Revolutionaries In The Theater Meyerhold Brecht And Witkiewicz:

Revolutionaries in the Theater Christine Olga Kiebuszinska,1985 Brecht at the Opera Joy H. Calico,2023-09-01
From an award winning author the first thorough examination of the important influence of opera on Brecht s writings
Brecht at the Opera looks at the German playwright s lifelong ambivalent engagement with opera An ardent opera lover in his youth Brecht later denounced the genre as decadent and irrelevant to modern society even as he continued to work on opera projects throughout his career He completed three operas and attempted two dozen more with composers such as Kurt Weill Paul Hindemith Hanns Eisler and Paul Dessau Joy H Calico argues that Brecht s simultaneous work on opera and Lehrstück in the 1920s generated the new concept of audience experience that would come to define epic theater and that his revisions to the theory of Gestus in the mid 1930s are reminiscent of nineteenth century opera performance practices of mimesis From an award winning author the first thorough examination of the important influence of opera on Brecht s writings Brecht at the Opera looks at the German playwright s lifelong ambivalent engagement with opera An ardent opera lover in his youth Brecht **Theater of the Avant-Garde, 1890-1950** Robert Knopf,2015-01-01 An essential volume for theater artists and students alike this anthology includes the full texts of sixteen important examples of avant garde drama from the most daring and influential artistic movements of the first half of the twentieth century including Symbolism Futurism Expressionism Dada and Surrealism Each play is accompanied by a bio critical introduction by the editor and a critical essay frequently written by the playwright which elaborates on the play s dramatic and aesthetic concerns A new introduction by Robert Knopf and Julia Listengarten contextualizes the plays in light of recent critical developments in avant garde studies By examining the groundbreaking theatrical experiments of Jarry Maeterlinck Strindberg Artaud and others the book foregrounds the avant garde s enduring influence on the development of modern theater **A History of Modern Drama, Volume I** David Krasner,2011-11-07 Covering the period 1879 to 1959 and taking in everything from Ibsen to Beckett this book is volume one of a two part comprehensive examination of the plays dramatists and movements that comprise modern world drama Contains detailed analysis of plays and playwrights connecting themes and offering original interpretations Includes coverage of non English works and traditions to create a global view of modern drama Considers the influence of modernism in art music literature architecture society and politics on the formation of modern dramatic literature Takes an interpretative and analytical approach to modern dramatic texts rather than focusing on production history Includes coverage of the ways in which staging practices design concepts and acting styles informed the construction of the dramas History of European Drama and Theatre Erika Fischer-Lichte,2002-09-11 This major study reconstructs the vast history of European drama from Greek tragedy through to twentieth century theatre focusing on the subject of identity Throughout history drama has performed and represented political religious national ethnic class related gendered and individual concepts of identity Erika Fischer Lichte s topics include ancient Greek theatre Shakespeare and Elizabethan

Gombrowicz, Polish Modernism, and the Subversion of Form Michael Goddard, 2010 Gombrowicz Polish Modernism and the Subversion of Form provides a new and comprehensive account of the writing and thought of the Polish writer Witold Gombrowicz While Gombrowicz is probably the key Polish modernist writer with a stature in his native Poland equivalent to that of Joyce or Beckett in the English language he remains little known in English As well as providing a commentary on his novels plays and short stories this book sets Gombrowicz's writing in the context of contemporary cultural theory The author performs a detailed examination of Gombrowicz's major literary and theatrical work showing how his conception of form is highly resonant with contemporary postmodern theories of identity This book is the essential companion to one of Eastern Europe's most important literary figures whose work banned by the Nazis and suppressed by Poland's Communist government has only recently become well known in the West

Theatre/Ecology/Cognition T. Paavolainen, 2015-12-11 How is performer object interaction enacted and perceived in the theatre How thereby are varieties of meaning also enacted and perceived Using cognitive theory and ecological ontology Paavolainen investigates how the interplay of actors and objects affords a degree of enjoyment and understanding whether or not the viewer speaks the language

The Great Tradition and Its Legacy Michael Cherlin, Halina Filipowicz, Richard L. Plato and Jesus, Not Caesar Mateusz Stróżyński, 2025-10-13 This book discusses the influence of ancient and medieval Platonism and Christian Platonism on the modern political concepts and experiences of freedom and tyranny in Central Eastern Europe The main claim of the book is that because the nations of Younger Europe were oppressed by the imperialism of Russia Germany and Austria they maintained a stronger connection to the premodern Christian Platonic tradition This tradition was experienced as a source of

inspiration in the struggle for freedom and independence The book focuses on the life and work of selected philosophers poets and artists all of whom were both mystics and figures deeply engaged in their nations fight for freedom **Drama and the Postmodern** , **Brecht and the West German Theatre** John Rouse,1989 *Wonderlands of the Avant-Garde* Julia Vaingurt,2013-05-31 In postrevolutionary Russia as the Soviet government was initiating a program of rapid industrialization avant garde artists declared their intent to serve the nascent state and to transform life in accordance with their aesthetic designs In spite of their professed utilitarianism however most avant gardists created works that can hardly be regarded as practical instruments of societal transformation Exploring this paradox Vaingurt claims that the artists investment of technology with aesthetics prevented their creations from being fully conscripted into the arsenal of political hegemony The purposes of avant garde technologies she contends are contemplative rather than constructive Looking at Meyerhold s theater Tatlin s and Khlebnikov s architectural designs Mayakovsky s writings and other works from the period Vaingurt offers an innovative reading of an exceptionally complex moment in the formation of Soviet culture **The Films of Oshima Nagisa** Maureen Turim,2023-04-28 This study of the films of Oshima Nagisa is both an essential introduction to the work of a major postwar director of Japanese cinema and a theoretical exploration of strategies of filmic style For almost forty years Oshima has produced provocative films that have received wide distribution and international acclaim Formally innovative as well as socially daring they provide a running commentary direct and indirect on the cultural and political tensions of postwar Japan Best known today for his controversial films *In the Realm of the Senses* and *The Empire of Passion* Oshima engages issues of sexuality and power domination and identity which Maureen Turim explores in relation to psychoanalytic and postmodern theory The films complex representation of women in Japanese society receives detailed and careful scrutiny as does their political engagement with the Japanese student movement postwar anti American sentiments and critiques of Stalinist tendencies of the Left Turim also considers Oshima s surprising comedies his experimentation with Brechtian and avant garde theatricality as well as reflexive textuality and his essayist documentaries in this look at an artist s gifted and vital attempt to put his will on film This title is part of UC Press s *Voices Revived* program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 This study of the films of Oshima Nagisa is both an essential introduction to the work of a major postwar director of Japanese cinema and a theoretical exploration of strategies of filmic style For almost forty years Oshima has produced provocative film *Peter Lorre: Face Maker* Sarah Thomas,2012-02-01 Peter Lorre described himself as merely a face maker His own negative attitude also characterizes traditional perspectives which position Lorre as a tragic figure within film history the promising European artist reduced to a Hollywood gimmick unable to escape the murderous image of his role in Fritz Lang s *M* This book shows that the life of Peter

Lorre cannot be reduced to a series of simplistic oppositions. It reveals that despite the limitations of his macabre star image, Lorre's screen performances were highly ambitious and the terms of his employment were rarely restrictive. Lorre's career was a complex negotiation between transnational identity, Hollywood filmmaking practices, the ownership of star images, and the mechanics of screen performance. *Canadian Review of Comparative Literature*, 1993. **Baudrillard and Signs** Gary Genosko, 2002-03-11. This book relates Baudrillard's work to contemporary social theory. The author traces the connections between Baudrillard's work and Marx and Marxism, Lefebvre and structuralist method, the works of Saussure, Bataille, Barthes, Foucault, Mauss, Peirce, McLuhan, and the Prague School. The result is an authoritative and stimulating account of Baudrillard and modern social theory. **Gender and Trauma** Fatima Festic, 2011-11-15. This volume presents eight integrated essays that explore the intersection of the scholarly fields of gender and trauma, combining work that can broadly be located in the subject areas of literary studies, the humanities, and the social sciences. The contributors search for a more comprehensive theoretical ground to analyze the overlapping interagency and also the lines that separate the issues of gender and trauma, to establish a more political linking of the materiality of the effects of trauma to the performativity of gender, as well as to examine the ways in which the categories of sex, sexual difference, and sexual identity figure within such a relationship. Likewise, our discussion is guided by the increasing awareness of the cross-cultural delineation dynamics and translatability of these fields, the awareness that facilitates the understanding of the instances of their interference in the rhetoric of a dominant culture and in dominant societal structures. This specific input, which refers to structurally quite comparable identity formations or to their prevention and also to complex terms of symbolic legitimacy and intelligibility, is the attainment of a joined intercultural and interdisciplinary work on some of the key concerns we are confronting today.

Trajectories of Memory Beth Griech-Polelle, Christina Guenther, 2021-01-20. This volume, which grew out of a conference of the same name held at Bowling Green State University in March 2006, represents new scholarly perspectives on the way in which the Holocaust is remembered in history, literary studies, and theatre. It is a response to changing representations of the Holocaust across generations, disciplines, and in various cultural and national contexts. The contributions address the following questions: How do historians, artists, scholars, and teachers negotiate the language of the Holocaust as survivors die, leaving future generations to respond to the dictum "Never again"? How do children and grandchildren of survivors, perpetrators, bystanders transmit the difficult legacy of the Holocaust in American, Israeli, French, German, Swiss, and Austrian contexts while navigating feelings of transgenerational guilt or victimhood? How can we do justice to survivor testimony when the survivors can no longer speak directly or mediate the testimony to us? How does transferred and multiply mediated knowledge translate into meaningful artifacts for the next generations? The collection features an interview about interdisciplinarity within Holocaust studies conducted at the conference with keynote speakers Marianne Hirsch and Leo Spitzer. The articles in the first section explore the complex relationship between memory, oral history, and

historiography in cross cultural contexts The second section includes articles on texts by Cynthia Ozick Thane Rosenbaum Daniel Handler W G Sebald Monika Maron Stephan Wackwitz Jonathan Foer Art Spiegelman Georges Arthur Goldstein Benjamin Wilkomirski Elfriede Jelinek Thomas Bernhard Tim Blake Nelson and Diane Samuel
