Reconstructing Christian Ethics Selected Writings:

Reconstructing Christian Ethics Frederick Denison Maurice, 2020 As one of the major British theologians and ethicists of the nineteenth century F D Maurice is considered a forerunner of the contemporary ecumenical movement His writings and work were an articulation of his theology which emphasized the inclusiveness of Christianity despite ideological divisions within the Christian community Maurice proposed a primary unifying principle based on the dynamic love of God for humankind in all its diversity that would bring the various Christian traditions into a catholic whole This volume brings to readers a selection of Maurice s moral writings based on his theological worldview It is the only anthology of his ethical writings currently available The Library of Theological Ethics series focuses on what it means to think theologically and ethically It presents a selection of important and otherwise unavailable texts in easily accessible form Volumes in this series will enable sustained dialogue with predecessors through reflection on classic works in the field **Reconstructing**

Gushee, Isaac B. Sharp, 2015-08-24 Just as it is impossible to understand the American religious landscape without some familiarity with evangelicalism one cannot grasp the shape of contemporary Christian ethics without knowing the contributions of evangelical Protestants This newest addition to the Library of Theological Ethics series begins by examining the core dynamic with which all evangelical ethics grapples belief in an authoritative inspired and unchanging biblical text on the one hand and engagement with a rapidly evolving and increasingly post Christian culture on the other It explores the different roles that scholars and popular figures have played in forming evangelicals understandings of Christian ethics And it draws together the contributions of both senior and emerging figures in painting a portrait of this diverse vibrant and challenging theological and ethical tradition This book represents the breadth of evangelical ethical voices demonstrating that evangelical ethics involves nuance and theological insight that far transcend any political agenda Contributors include

Pastoral Ethics, Second Edition W. Ross Hastings, 2025-08-19 Pastors regularly face concrete ethical questions and they too pursue a moral life In the busyness of ministry it can be tempting to think pragmatically or derive one's ethics from the latest cultural concerns But standard approaches to ethics whether deontological utilitarian or virtue ethical all fall short of being distinctly Christian Ethics ought to be grounded in the gospel and in our triune God In Pastoral Ethics W Ross Hastings provides pastors with an evangelical and trinitarian framework for moral formation and ethical discernment For Hastings ethics must be reclaimed as theological Theology without ethics becomes Gnosticism Ethics without theology leads to legalism and death Christian ethics participates in God's life and God's work This communion with God leads to obedience to his commands as summed up in the Decalogue and over several chapters Hastings provides a rich exposition for pastoral formation Pastors find their identity in God and this inspires right thinking and acting with regard to authority life and death sexuality work and rest speech and desires An approach to ethics that prompts faith hope and love Pastoral Ethics is an essential guide for Christians in all ministry contexts

On Teaching and Learning Christian Ethics D. Stephen Long, 2024-03-01 An expansion of the discipline of ethics demonstrates that Aquinas's infusing of virtue makes better sense of the moral life than finding a method to guide action While teaching ethics is universally applauded how one goes about it is much more difficult and contested than is often recognized On Teaching and Learning Christian Ethics addresses what it means to teach and learn ethics through a thorough comparison of two ethicists Henry Sidgwick and F D Maurice Where Sidgwick understood ethics as developing a method for guiding voluntary action to what is right Maurice maintained that ethics concerns life as a whole and that requires placing it within a metaphysical and theological realm in which the good is much more definitive than right This comparative history argues that Maurice's use of Thomas Aquinas's infusing of virtue makes better sense of the moral life of ordinary persons than the specialized academic discipline Sidgwick bequeathed Long expands the discipline of ethics through the central theme of his work that moral life is a gift rather than an achievement He provides a clear argument in favor of a more holistic approach to teaching ethics

The Structure of Christian Ethics Joseph Sittler, 1998-01-01 Originally published in 1958 The Structure of Christian Ethics is Joseph Sittler's lucid interpretation of a truly Christological approach to moral behavior Recognizing the need for the church to engage society Sittler contends that Christian ethics is not situational as suggested by his contemporary Joseph Fletcher but rather conformation with Christ

Moral Man and Immoral Society Reinhold Niebuhr, 2013-01-01 Arguably his most famous book *Moral Man and Immoral Society* is Reinhold Niebuhr's important early study 1932 in ethics and politics. Widely read and continually relevant this book marked Niebuhr's decisive break from progressive religion and politics toward a more deeply tragic view of human nature and history. Forthright and realistic *Moral Man and Immoral Society* argues that individual morality is intrinsically incompatible with collective life thus making social and political conflict inevitable. Niebuhr further discusses our inability to imagine the realities of collective power the brutal behavior of human collectives of every sort and ultimately how individual morality can mitigate the persistence of social immorality. This new edition includes a foreword by Cornel West that explores the continued interest in Niebuhr's thought and its contemporary relevance.

The Nature and Destiny of Man Reinhold Niebuhr, 1996-01-01 Thought to be Niebuhr's most significant work as well as one of the few great 20th century works of theology by an American writer considers human nature from a Christian perspective.

Georgia Harkness Rebekah Miles, 2010-01-01 Georgia Harkness 1891-1974 was a Methodist theologian and the first American woman to teach theology at the seminary level. A leader in the ecumenical movement Harkness strove to make

theology accessible to the laity This book is a compilation of writing from early in her career that appeared in publications such as *The Christian Century* *Religion in Life* and *Christendom* Although her theology shifted somewhat during these years Harkness held fast to her belief that liberal theology would remain the basic American theology a prediction that was out of step in the 1930s but is growing more credible today The *Library of Theological Ethics* series focuses on what it means to think theologically and ethically It presents a selection of important and otherwise unavailable texts in easily accessible form Volumes in this series will enable sustained dialogue with predecessors through reflection on classic works in the field

Christian Socialism Philip Turner, 2022-05-26 Christian Socialism arose in England in the mid nineteenth century as a response to the philosophy of political economy now commonly called neoliberalism Seeking not institutional change or nationalisation but a reform of the moral underpinnings of society it refuted the assumption that people are essentially selfish competitive individuals seeking nothing but personal happiness Although they did not deny the presence of selfishness its proponents believed that the social nature of humankind lies deeper than such egotism and conflict and pursued a society built on this belief Less prominent now than at the time of its inception Christian Socialism nevertheless continues into the twenty first century its goal nothing less than a new society built upon the virtues of equality fellowship cooperation service and justice Philip Turner's careful exposition traces the history of this strand of Anglican political thought and restores

confidence in its message for the future

A Theology for the Social Gospel Walter Rauschenbusch, 1997-01-01 A

Theology for the Social Gospel is undoubtedly Walter Rauschenbusch's most enduring work. It is here that Rauschenbusch, the father of the social gospel in the United States, articulates the theological roots of social activism that surged forth from mainline Protestant churches in the early part of the twentieth century. Skillfully examining the great theological issues of the Christian faith—sin, evil, salvation, and the kingdom of God—Rauschenbusch offers a powerful justification for the church to fully engage society. John Stoward Moyes and the Social Gospel Paul Terracini, 2015-04-28 This book deals with the social gospel and one of its leading proponents in twentieth-century Australia: the Anglican bishop of Armidale, New South Wales, from 1929 to 1964, John Moyes. It is an investigation and assessment of the career of Bishop Moyes as a study in Christian social engagement. It concerns his vision for the role of the church in society and his contribution to that effect. It is not a biography of John Moyes. Neither is it an exhaustive history of the social gospel movement in Australia or anywhere else, although they both feature prominently throughout. Bishop Moyes was a highly articulate public debater who participated in several of the critical episodes in Australian history during the twentieth century. The reader will find within the pages of this book discussion of highly contentious issues such as the attempt to ban the Communist Party of Australia in 1950 and 1951, the decision to commit Australian troops to the Vietnam War in 1965, and the Christian response to state legitimised violence. Moyes is placed in context with some of the most notable Christian spokespeople on social and political issues in the twentieth century, such as Walter Rauschenbusch, Ernest Burgmann, William Temple, George Bell, Dietrich Bonhoeffer, Reinhold Niebuhr, Martin Luther King Jr., and André Trocmé. It is argued here that John Moyes made intelligent, prescient, and compassionate contributions to many of the issues to which he turned his mind, but that like most others before or since, he was unable to find a solution to the theological and moral challenges raised by the perceived threat to Australia's sovereignty during World War II. This book challenges the view that when national sovereignty is threatened, the Christian response must be to support the government's call to war.
