*Deconstructing Sacramental Theology and Reconstructing Catholic Ritual* Joseph Martos, 2015-05-12 Catholic sacramental doctrine has lost much of its credibility Baptized people leave the church adolescents stop attending shortly after they are confirmed supposedly indissoluble marriages regularly dissolve few go to confession and many do not believe in transubstantiation Drawing upon his decades long study of the sacraments Martos reveals how teachings that seemed rooted in the scriptures and Catholic life have become unmoored from the contexts in which they arose and why seemingly eternal truths are actually historically relative After carefully constructing Catholic teaching from the church s own documents he deconstructs it by demonstrating how biblical passages were misconstrued by patristic authors and how patristic writings were misunderstood by medieval scholastics The long process of misinterpretation culminated in the dogmatic pronouncements of the Council of Trent which continues to dominate Catholic thinking about the church s religious ceremonies If the sacraments are released from their dogmatic baggage Martos believes that the spiritual realities they symbolize can be celebrated in any human culture without being tied to their traditional rites

**Reconstructing Catholicism** Trish Sullivan Vanni, 2014 In recent years a movement to form Catholic faith communities outside the umbrella of Rome has been gaining momentum in the U S Most trace their roots to a centuries old trajectory that began in Europe Old Catholicism However these emergent U S Catholic jurisdictions are also shaped by a particularly American sensibility particularly the experience of the renewal of the Church promised by Vatican II This book explores the genesis of these faith communities and describes for readers what is the same and what s different in this emergent independent and inclusive way of being Catholic

*Rebuilding Catholic Culture* Ryan Nathan Scott Topping, Ryan Topping, 2013-01-18 Rarely does a book come along that so succinctly explains the decline of modern culture articulates a defense of the Church s teachings and offers a hope filled path for building a civilization grounded in Catholic truth In these pages Dr Ryan Topping does all three pulling back the curtain on the false philosophies of the secularists and showing that in the West today the most formidable threat to freedom is not failing economies or Islam but secularism Our best defense he claims is a vibrant Catholic culture and our best hope for creating it lies in the principles found in the Catechism of the Catholic Church In *Rebuilding Catholic Culture* you ll discover sensible ways to begin restoring Catholic culture right now in your own life and family and in our larger communities as well in the theater in the classroom in our hospitals and even in the public square This profoundly accessible book will renew your confidence in the world transforming character of our Creed and in the potency of our Faith to shape and redefine the culture of the West

**The Future of Catholicism in America** Mark Silk, Patricia O'Connell Killen, 2019-04-02 Catholics constitute the largest religious community in the United States Yet most American Catholics have never known a time when their church was not embroiled in controversies over liturgy religious authority

cultural change and gender and sexuality Today these arguments are taking place against the backdrop of Pope Francis's progressive agenda and the resurgence of the clergy sexual abuse crisis What is the future of Catholicism in America This volume considers the prospects at a pivotal moment Contributors scholars from sociology theology religious studies and history look at the church's evolving institutional structure its increasing ethnic diversity and its changing public presence They explore the tensions among members of the hierarchy between clergy and laity and along lines of ethnicity immigration status class generation political affiliation and degree of religious commitment They conclude that American Catholicism's future will be pluriform reflecting the variety of cultural political ideological and spiritual points of view that typify the multicultural democratic society of which Catholics constitute so large a part **Reconstructing Spain** Dacia

Viejo-Rose, 2011 This book explores the role of cultural heritage in post conflict reconstruction whether as a motor for the prolongation of violence or as a resource for building reconciliation The research was driven by two main goals to understand the post conflict reconstruction process and to identify how this process evolves in the medium term and the impact it has on society The Spanish Civil War 1936-39 and its subsequent phases of reconstruction provides the primary material for this exploration In pursuit of the first goal the book centers on the material practices and rhetorical strategies developed around cultural heritage in post civil war Spain and the victorious Franco regime's reconstruction The analysis captures a discursively complex set of practices that made up the reconstruction and in which a variety of Spanish heritage sites were claimed rebuilt or restored and represented as signs of historical narratives political legitimacy and group identity The reconstruction of the town of Gernika is a particularly emblematic instance of destruction and a significant symbol within the Basque regions of Spain as well as internationally By examining Gernika it is possible to identify some of the trends common to the reconstruction as a whole along with those aspects that pertain to its singular symbolic resonance In order to achieve the second goal the book examines the processes of selection value change and exclusionary dynamics of reconstruction Exploring the possible impact of post civil war reconstruction in the medium term is conducted in two time frames the period of political transition that followed General Franco's death in 1975 and the 2004-2008 period when Rodriguez Zapatero's government undertook initiatives to recover the historic memory of the war and dictatorship Finally the observations made of the Spanish reconstruction are analyzed in terms of how they might reveal general trends in post conflict reconstruction processes in relation to cultural heritage These insights are pertinent to the situations in Cambodia Bosnia and Herzegovina Afghanistan and Iraq **American Catholics** William V. Contemporary Philippines Jayeel Serrano Cornelio, 2016-06-23 This book based on extensive original research examines the nature of Catholicism in the contemporary Philippines It shows how Catholicism is apparently flourishing with good attendance at Sunday Masses impressive religious processions and flourishing charismatic groups and with interventions by the Catholic hierarchy in national and local politics However focusing in particular on the beliefs and practices of young people the book shows that young people are often adopting a different more individualised approach to Catholicism which is frequently out of step with the official position It considers the features of this a more personal and experiential relationship

with God a new approach to morality in which right living is seen as more important than right believing and a critical view of what is seen as the Catholic hierarchy's misguidedness. The book argues that this reinterpreting of religion by young people has the potential to alter fundamentally the nature of Catholicism in the Philippines but that nevertheless young people's new approach involves a solid enduring commitment and a strong view of their own Catholic religious identity.

*Hungry Souls, Holy Companions* Patricia Hendricks, 2006-09-01 A smorgasbord of ideas, stories and practical suggestions on how to be spiritual companions to young people sharing the richness of our faith while riding along on the awesome and often surprising journeys of those in our spiritual care.

*Risking the Church* Richard Lennan, 2004-10-14 In an age when the Christian Church faces many challenges, this book seeks to identify the resources that the Catholic tradition offers to those who are puzzling over how the Church might be faithful to its tradition but also creative in response to contemporary questions and concerns.

**Sacraments** Ray Robert Noll, 1999 Firmly rooted in the tradition of the Church and some of the best scholarship of the past 40 years, Noll explores the sign meaning and experience of each of the seven sacraments in the church. Included is a CD-ROM containing articles and passages by some of today's key sacramental theologians.

*Mediating Catholicism* Eric Hoenes del Pinal, Marc Roscoe Loustau, Kristin Norget, 2022-03-10 This book focuses on the ethnographic study of Catholicism and media. Chapters demonstrate how people engage with the Catholic media scape and analyse the social, cultural and political processes that underlie Catholic media and mediatization. Case studies examine Catholic practices in North America, Western and Eastern Europe, Latin America, South East Asia and Africa, providing a truly comparative de-centred representation of global Catholicism. Illustrating the vibrancy and heterogeneity of Catholicism worldwide, the book also examines how media work to sustain larger global Catholic imaginaries.

*Women Called to Catholic Priesthood* Sharon Henderson Callahan, Jeanette Rodriguez, 2024-03-19 Sharon Callahan and Jeanette Rodriguez explore the contexts, calls, journeys, spirituality and theology of women called to priesthood in the Roman Catholic Church in this compelling and carefully crafted ethnographic work. Posing the questions of how women priests' stories illustrate both ecclesial challenges and spiritual renewal, the authors encourage readers to thoughtfully engage these women on their own terms. *Women Called to Catholic Priesthood* draws on the stories of forty-two women serving in the United States, Canada, Colombia, Europe and South Africa. Ranging in age from their early thirties to their late eighties, these women tell stories that help us understand the spirituality and deep sense of call women priests experience despite the challenges they face in challenging Roman Catholic canon law. Callahan and Rodriguez's work is both moving and timely as the global church engages in synod work aiming to discern where the Spirit of God is calling Roman Catholics in the twenty-first century.

**Making Catholic America** William S. Cossen, 2023-08-15 In *Making Catholic America*, William S. Cossen shows how Catholic men and women worked to prove themselves to be model American citizens in the decades between the Civil War and the Great Depression. Far from being outsiders in American history, Catholics took command of public life in the early

twentieth century claiming leadership in the growing American nation They produced their own version of American history and claimed the power to remake the nation in their own image arguing that they were the country s most faithful supporters of freedom and liberty and that their church had birthed American independence Making Catholic America offers a new interpretation of American life in the Gilded Age and Progressive Era demonstrating the surprising success of an often embattled religious group in securing for itself a place in the national community and in profoundly altering what it meant to be an American in the modern world     *Representing Irish Religious Histories* Jacqueline Hill, Mary Ann Lyons, 2017-01-12

This collection begins on the premise that until recently religion has been particularly influential in Ireland in forming a sense of identity and in creating certain versions of reality History has also been a key component in that process and the historical evolution of Christianity has been appropriated by the main religious denominations Catholic Church of Ireland and Presbyterian with a view to reinforcing their own identities This book explores the ways in which this occurred the writing of religious history and some of the manifestations of that process forms key parts of the collection Also included are chapters discussing current and recent attempts to examine the legacy of collective religious memory notably in Northern Ireland based on projects designed to encourage reflection about the religious past among both adults and school children Readers will find this collection particularly timely in view of the current decade of commemorations
