Rising Tide Gender Equality And Cultural Change Around The World:

Rising Tide Ronald Inglehart, Pippa Norris, 2003-04-14 The twentieth century gave rise to profound changes in traditional sex roles. However, the force of this rising tide has varied among rich and poor societies around the globe as well as among younger and older generations. *Rising Tide* sets out to understand how modernization has changed cultural attitudes towards gender equality and to analyze the political consequences of this process. The core argument suggests that women and men's lives have been altered in a two-stage modernization process consisting of i) the shift from agrarian to industrialized societies and ii) the move from industrial towards post-industrial societies. This book is the first to systematically compare attitudes towards gender equality worldwide, comparing almost 70 nations that run the gamut from rich to poor, agrarian to post-industrial. *Rising Tide* is essential reading for those interested in understanding issues of comparative politics, public opinion, political behavior, political development, and political sociology.

The Oxford Handbook of Italian Politics Erik Jones, Gianfranco Pasquino, 2015 The *Oxford Handbook of Italian Politics* provides a comprehensive look at the political life of one of Europe's most exciting and turbulent democracies. Under the hegemonic influence of Christian Democracy in the early post-World War II decades, Italy went through a period of rapid growth and political transformation. In part, this resulted in tumult and a crisis of governability; however, it also gave rise to innovation in the form of Eurocommunism and new forms of political accommodation. The great strength of Italy lay in its constitution; its great weakness lay in certain legacies of the past. Organized crime, popularly but not exclusively associated with the mafia, is one example. A self-contained and well-entrenched caste of political and economic elites is another. These weaknesses became apparent in the breakdown of political order in the late 1980s and early 1990s. This ushered in a combination of populist political mobilization and experimentation with electoral systems design, and the result has been more evolutionary than transformative. Italian politics today is different from what it was during the immediate post-World War II period, but it still shows many of the influences of the past.

The Civic Culture Transformed Russell J. Dalton, Christian Welzel, 2014-12-31 This is the first study to demonstrate a broad shift in how citizens around the world relate to democratic politics, illustrating various manifestations of a transition from allegiant to assertive citizens.

Worldwide Perspectives on Lesbians, Gays, and Bisexuals Paula Gerber Ph.D., 2021-01-26 This three-volume set is a rich resource for readers in any discipline interested in understanding the global, regional, and domestic experiences of LGB people. This interdisciplinary set makes a vital contribution to understanding how LGB rights are progressing and in some cases regressing around the globe. The three volumes look at the lived experiences of LGB people from varied perspectives and provide comprehensive coverage on a wide variety of topics ranging from LGB youth and LGB aging to the approaches to LGB people of different religions, including Islam, Judaism, and Christianity. Chapters focus on topics including the ongoing criminalization of same-sex sexual conduct and how international human rights law can be used to improve the lives of LGB people. Particular attention is paid to the rights of bisexuals, a group often ignored in works

focusing on sexual orientation Volume 1 focuses on history politics and culture relating to LGB people Volume 2 focuses on the laws domestic and international governing LGB people and Volume 3 provides snapshots of the current state of LGB experience in countries worldwide presented by geographical region Europe the Americas Africa the Middle East and the Asia Pacific region

The Rhythm of Modernization: How Values Change over Time Raúl Tormos, 2019-11-04 In The Rhythm of Modernization Raúl Tormos analyses the pace at which belief systems change across the developed world during the modernization process It is often assumed that value change follows the slow rhythm of generational replacement This book however reports trends that contradict this assumption in the field of values Challenging Inglehart's modernization theory the transition from traditional to modern values happens much quicker than predicted Many baby boomers who were church going morally conservative materialists when they were young become unchurched and morally tolerant postmaterialists in their later years Using surveys from multiple countries over many years and applying cutting edge statistical techniques this book shows how citizens quickly adapt their belief systems to new circumstances throughout their lives

Cultures and Globalization Helmut K Anheier, Yudhishtir Raj Isar, 2007-03-27 In the age of globalization we are no longer home alone Migration brings other worlds into our own just as the global reach of the media transmits our world into the hearts and minds of others Often incommensurate values are crammed together in the same public square Increasingly we all today live in the kind of edge cultures we used to see only on the frontiers of civilizations in places like Hong Kong or Istanbul The resulting frictions and fusions are shaping the soul of the coming world order I can think of no other project with the ambitious scope of defining this emergent reality than The Cultures and Globalization project I can think of no more capable minds than Raj Isar and Helmut Anheier who can pull it off Nathan Gardels Editor in Chief NPQ Global Services Los Angeles Times Syndicate Tribune Media This series represents an innovative approach to the central issues of globalization that phenomenon of such undefined contours Lupwishi Mbuyumba Director of the Observatory of Cultural Policies in Africa The world's cultures and their forms of creation presentation and preservation are deeply affected by globalization in ways that are inadequately documented and understood The Cultures and Globalization Series is designed to fill this void in our knowledge Analyzing the relationship between globalization and cultures is the aim of the Series In each volume leading experts as well as young scholars will track cultural trends connected to globalization throughout the world covering issues ranging from the role of cultural difference in politics and governance to the evolution of the cultural economy and the changing patterns of creativity and artistic expression Each volume will also include an innovative presentation of newly developed indicator suites on cultures and globalization that will be presented in a user friendly form with a high graphics content to facilitate accessibility and understanding Like so many phenomena linked to globalization conflicts over and within the cultural realms crystallize great anxieties and illusions through misplaced assumptions inadequate concepts unwarranted simplifications and instrumental readings The aim here is to marshal evidence from

different disciplines and perspectives about the culture conflict and globalization relationships in conceptually sensitive ways

Changing Values, Persisting Cultures Thorleif Pettersson, Yilmaz Esmer, 2008-03-15 In 1981 the European and World Values surveys started the empirical investigation of cultural values on a global scale This volume builds upon the findings of these surveys and analyzes value change in a number of key countries around the globe The authors track value change and stability in their respective countries during the last decade the last two decades where data are available of the 20th century All authors have been actively involved in value surveys and have a great deal of expertise in countries that they write on Thus the volume is a valuable complement to studies that deal with the topic from a global perspective without providing any detail about individual societies The countries covered are Argentina Austria Canada Denmark France Germany Mexico the Netherlands South Africa South Korea Spain Sweden Turkey and the United States

Transforming Unequal Gender Relations in India and Beyond Saroj Pachauri, Ravi K. Verma, 2023-09-08 This book offers a unique intersectional perspective on gender equality SDG5 It presents an intersection of gender with caste class region ethnic and sexual identities and other structural drivers of inequalities in various development sectors It presents case studies and empirical findings from development practice and policymaking and highlights the challenges to implementing SDG5 in practice It discusses policies to promote gender equality and prevent violence against women and girls and women in decision making and leadership positions The chapters restate that gender equality is possible only if unequal gender norms are transformed to recognize women and girls as independent economic entities and not merely homemakers providing unpaid care It also analyzes to deconstruct the idea of monolithic masculinity to recognize gender diversity and men's role in providing care The book shows how much has been achieved yet how far is also left to go It is an essential reference point for researchers policymakers students and scholars across gender studies women's studies and sociology

The Aftermath of War Albert Simkus, 2016-04-01 At a time when most observers saw war in Europe as belonging to an ever more distant past the wars of Yugoslav succession shattered this illusion The direct and indirect consequences of these wars for people in the region are still not fully understood but it is clear that the war has had far reaching social and political consequences for each national society as a whole This groundbreaking volume provides a series of analyses of experiences and social attitudes in the Western Balkans in the aftermath of those wars Based on survey data from 22 000 respondents the editors have created a volume which contributes to our understanding of both specific war related effects as well as a detailed description of contemporary attitudes and values across these societies This book will be of interest to academic specialists and students interested in the effects of war on psychological health and on ethnic relations in the Western Balkans as well as how this applies to other post conflict societies It will also be of interest to sociologists political scientists and historians studying differences in attitudes between the countries ethnic groups and generations in this region related to diverse topics from ethnic tolerance to states responsibility for equality and gender roles

Gender-Competent Legal Education Dragica Vujadinović, Mareike Fröhlich, Thomas Giegerich, 2023-02-03 Male dominated law and legal knowledge essentially characterized the whole of pre modern history in that the patriarchy represented the axis of social relations in both the private and public spheres Indeed modern and even contemporary law still have embedded elements of patriarchal heritage even in the secular modern legal systems of Western developed countries either within the content of legislation or in terms of its implementation and interpretation This is true to a greater or lesser extent across legal systems although the secular modern legal systems of the Western developed countries have made great advances in

terms of gender equality The traditional understanding of law has always been self evidently dominated by men but modern law and its understanding have also been more or less malestreamed Therefore it has become necessary to overcome the given maskulinity of legal thought In contemporary legal and political orders gender mainstreaming of law has been of the utmost importance for overcoming deeply and persistently embedded power relations and gender based unequal social relations At the same time and equally importantly the gender mainstreaming of legal education to which this book aims to contribute can help to gradually eliminate this male dominance and accompanying power relations from legal education and higher education as a whole This open access textbook provides an overview of gender issues in all areas of law including sociological historical and methodological issues Written for students and teachers around the globe it is intended to provide both a general overview and in depth knowledge in the individual areas of law Relevant court decisions and case studies are supplied throughout the book

Beyond Left, Right, and Center Christina Xydias, 2024-06-17 Challenges prevailing expectations about left right ideological frameworks and advocacy for women s rights and interests in democracies

Gendering Global Conflict Laura Sjoberg, 2013-08-13 Laura Sjoberg positions gender and gender subordination as key factors in the making and fighting of global conflict Through the lens of gender she examines the meaning causes practices and experiences of war building a more inclusive approach to the analysis of violent conflict between states Considering war at the international state substate and individual levels Sjoberg s feminist perspective elevates a number of causal variables in war decision making These include structural gender inequality cycles of gendered violence state masculine posturing the often overlooked role of emotion in political interactions gendered understandings of power and states mistaken perception of their own autonomy and unitary nature *Gendering Global Conflict* also calls attention to understudied spaces that can be sites of war such as the workplace the household and even the bedroom Her findings show gender to be a linchpin of even the most tedious and seemingly bland tactical and logistical decisions in violent conflict Armed with that information Sjoberg undertakes the task of redefining and reintroducing critical readings of war s political economic and humanitarian dimensions developing the beginnings of a feminist theory of war

Handbook of the Sociology of Gender Barbara J. Risman, Carissa M. Froyum, William J. Scarborough, 2018-06-05 This handbook provides a comprehensive view of the field of the sociology of gender It presents the most important theories about gender and methods used to study gender as well as extensive coverage of the latest research on gender in the most important areas of social life including gendered bodies sexuality carework paid labor social movements incarceration migration gendered violence and others Building from previous publications this handbook includes a vast array of chapters from leading researchers in the sociological study of gender It synthesizes the diverse field of gender scholarship into a cohesive theoretical framework gender structure theory in order to position the specific contributions of each author chapter as part of a complex and multidimensional gender structure Through this organization of the handbook readers do not only gain tremendous insight from each chapter but they also attain a broader understanding of the way multiple gendered processes are interrelated and mutually constitutive While the specific focus of the handbook is on gender the chapters included in the volume also give significant attention to the interrelation of race class and other systems of stratification as they intersect and implicate gendered processes

The Gendered Executive Janet M. Martin, MaryAnne Borrelli, 2016-09-29 This book examines national executives focusing on matters of identity representation and power The contributors to this volume address the impact of female executives through political mobilization and participation policy and decision making and institutional change Topics include party nomination processes the intersectionality of race and gender

Building Democracy in the Yugoslav Successor States Sabrina P. Ramet, Christine M. Hassenstab, Ola Listhaug, 2017-05-15 Building democracy in societies that have known only authoritarian rule for half a century is complicated Taking the post Yugoslav region as its case study this volume shows how success with democratisation depends on various factors including establishing the rule of law the consolidation of free media and society s acceptance of ethnic religious and sexual minorities Surveying the seven successor states the authors argue that Slovenia is in a class by itself as the most successful with Croatia and Serbia not far behind The other states Bosnia Herzegovina Macedonia Montenegro and Kosovo are all struggling with problems of corruption poverty and unemployment The authors treat the issue of values as a policy problem in its own right debating the extent to which values have been transformed by changes in education and the media how churches and women s organisations have entered into the policy debate and whether governments have embraced a programme designed to effect changes in values

Arab Women's Activism and Socio-Political Transformation Sahar Khamis, Amel Mili, 2017-11-17 This book illustrates how Arab women have been engaging in three ongoing parallel struggles before during and after the Arab Spring on three levels namely the political struggle to pave the road for democracy freedom and reform the social struggle to achieve gender equality and fight all forms of injustice and

discrimination against women and the legal struggle to chart new laws which can safeguard both the political and the social gains. The contributors argue that while the political upheavals were oftentimes more prevalent and visible they should not overshadow the parallel social and legal revolutions which are equally important due to their long term impacts on the region. The chapters shed light on the intersections overlaps and divergences between these simultaneous continuous gendered struggles and unpacks their complexities and multiple implications locally regionally and internationally across different countries and through different phases.
