Siracusa**

Reclaiming Democracy The Sixties In Politics And Memory:

Reclaiming Democracy Meta Mendel-Reyes, 2013-10-11 Meta Mendel Reyes provides a critical look at our fascination with the sixties discusses the ways in which democratic participation was at the heart of sixties politics and explores the interrelationship between the history and memory of the sixties and contemporary democratic politics Mendel Reyes stresses that if told properly the story of the sixties could help open our eyes to the possibility that ordinary people can take democratic action and do have the ability to make a difference in nineties politics In a time of cynicism about the American government's ability to solve the crises of inequality poverty and racism Mendel Reyes puts the decline of political participation in historical context and provides hope for the coming decades *Reclaiming Democracy* Meta

Mendel-Reyes, 2013-10-11 Meta Mendel Reyes provides a critical look at our fascination with the sixties discusses the ways in which democratic participation was at the heart of sixties politics and explores the interrelationship between the history and memory of the sixties and contemporary democratic politics Mendel Reyes stresses that if told properly the story of the sixties could help open our eyes to the possibility that ordinary people can take democratic action and do have the ability to make a difference in nineties politics In a time of cynicism about the American government's ability to solve the crises of inequality poverty and racism Mendel Reyes puts the decline of political participation in historical context and provides hope for the coming decades Screening the Sixties Oliver Gruner, 2016-09-17 This book provides a detailed and engaging

account of how Hollywood cinema has represented and remembered the Sixties From late 1970s hippie musicals such as *Hair* and *The Rose* through to recent civil rights portrayals *The Help* and *Lee Daniels The Butler* Oliver Gruner explores the ways in which films have engaged with broad debates on America's recent past Drawing on extensive archival research he traces production history and script development showing how a group of politically engaged filmmakers sought to offer resonant contributions to public memory Situating Hollywood within a wider series of debates taking place in the US public sphere *Screening the Sixties* offers a rigorous and innovative study of cinema's engagement with this most contested of epochs

Making Peace with the 60s David Burner, 2021-07-13 David Burner's panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self destructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner

points out yet they failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi Making Peace with the 60s will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans failed to make full use of the energies unleashed by one of the most remarkable decades of our history

The Bad Sixties Kristen Hoerl, 2018-06-14 Winner of the 2018 Book Award from the American Studies Division of the National Communication Association Ongoing interest in the turmoil of the 1960s clearly demonstrates how these social conflicts continue to affect contemporary politics In *The Bad Sixties* Hollywood Memories of the Counterculture Antiwar and Black Power Movements Kristen Hoerl focuses on fictionalized portrayals of 1960s activism in popular television and film Hoerl shows how Hollywood has perpetuated politics deploring the detrimental consequences of the 1960s on traditional American values During the decade people collectively raised fundamental questions about the limits of democracy under capitalism But Hollywood has proved dismissive if not adversarial to the role of dissent in fostering progressive social change Film and television are salient resources of shared understanding for audiences born after the 1960s because movies and television programs are the most accessible visual medium for observing the decade s social movements Hoerl indicates that a variety of television programs such as *Family Ties* *The Wonder Years* and *Law and Order* along with Hollywood films including *Forrest Gump* have reinforced images of the bad sixties These stories portray a period in which urban riots antiwar protests sexual experimentation drug abuse and feminism led to national division and moral decay According to Hoerl these messages supply distorted civics lessons about what we should value and how we might legitimately participate in our democracy These warped messages contribute to selective amnesia a term that stresses how popular media renders radical ideas and political projects null or nonexistent Selective amnesia removes the spectacular events and figures that define the late 1960s from their motives and context flattening their meaning into reductive stereotypes Despite popular television and film Hoerl explains memory of 1960s activism still offers a potent resource for imagining how we can strive collectively to achieve social justice and equality

Many Minds, One Heart Wesley C. Hogan, 2013-01-22 How did the Student Nonviolent Coordinating Committee break open the caste system in the American South between 1960 and 1965 In this innovative study Wesley Hogan explores what SNCC accomplished and more important how it fostered significant social change in such a short time She offers new insights into the internal dynamics of SNCC as well as the workings of the larger civil rights and Black Power movement of which it was a part As Hogan chronicles the members of SNCC created some of the civil rights movement s boldest experiments in freedom including the sit ins of 1960 the rejuvenated Freedom Rides of 1961 and

grassroots democracy projects in Georgia and Mississippi She highlights several key players including Charles Sherrod Bob Moses and Fannie Lou Hamer as innovators of grassroots activism and democratic practice Breaking new ground Hogan shows how SNCC laid the foundation for the emergence of the New Left and created new definitions of political leadership during the civil rights and Vietnam eras She traces the ways other social movements such as Black Power women's liberation and the antiwar movement adapted practices developed within SNCC to apply to their particular causes Many Minds One Heart ultimately reframes the movement and asks us to look anew at where America stands on justice and equality today

We Decide! Michael Menser, 2018-01-31 Participatory democracy calls for the creation and proliferation of practices and institutions that enable individuals and groups to better determine the conditions in which they act and relate to others Michael Menser's timely book We Decide is arguably the most comprehensive treatment of participatory democracy He explains the three waves of participatory democracy theory to show that this movement is attentive to the mechanics of contemporary political practices Menser also outlines maximal democracy his own view of participatory democracy that expands people's abilities to shape their own lives reduce inequality and promote solidarity We Decide draws on liberal feminist anarchist and environmental justice philosophies as well as in depth case studies of Spanish factory workers Japanese housewives and Brazilian socialists to show that participatory democracy actually works Menser concludes his study by presenting a reconstructed version of the state that is shaped not by corporations but by inclusive communities driven by municipal workers elected officials and ordinary citizens working together In this era of Bernie Sanders and Donald Trump the participatory democracy proposed in We Decide is more significant than ever Historical Dictionary of the Kennedy-Johnson Era Richard Dean Burns, Joseph M. Siracusa, 2015-05-07 The recent commemoration of the fiftieth anniversary of John F Kennedy's election as the thirty fifth president of the United States serves as a reminder of a period of time that many Americans perceive as idyllic Just as his election despite a near run thing had instilled a pervasive sense of hope throughout the country his assassination stunned the entire nation scarring the psyche of a generation of Americans More than half a century later JFK continues to inspire debates about the effectiveness of the presidency as well as his own political legacy making the senator from Massachusetts the object of many enduring myths that he would have been one of the country's greatest leaders had he lived he would have kept the US out of a full fledged Vietnam war and that he was a martyr of right wing assassins His successor Lyndon B Johnson who did get the US deeply involved in Vietnam while pursuing the social reforms of the Great Society at home and abroad also casts a long shadow in the twenty first century as the nation continues to deal with poverty racism and social injustice This second edition of Historical Dictionary of the Kennedy Johnson Era covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities including the president his advisors his family his opponents and his critics as well as members of Congress military leaders and international leaders This book

is an excellent access point for students researchers and anyone wanting to know more about John F Kennedy *The Seventies* Shelton Waldrep,2013-11-26 *The Seventies* is must reading for anyone who wants to revisit that glam decade and the contributions it made to our culture The contributors take you on a fascinating journey that looks at the Black Panthers Jonestown glam rock black action films and gay male subcultures as well as including queer rereadings of cultural phenomena examinations of clothing and seventies bodies and an essay on the meaning of sound in the seventies *The Fracture of Good Order* Jason C. Bivins,2004-07-21 Whether picketing outside abortion clinics speaking out at school board meetings or attending anti death penalty vigils many Americans have publicly opposed local state or federal government policies on the basis of their religious convictions In *The Fracture of Good Order* Jason Bivins examines the growing phenomenon of Christian protest against civil authority and political order in the United States He argues that since the 1960s there has been a proliferation of religious activism against what protesters perceive as government s excessive power and lack of moral principle Calling this phenomenon Christian antiliberalism Bivins finds at its center a belief that American politics is based on a liberal tradition that gives government too much social and economic influence and threatens the practice of a religious life Focusing on the Catholic pacifism of Daniel and Philip Berrigan and the Jonah House resistance community the Christian Right s homeschooling movement and the evangelical Sojourners community Bivins combines religious studies with political theory to explore the common ground shared by these disparate groups Despite their vast ideological and institutional differences Bivins argues these activists justify their actions in overtly religious terms based on a rejection of basic tenets of the American political system Analyzing the widespread dissatisfaction with the conventional forms of political identity and affiliation that characterize American civic life today Bivins sheds light on the complex relations between religion and democratic society *Framing the Black Panthers* Jane Rhodes,2017-01-30 A potent symbol of black power and radical inspiration the Black Panthers still evoke strong emotions This edition of Jane Rhodes s acclaimed study examines the extraordinary staying power of the Black Panthers in the American imagination Probing the group s longtime relationship to the media Rhodes traces how the Panthers articulated their message through symbols and tactics the mass media could not resist By exploiting press coverage through everything from posters to public appearances to photo ops the Panthers created a linguistic and symbolic universe as salient today as during the group s heyday They also pioneered a sophisticated version of mass media activism that powers contemporary African American protest Featuring a timely new preface by the author *Framing the Black Panthers* is a breakthrough reconsideration of a fascinating phenomenon

Social Movements and American Political Institutions Andrew S. McFarland,Anne N. Costain,1998-04-23 Social movements in the United States are important political actors because of their scale and duration their generation of new ideas and understandings of existing problems their ability to mobilize those who were previously passive citizens and the impetus they provide for restructuring and broadening the agenda of American politics This volume combines chapters by a

distinguished group of social movement scholars from both sociology and political science who use perspectives ranging from political process theory to rational choice and collective action approaches to evaluate the functioning of institutions of American government and the public policies that they produce A diverse group of movements and interests are featured women public interest native America the environment the Christian Right abortion gay rights and homelessness among them

The Conquest of Cool Thomas Frank,1997 Looks at advertising during the 1960s focusing on the relationship between the counterculture movement and commerce

Race and the Politics of Deception Christopher Mele,2017-01-10 Unpacks America s history of dealing with racial problems through the inequitable use of public space Focuses on Chester Pennsylvania a small city comprised of primarily low income black residents roughly twenty miles south of Philadelphia Like many cities throughout the United States Chester is experiencing post industrial decline A development plan touted as a way to save the city proposes to turn one section into a desirable waterfront destination while leaving the rest of the struggling residents in fractured communities Dividing the city into spaces of tourism and consumption versus the everyday spaces of low income residents While these development plans are described as socially inclusive and economically revitalizing Mele asserts that political leaders and real estate developers intentionally exclude certain types of people most often low income people of color

Civic Engagement Across the Curriculum Richard M. Battistoni,2017-01-27 Civic Education Across the Curriculum offers faculty in all disciplines rationales and resources for connecting their service learning efforts to the broader goals of civic engagement Campuses promoting engagement are beginning to tie service learning practices to their civic mission of preparing students for participation in a diverse democratic society There are however few resources for faculty especially those in fields not traditionally linked with civic education to think about how civic engagement might be incorporated into their own disciplinary perspectives and course goals This volume distills a wide range of disciplinary perspectives on citizenship into usable conceptual frameworks It provides concrete examples of course materials exercises and assignments that can be used in service learning courses to develop students civic capacities regardless of disciplinary area This volume will assist faculty in their own curricular work as well as enable them to combine their individual initiatives with others across their campus

Latinos and Citizenship S. Oboler,2017-03-06 This book explores the extent to which the varied political status of Latinos is changing the meaning of citizenship and belonging in the United States It brings together broad theoretical considerations of citizenship with discussions of historical and contemporary case studies pertaining to Latinos and current debates on citizenship Focusing on Latinos historical and continuing struggles against exclusion the authors of this anthology discuss issues such as Latinos multiple national allegiances dual citizenship the changing meanings of belonging their transnational political and social participation the question of language and citizenship regional cultural citizenship and loyalties and the mobilization of Latino youth in their struggle to affirm their rights and belonging in US society

America Goes to College John E. Seery,2002-11-21 Extols the

virtue of small liberal arts colleges and the liberal arts tradition *Stories of Change* Joseph E. Davis, 2012-02-01 Despite the amount of storytelling in social movements little attention has been paid to narrative as a form of movement discourse or as a mode of social interaction *Stories of Change* is a systematic study of narrative as well as a demonstration of the power of narrative analysis to illuminate many features of contemporary social movements Davis includes a wide array of stories of change stories of having been harmed or wronged stories of conflict with unjust authorities stories of liberation and empowerment and stories of strategic success and failure By showing how these stories are a powerful vehicle for producing regulating and diffusing shared meaning the contributors explore movement stories their functions and the conditions under which they are created and performed They show how narrative study can illuminate social movement emergence recruitment internal dynamics and identity building **Smoke Signals** Martin A. Lee, 2013-08-13 In this book the author an investigative journalist traces the social history of marijuana from its origins to its emergence in the 1960s as a defining force in an ongoing culture war He describes how the illicit marijuana subculture overcame government opposition and morphed into a multibillion dollar industry In 1996 Californians voted to legalize marijuana for medicinal purposes Similar laws have followed in several other states but not without antagonistic responses from federal state and local law enforcement The author draws attention to underreported scientific breakthroughs that are reshaping the therapeutic landscape medical researchers have developed promising treatments for cancer heart disease Alzheimer s diabetes chronic pain and many other conditions that are beyond the reach of conventional cures This book is an examination of the medical recreational scientific and economic dimensions of the world s most controversial plant *Citizen Environmentalists* James Longhurst, 2012-06-22 A telling look at the lives and strategies of women environmental activists in the long 1960s solidly grounded in a national context
