Saltzman, 2016-11-11 In Designs of Darkness Arthur M Saltzman examines some of the ways in which fiction has traditionally conspired to promote a goal oriented vision of the work of art and explores the ways in which postmodern or postrealist fiction consistently and unavoidably subverts the clarity of this vision Offering readings of works by well known authors including Barthelme Doctorow DeLillo and Hakes as well as works by lesser known writers Auster Gangemi Saltzman concentrates on the breakdown of epiphany in recent fiction both as philosophical motive and as structural foundation In contemporary fiction Saltzman contends ambiguities blossom far beyond our capacities to stabilize summarize or restore them to sense The old rules of the game in which a reader looking for truth can expect some sort of satisfactory resolution no longer apply Literature now comes out of the answerless Designs of Darkness in Contemporary American Fiction is a valuable new resource for scholars and students of contemporary literature
