americans Offering a critical examination of the issues this collection begins with a discussion of the marginalization of African Americans in the academic discipline of criminal justice and in the larger society an assessment of the impact of the legacy of slavery on private prisons and mass imprisonment and an empirical examination of the depiction of African Americans in prime time television crime programs Part II looks at racial profiling the underrepresentation of African Americans in hate crime victimization research the impact of race on presentencing the trend toward trying juveniles in adult court and the discriminatory treatment of African Americans in capital eligible cases Finally Part III discusses the impact of African American police officers on the profession analyzes black juror nullification proposes an increase in the presence of African American jurors and assesses the potential ameliorative impact of restorative justice on the current racial imbalance in the criminal justice system *Police Brutality, Racial Profiling, and Discrimination in the Criminal Justice System* Egharevba, Stephen, 2016-11-17 In order to protect and defend citizens the foundational concepts of fairness and equality must be adhered to within any criminal justice system When this is not the case accountability of authorities should be pursued to maintain the integrity and pursuit of justice Police Brutality Racial Profiling and Discrimination in the Criminal Justice System is an authoritative reference source for the latest scholarly material on social problems involving victimization of minorities and police accountability Presenting relevant perspectives on a global and cross cultural scale this book is ideally designed for researchers professionals upper level students and practitioners involved in the fields of criminal justice and corrections **Racial Disparities in the Criminal Justice System** Joan Petersilia, Rand Corporation, 1983 This 2 year study compared the treatment of white and minority offenders at key decision points in the criminal justice processing of approximately 1 400 male prison inmates in California Michigan and Texas Study data came from the California Offender Based Transaction Statistics which tracks offender processing from arrest to sentencing and the Rand Inmate Survey which yielded data from self reports of approximately 1 400 male prison inmates in California Michigan and Texas Prior research on discrimination in the criminal justice system produced controversial and contradictory findings

Section II discusses the problems with this research and briefly describes the data and methodology Section III describes the workings of the criminal justice system and identifies racial differences in case processing revealed in some of the data Section IV analyzes more of the data for racial differences in crime commission rates and the probability of being arrested Section V looks at racial differences following the imposition of a court sentence Section VI explores racial differences in offender characteristics specifically crime motivation weapon use and prison violence Section VII summarizes the findings and presents the conclusions of the study Although the case processing system generally treated offenders similarly there were racial differences at two key points Minority suspects were more likely than whites to be released after arrest however after a felony conviction minority offenders were more likely than whites to be given longer sentences and to be put in prison instead of jail There were no statistically significant differences that implied discrimination against minorities in corrections

Race, Recognition and Retribution in Contemporary Youth Justice Esmorie Miller, 2021-12-30 Race Recognition and Retribution in Contemporary Youth Justice provides a cross national sociohistorical investigation of the legacy of racial discrimination which informs contemporary youth justice practice in Canada and England The book links racial disparities in youth justice especially exclusion from ideologies of care and notions of future citizenship with historical practices of exclusion Despite the logic of care found in both rehabilitative and

retributive forms of youth justice Black inner city youth remain excluded from lenience and social welfare considerations This exclusion reflects a historical legacy of racial discrimination apparent in the harsher sanctions levied against Black innercity youth In exploring race s role in this arrangement the book asks To what extent were Black youth excluded from historic considerations of the lenience and social care built into the logic of youth justice in England and Canada To what extent are the disproportionately high incarceration rates for Black inner city youth in the contemporary system a reflection of a historic exclusion from considerations of lenience and social care How might contemporary justice efforts be reoriented to explicitly prioritize considerations of lenience and social care ahead of penalty for Black inner city youth Examining the entrenched structural continuities of racial discrimination the book draws on archival and interview data with interviewees including professionals who work with inner city youth In concert with the archival and interview data the book offers the intractability malleability I M thesis an integrated social theoretical logic with the capacity to expand the customary analytical scope for understanding the contemporary entrenched normalization of racialized youth as punishable The aim is to advance a historicized account exploring youth s positioning as constitutive of a continuity of racialized peoples in general and youth s in particular historic exclusion from the benefits of modern rights including lenience and care The I M logic takes its analytical currency from a combined critical race theory CRT and recognition theory The book argues that a truly progressive era of youth justice necessitates cultivating policy and practice which explicitly prioritizes considerations of lenience and social care ahead of reliance on penalty This multidisciplinary book is valuable reading for academics and students researching criminology sociology politics anthropology critical race studies and history It will also appeal to practitioners in the field of youth justice policymakers and third sector organizations Race, Crime, and Criminal Justice Anita

Kalunta-Crumpton,2025-07-10 One of the most controversial topics on the subject of race crime and criminal justice is the disproportionate representation of Blacks in the criminal justice system as offenders and prison inmates Rather than portraying Blacks as perpetual victims of racism in which societal institutions are solely responsible for reform this book seeks to put the power of change in the hands of Blacks It focuses on the preventative role that Blacks might play and considers solution oriented ways to stop this vicious cycle **Race, Ethnicity, Crime and Criminal Justice in the**

Americas A. Kalunta-Crumpton,2012-01-25 This book examines race ethnicity crime and criminal justice in the Americas and moves beyond the traditional focus on North America to incorporate societies in Central America South America and the Caribbean A Theory of African American Offending James D. Unnever,Shaun L. Gabbidon,2011-03-01 A little more than a

century ago the famous social scientist W E B Du Bois asserted that a true understanding of African American offending must be grounded in the real conditions of what it means to be black living in a racial stratified society Today and according to official statistics African American men about six percent of the population of the United States account for nearly sixty percent of the robbery arrests in the United States To the authors of this book this and many other glaring racial disparities

in offending centered on African Americans is clearly related to their unique history and to their past and present racial subordination. Inexplicably, however, no criminological theory exists that fully articulates the nuances of the African American experience and how they relate to their offending. In readable fashion for undergraduate students, the general public, and criminologists alike, this book for the first time presents the foundations for the development of an African American theory of offending.
