Red Notebook:

Beyond the Red Notebook Dennis Barone, 1995 The novels of Paul Auster have captured the imagination of readers and the admiration of many critics of contemporary literature In Beyond the Red Notebook the first book devoted to the works of Auster an international group of scholars provide a rich and insightful examination of Auster's writings Keeping Healthy by Keeping Track Lillian Shah, Laura Messinger, 2006-08 **The Big Red Notebook** Go Go Go Go Kabuki Ltd., 2015-05-18 The Big Red college ruled Notebook With 120 pages this notebook is professionally bound and is 8 x 10 shorter than A4 but almost as wide Also available in a smaller 5 x 8 version *Paul Auster's Writing Machine* Evija Trofimova, 2014-08-28 Paul Auster is one of the most acclaimed figures in American literature Known primarily as a novelist Auster's films and various collaborations are now gaining more recognition Evija Trofimova offers a radically different approach to the author's wider body of work unpacking the fascinating web of relationships between his texts and presenting Auster's canon as a rhizomatic factio fictional network produced by a set of writing tools Exploring Auster's literal and figurative use of these tools the typewriter the cigarette the doppelgänger figure the city Evija Trofimova discovers Auster's writing machine a device that works both as a means to write and as a construct that manifests the emblematic writer figure This is a book about assembling texts and textual networks the writing machines that produce them and the ways such machines invest them with meaning Embarking on a scholarly quest that takes her from between the lines of Auster's work to between the streets of his beloved New York and finally to the man himself Paul Auster's *Writing Machine* becomes not just a critical investigation but a critical collaboration raising important questions about the ultimate meaning of Auster's work and about the relationship between texts their authors their readers and their critics **Paul Auster's "The New York Trilogy" as Postmodern Detective Fiction** Matthias Kugler, 1999-10-28 Inhaltsangabe Abstract Paul Auster's New York Trilogy published in one volume for the first time in England in 1988 and in the U S in 1990 has been widely categorised as detective fiction among literary scholars and critics There is however a striking diversity and lack of consensus regarding the classification of the trilogy within the existing genre forms of the detective novel Among others Auster's stories are described as metaanti detective fiction mysteries about mysteries a strangely humorous working of the detective novel very soft boiled a metamystery glassy little jigsaws a mixture between the detective story and the nouveau roman a metaphysical detective story a deconstruction of the detective novel antidetective fiction a late example of the anti detective genre and being related to hard boiled novels by authors like Hammett and Chandler Such a striking lack of agreement within the secondary literature has inspired me to write this paper It does not however elaborate further on this diversity of viewpoints although they all seem to have a certain validity and underline the richness and diversity of Auster's detective trilogy neither do I intend to coin a new term for Auster's detective fiction I would rather place *The New York Trilogy* within a more general and open literary form namely postmodern detective fiction This classifies Paul Auster as an American writer who is part of the

generation that immediately followed the classical literary movement of American postmodernism of the 60s and 70s His writing demonstrates that he has been influenced by the revolutionary and innovative postmodern concepts characterised by the notion of anything goes on a planet of multiplicity as well as by French poststructuralism He may however be distinguished from a traditional postmodern writer through a certain coherence in the narrative discourse a neo realistic approach and by showing a certain responsibility for social and moral aspects going beyond mere metafictional and subversive elements Many of the ideas of postmodernism were formulated in theoretical literary texts of the 60s and 70s and based on formal experiments include the attempt of subverting the ability of language to refer truthfully to the world and a radical turning away from coherent narrative discourse and plot These ideas seem to have been internalized by the new generation of postmodern writers of the 80s to such

Denise Levertov Dana Greene, 2012-09-30 Kenneth Rexroth called Denise Levertov 1923 1997 the most subtly skillful poet of her generation the most profound and the most moving Author of twenty four volumes of poetry four books of essays and several translations Levertov became a lauded and honored poet Born in England she published her first book of poems at age twenty three but it was not until she married and came to the United States in 1948 that she found her poetic voice helped by the likes of William Carlos Williams Robert Duncan and Robert Creeley Shortly before her death in 1997 the woman who claimed no country as home was nominated to be America's poet laureate Levertov was the quintessential romantic She wanted to live vividly intensely passionately and on a grand scale She wanted the persistence of Pound and the depth and generosity of Rilke Once she acclimated herself to America the dreamy lyric poetry of her early years gave way to the joy and wonder of ordinary life By the late 1960s and early 1970s however her poems began to engage the issues of her times Vehement and strident her poetry of protest was both acclaimed and criticized The end of both the Vietnam War and her marriage left her mentally fatigued and emotionally fragile but gradually over the span of a decade she emerged with new energy The crystalline and luminous poetry of her last years stands as final witness to a lifetime of searching for the mystery embedded in life itself Through all the vagaries of life and art her response was that of a primary wonder In this illuminating biography Dana Greene examines Levertov's interviews essays and self revelatory poetry to discern the conflict and torment she both endured and created in her attempts to deal with her own psyche her relationships with family friends lovers colleagues and the times in which she lived Denise Levertov A Poet's Life is the first complete biography of Levertov a woman who claimed she did not want a biography insisting that it was her work that she hoped would endure And yet she confessed that her poetry in its various forms lyric political natural and religious derived from her life experience Although a substantial body of criticism has established Levertov as a major poet of the later twentieth century this volume represents the first attempt to set her poetry within the framework of her often tumultuous life

Charles Darwin, Geologist Sandra Herbert, 2005 Pleasure of imagination I a geologist have illdefined notion of land covered with ocean former animals slow force cracking surface c truly poetical from Charles Darwin's Notebook M 1838 The early nineteenth century was a golden age for the study of geology New discoveries in the field were greeted with the same enthusiasm reserved today for advances in the biomedical sciences In her long awaited account of Charles Darwin's intellectual development Sandra Herbert focuses on his geological training research and thought asking both how geology influenced Darwin and how Darwin influenced the

science Elegantly written extensively illustrated and informed by the author s prodigious research in Darwin s papers and in the nineteenth century history of earth sciences Charles Darwin Geologist provides a fresh perspective on the life and accomplishments of this exemplary thinker As Herbert reveals Darwin s great ambition as a young scientist one he only partially realized was to create a simple geology based on movements of the earth s crust Only one part of his scheme has survived in close to the form in which he imagined it a theory explaining the structure and distribution of coral reefs Darwin collected geological specimens and took extensive notes on geology during all of his travels His grand adventure as a geologist took place during the circumnavigation of the earth by H M S Beagle 1831 1836 the same voyage that informed his magnum opus On the Origin of Species Upon his return to England it was his geological findings that first excited scientific and public opinion Geologists including Darwin s former teachers proved a receptive audience the British government sponsored publication of his research and the general public welcomed his discoveries about the earth s crust Because of ill health Darwin s years as a geological traveler ended much too soon his last major geological fieldwork took place in Wales when he was only thirty three However the experience had been transformative the methods and hypotheses of Victorian era geology Herbert suggests profoundly shaped Darwin s mind and his scientific methods as he worked toward a full blown understanding of evolution and natural selection

Paul Auster's Ghosts María Laura Arce Álvarez, 2018-06-13 The following book explores the intertextual relationship between Paul Auster's first and most remarkable work The New York Trilogy 1987 and the works of certain American and European writers who shaped this novel and Auster's future works Auster's The New York Trilogy is a novel formed by an intertextual dialogue which in some cases it is explicit mentioning authors and books intentionally and in others implicit provoked by Auster's admiration for authors such as Samuel Beckett or product of his role as a translator as it occurs with Maurice Blanchot These two different ways of intertextuality essentially show Auster's influence of the American Renaissance Samuel Beckett's fiction and the work of the writer and critic Maurice Blanchot In these terms this book proposes an exhaustive analysis of City of Glass and Herman Melville's Bartleby the Scrivener Ghosts and Edgar Allan Poe's William Wilson and The Locked Room and Nathaniel Hawthorne's Fanshawe The two last chapters also offer a thorough

analysis of the whole trilogy in comparison to Samuel Beckett's trilogy *Molloy*, *Malone Dies*, and *The Unnamable* and finally introduces a study of the trilogy as a fictionalization of Maurice Blanchot's literary theory
