Reclaiming Herstory Cheryl Bell-Gadsby, Anne Siegenberg, 2013-06-20 Women who have survived sexual abuse are among the most traumatized individuals who seek therapy. Assisting such clients to reframe and transcend their abusive pasts requires enormous sensitivity and therapeutic skill. *Reclaiming Herstory: Ericksonian Solution Focused Therapy for Sexual Abuse* will greatly help therapists hone their craft with its solution focused Ericksonian approach and highly refined techniques for working with this population. The approach the authors present has evolved through work with hundreds of sexual abuse survivors. The authors have found their techniques to be remarkably effective in helping these clients to regain a sense of freedom and empowerment in their lives. The authors view the healing process as a collaborative partnership in which the therapist co-creates with the client a positive context for healing. This process comprises four distinct stages through which every client must pass in order to achieve their own unique potential. The book clearly describes the primary symptoms and features of the four stages which are: Breaking the silence and unmasking the secret, Becoming visible, Reclaiming and reintegration of the self, Empowerment and the evolution of the sexual self. It also presents for each stage a series of detailed metaphorical stories, exercises and rituals designed to assist a client who is traversing a particular stage. Numerous suggestions, lists, questions and vivid case studies help the therapist to identify and assess the individual needs of a particular client and then pinpoint those tools that will best facilitate the healing process at a given stage. Recognizing the severe toll that work with sexually abused clients can take on the therapist, *Reclaiming Herstory* also provides strategies for self care that can be used during various stages of therapeutic practice. The volume also provides a timely and important discussion of the controversial false memory backlash and its impact on the survivor and implications for the therapist.

Co-Dependence: Healing the Human Condition Charles Whitfield, 2010-01-01 Of all the books on the often misunderstood concept of co-dependence, this is probably the clearest, most complete and informative. Charles Whitfield is a frontline clinician who has been assisting co-dependents in their healing for over twenty years. He has researched the literature on co-dependence which he summarizes in this widely read book. He sees co-dependence as a way to more accurately describe the painful and confusing part of the human condition. In careful detail he describes just what co-dependence is and what it is not, how it comes about and how to heal its painful aftereffects.

Masculinity in Crisis R. Horrocks, 1994-08-30 This book argues that masculine identity is in deep crisis in Western culture the old forms are disintegrating while men struggle to establish new relations with women and with each other This book

offers a fresh look at gender particularly masculinity by using material from the author's work as a psychotherapist. The book also considers the contributions made by feminism, sociology and anthropology to the study of gender and suggests that it must be studied from an interdisciplinary standpoint. Masculinity is seen to have economic, political and psychological roots but the concrete development of gender must be traced in the relations of the male infant with his parents. Here the young boy has to separate from his mother and his own proto-feminine identity and identify with his father but in Western culture fathering is often deficient. Male identity is shown to be fractured, fragile and truncated. Men are trained to be rational and violent and to shut out whole areas of existence and feeling. Many stereotypes imprison men, particularly machismo which is shown to be deeply masochistic and self-destructive. Sophia Caitlín Matthews, 2013-09-20. Anyone interested in the feminine face of God throughout the ages will find Sophia an illuminating experience. Caitlin Matthews' scholarship connects us to past, present and future in the very depths of our femininity. Marion Woodman, Jungian analyst and author of *Bone Dying into Life*. Sophia or wisdom in Greek has been revered in many forms throughout history from the Dark Goddess of ancient Anatolia to her Egyptian, Greek, Celtic and Cabalistic manifestations to her current forms as Mary and the orthodox St Sophia. In the Gnostic Gospel of Thomas Sophia sits with God until the creation. Then she falls into matter and becomes manifest in every atom permeating all things like the sparks that run through charcoal as Matthews says. While God is out there the Goddess is in here, the mother wit of practical inspiration and compassion at the heart's core. This definitive work comprehensively establishes a realistic Goddess theology for Westerners in the twenty-first century, grounding spirituality in daily life and the natural world, learning to work playfully and play seriously, ending the gender war to enjoy sacred marriage.

Zürich 95: Open Questions in Analytical Psychology Mary Ann Mattoon, 1997. The Zurich Congress marked a return to the origins of Analytical Psychology; here it was that C. G. Jung lived for the first six decades of this century and developed the school of psychology he came to be known for. Here too is where many of today's Jungian analysts from all over the world received their training and their initiation into the profession. As this collection of the complete proceedings attests, the theme of open questions drew a bountiful array of intriguing responses and this to the largest gathering of Jungian analysts ever, more than 800 in all. **The Invisible Wound** Wayne Kritsberg, 1993. A pioneer in the field of adult children of alcoholics and dysfunctional families brings his expertise to this extremely pressing issue. Unique among books on sexual abuse, this work focuses on physical energy blockages and body memories as well as on traditional insight techniques to guide readers step by step through the healing process. *Photographs* Cross-currents of Jungian Thought Donald R. Dyer, 1991.

Women's Rights Law Reporter, 1992. Growing Beyond Abuse Signe L. Nestingen, Laurel Ruth Lewis, 1991-05. Amidst the growing literature on sexual exploitation by professionals, precious little has been written by or for victims. In fact, little has been written about the recovery process. This book represents an important contribution. It focuses on the recovery process, gives concrete advice, tools to those who are trying to grow beyond abuse.
