Racismo Etnocentrismo Y Literatura La Novela Indigenista Andina:

Racismo, etnocentrismo y literatura Catherine Saintoul, 1988 **La novela indigenista andina** Catherine Saintoul, 2005 El indigenismo en tanto que proyecto político de uniformización cultural tuvo en Latinoamérica características muy diferentes según las regiones Las circunstancias históricas sociales económicas y culturales dieron lugar a una producción literaria muy variada La literatura indigenista andina además de ser la más prolífica hace gala de un etnocentrismo y un racismo más agudos y más paradigmáticos que la literatura indigenista mexicana El Perú fue el país que contó con el mayor número de autores y también con el más grande de los sindicatos en esta corriente José María Arguedas Incluso cuando ya todo parecía haber terminado surgió un Manuel Scorza con una nueva propuesta En este ensayo la autora trata de caracterizar este indigenismo a partir de diferentes tendencias ideológicas **Indigeneity in the Mexican Cultural Imagination** Analisa Taylor, 2013-09-25 Since the end of the Mexican Revolution in 1917 the state has engaged in vigorous campaign to forge a unified national identity Within the context of this effort Indians are at once both denigrated and romanticized Often marginalized they are nonetheless subjects of constant national interest Contradictory policies highlighting segregation assimilation modernization and cultural preservation have alternately included and excluded Mexico's indigenous population from the state's self-conscious efforts to shape its identity Yet until now no single book has combined the various elements of this process to provide a comprehensive look at the Indian in Mexico's cultural imagination Indigeneity in the Mexican Cultural Imagination offers a much needed examination of this fickle relationship as it is seen through literature ethnography film and art The book focuses on representations of indigenous peoples in post-revolutionary literary and intellectual history by examining key cultural texts Using these analyses as a foundation Analisa Taylor links her critique to national Indian policy rights and recent social movements in Southern Mexico In addition she moves beyond her analysis of indigenous peoples in general to take a gendered look at indigenous women ranging from the villainized Malinche to the highly romanticized and sexualized Zapotec women of the Isthmus of Tehuantepec The contradictory treatment of the Indian in Mexico's cultural imagination is not unique to that country alone Rather the situation there is representative of a phenomenon seen throughout the world Though this book addresses indigeneity in Mexico specifically it has far-reaching implications for the study of indigeneity across Latin America and beyond Much like the late Edward Said's Orientalism this book provides a glimpse at the very real effects of literary and intellectual discourse on those living in the margins of society This book's interdisciplinary approach makes it an essential foundation for research in the fields of anthropology history literary critique sociology and cultural studies While the book is ideal for a scholarly audience the accessible writing and scope of the analysis make it of interest to lay audiences as well It is a must read for anyone seeking a deeper understanding of the politics of indigeneity in Mexico and beyond **Historia de la literatura hispanoamericana** José Miguel Oviedo, 2014-03-04 Este libro presenta la historia viva y puesta al día de la literatura hispanoamericana Su información ofrece

una panorámica general que aspira a ser equilibrada y lo más completa posible Al mismo tiempo Jos Miguel Oviedo se centra en los autores clave y los textos fundamentales brindando estudios individuales de cierta extensión sobre estos últimos A fin de contextualizar las creaciones y los fenómenos estudiados se hacen frecuentes referencias a otras literaturas y formas de expresión artística El sistema de referencias cruzadas las bibliografías seleccionadas y el índice analítico ayudan a quienes deseen profundizar en el tema El primer volumen abarca De los orígenes a la Emancipación el segundo comprende Del romanticismo al modernismo y el cuarto está dedicado a De Borges al presente **Antropológica**, 1997
