Forthcoming Books Rose Army,2002 Reconstructing Iraq's Budgetary Institutions James D. Savage,2013-12-31

Consistent with the literature on state building failed states peacekeeping and foreign assistance this book argues that budgeting is a core state activity necessary for the operation of a functional government Employing a historical institutionalist approach this book first explores the Ottoman British and Ba'athist origins of Iraq's budgetary institutions The book next examines American pre war planning the Coalition Provisional Authority's rule making and budgeting following the invasion of Iraq in 2003 and the mixed success of the Coalition's capacity building programs initiated throughout the occupation This book sheds light on the problem of outsiders building states contributes to a more comprehensive evaluation of the Coalition in Iraq addresses the question of why Iraqis took ownership of some Coalition generated institutions and helps explain the nature of institutional change The Future Of Democratic Equality Joseph M. Schwartz,2008-10-31 In a broad critique of contemporary radical political theory Joseph Schwartz imagines a feasible progressive majoritarian global politics in a post industrial world What would it look like and how could we get there *APAIS 1994: Australian public affairs information service* , Building Business-Government Relations Anna Ya Ni, Montgomery Van Wart,2015-08-20 This book introduces business government relations in the institutional context of the United States from a practitioner's perspective It provides the historical descriptive and comparative accounts of the public and private sectors the different roles government plays with business including several conceptual models to understand the social interactions between the two sectors and various economic policies associated with business Business government relations are framed into three different social economic contexts The sociopolitical arena in which government's role as agent of business interest groups and government's limited role as social architect are introduced The local economic development in which government acts as a promoter of partner with and buyer from business The global market where government mainly plays a role as promoter of domestic business In the course of discussion a set of skills such as searching government jobs starting a business analyzing stakeholders ethical reasoning advancing a business agenda leveraging public resources contracting with government interpreting global trends doing business abroad and leveraging international resources are introduced and exercised *Dependent Communities* Caroline Hughes,2018-05-31 *Dependent Communities* investigates the political situations in contemporary Cambodia and East Timor where powerful international donors intervened following deadly civil conflicts This comparative analysis critiques international policies that focus on rebuilding state institutions to accommodate the global market In addition it explores the dilemmas of politicians in Cambodia and East Timor who struggle to satisfy both wealthy foreign benefactors and constituents at home groups whose interests frequently conflict Hughes argues that the policies of Western aid organizations tend to stifle active political engagement by the citizens of countries that have been torn apart by war The neoliberal ideology promulgated by United Nations administrations and other international NGOs advocates state sovereignty but in fact sovereignty is too flimsy a foundation for effective modern democratic politics The

result is an oppressive peace that tends to rob survivors and former resistance fighters of their agency and aspirations for genuine postwar independence In her study of these two cases Hughes demonstrates that the clientelist strategies of Hun Sen Cambodia's postwar leader have created a shadow network of elites and their followers that has been comparatively effective in serving the country's villages even though so often coercive and corrupt East Timor's postwar leaders on the other hand have alienated voters by attempting to follow the guidelines of the donors closely and ignoring the immediate needs and voices of the people Dependent Communities offers a searing analysis of contemporary international aid strategies based on the author's years of fieldwork in Cambodia and East Timor
