Archaeology's Visual Culture Roger Balm, 2015-12-14 Archaeology's Visual Culture explores archaeology through the lens of visual culture theory The insistent visuality of archaeology is a key stimulus for the imaginative and creative interpretation of our encounters with the past Balm investigates the nature of this projection of the visual revealing an embedded subjectivity in the imagery of archaeology and acknowledging the multiplicity of meanings that cohere around artifacts archaeological sites and museum displays Using a wide range of case studies the book highlights how archaeologists can view objects and the consequences that ensue from these ways of seeing Throughout the book Balm considers the potential for documentary images and visual material held in archives to perform cultural work within and between groups of specialists With primary sources ranging from the mid nineteenth to the early twenty first century this volume also maps the intellectual and social connections between archaeologists and their peers Geographical settings include Britain Cyprus Mesoamerica the Middle East and the United States and the sites of visual encounter are no less diverse ranging from excavation reports in salvage archaeology to instrumentally derived data sets and remote sensing imagery By forensically examining selected visual records from published accounts and archival sources enduring tropes of representation become apparent that transcend issues of style and reflect fundamental visual sensibilities within the discipline of archaeology

Twin Tollans Cynthia

Kristan-Graham,2007 This volume had its beginnings in the two day colloquium Rethinking Chich n Itz Tula and Tollan that was held at Dumbarton Oaks The selected essays revisit long standing questions regarding the nature of the relationship between Chichen Itza and Tula Rather than approaching these questions through the notions of migrations and conquests these essays place the cities in the context of the emerging social political and economic relationships that took shape during the transition from the Epiclassic period in Central Mexico the Terminal Classic period in the Maya region and the succeeding Early Postclassic period **Chacs and Chiefs** Rosemary Sharp,1981 **Middle America** Mary W. Helms,1982 Originally published by Prentice Hall in 1975 Cultures of the Future Magoroh Maruyama,Arthur M. Patrick Culbert,1996-03-29 This volume is the first to present in detail the results of recent decipherment of Maya hieroglyphic writing and to consider the implications of a Classic Maya written history Contributors examine the way in which the Maya elite created the kinship alliance warfare and ceremonial networks on which the civilization was founded

The Ancient Maya Marketplace Eleanor M. King,2015-11-12 Trading was the favorite occupation of the Maya according to early Spanish observers such as Fray Diego de Landa 1566 Yet scholars of the Maya have long dismissed trade specifically market exchange as unimportant They argue that the Maya subsisted primarily on agriculture with long distance trade playing a minor role in a largely non commercialized economy The Ancient Maya Marketplace reviews the debate on Maya markets and offers compelling new evidence for the existence and identification of ancient marketplaces in the Maya Lowlands Its authors rethink the prevailing views about Maya economic organization and offer new perspectives They attribute the dearth of Maya market research to two factors persistent assumptions that Maya society and its rainforest environment lacked complexity and an absence of physical evidence for marketplaces a problem that plagues market research around the world Many Mayanists now agree that no site was self sufficient and that from the earliest times robust local and regional exchange existed alongside long distance trade Contributors to this volume suggest that marketplaces the

physical spaces signifying the presence of a market economy did not exist for purely economic reasons but served to exchange information and create social ties as well. The Ancient Maya Marketplace offers concrete links between Maya archaeology, ethnohistory, and contemporary cultures. Its in-depth review of current research will help future investigators to recognize and document marketplaces as a long-standing Maya cultural practice. The volume also provides detailed comparative data for premodern societies elsewhere in the world. **Ix Chel Maya Queen of Heaven in the New World** Douglas T. Peck, 2011-02-28. And in this book, Colonel Peck reveals the current view of Maya religion is also appallingly inaccurate. The sophisticated Maya religion, which closely followed the pattern of contemporary Eurasian religions, originated in ancient times with a matriarchal Goddess of Creation and evolved into a patriarchal First Father concept in the Classic period preceding Spanish conquest. Current historians have failed to recognize that fact because of the naïve belief that the writings of colonial period folklore, which picture Maya religious concepts as crude, primitive, and often grotesque fables, represented Maya religion rather than the true sophisticated and realistic religious concepts expressed in their prehistoric writing and art as documented in this book. **Popol Vuh** Dennis Tedlock, 2013-02. Popol Vuh, the Quiché Mayan book of creation, is not only the most important text in the native language of the Americas; it is also an extraordinary document of the human imagination. It begins with the deeds of Mayan Gods in the darkness of a primeval sea and ends with the radiant splendor of the Mayan Lords who founded the Quiché Kingdom in the Guatemalan highlands. Originally written in Mayan hieroglyphs, it was translated into the Roman alphabet in the 16th century. The new edition of Dennis Tedlock's unabridged, widely praised translation includes new notes and commentary, newly translated passages, newly deciphered hieroglyphs, and over 40 new illustrations. **The Emergence of the Latin American Novel** Gordon Brotherston, 1977-09-29. This survey concentrates on the modern novel of Spanish-speaking America. Dr. Brotherston starts with a long and suggestive introduction on the general topic, settings, and people, showing the growth of a sense of Latin American identity in the fiction produced in the continent as a whole. There follow detailed studies of individual modern novels, taken as representative of their time, their author, their country, and the continent. A conclusion surveys and sums up these themes. The analytical studies of important and representative novels, related to each other in theme and preoccupation, the substantial quotations in English, the notes, and the useful bibliography make this a book which gives students and other readers a well-considered introduction to the Spanish American fiction of this century. *Why Did Ancient Civilizations Fail?* Scott A. J. Johnson, 2016-09-19. Ideas abound as to why certain complex societies collapsed in the past, including environmental change, subsistence failure, fluctuating social structure, and lack of adaptability. *Why Did Ancient Civilizations Fail?* evaluates the current theories in this important topic and discusses why they offer only partial explanations of the failure of past civilizations. This engaging book offers a new theory of collapse: that of social hubris. Through an examination of Mesopotamian, Egyptian, Roman, Maya, Inca, and Aztec societies, Johnson persuasively argues that hubris blinded many ancient peoples to evidence that would have allowed them to

adapt and he further considers how this has implications for contemporary societies Comprehensive and well written this volume serves as an ideal text for undergraduate courses on ancient complex societies as well as appealing to the scholar interested in societal collapse The Lowland Maya Postclassic Arlen F. Chase, Prudence M. Rice, 2014-11-17 This collection represents a major step forward in understanding the era from the end of Classic Maya civilization to the Spanish conquest
