Orquesta Manuel Peña,2010-07-22 The Mexican American orquesta is neither a Mexican nor an American music Relying on both the Mexican orquesta and the American dance band for repertorial and stylistic cues it forges a synthesis of the two The ensemble emerges historically as a powerful artistic vehicle for the expression of what Manuel Pe a calls the dialectic of conflict Grounded in ethnic and class conflict this dialectic compels the orquesta and its upwardly mobile advocates to waver between acculturation and ethnic resistance The musical result a complex mesh of cultural elements Mexican and American working and middle class traditional and contemporary In this book Manuel Pe a traces the evolution of the orquesta in the Southwest from its beginnings in the nineteenth century through its pinnacle in the 1970s and its decline since the 1980s Drawing on fifteen years of field research he embeds the development of the orquesta within a historical materialist matrix to achieve the optimal balance between description and interpretation Rich in ethnographic detail and boldly analytical his book is the first in depth study of this important but neglected field of artistic culture *Social Controversy and Public Address in*

Americans in the Great Depression Abraham Hoffman,1974 Discouraged by widespread unemployment and alarmed by anti Mexican sentiment nearly five hundred thousand Mexican Americans returned to Mexico between 1929 and 1939 Historian Abraham Hoffman captures the despair of these thousands of people of Mexican descent including those with U S citizenship who were actively coerced into leaving the country Prior to 1931 many Mexican Americans left the United States voluntarily prompted by homesickness unemployment and the Mexican government's offer of free small land parcels As the Great Depression deepened repatriation pressures increased Anglo groups lobbied for laws that excluded aliens from jobs and welfare benefits Many businessmen government officials and social workers believed that removing Mexican Americans would open up jobs for U S citizens and alleviate some of the burden placed on relief agencies The Department of Labor's

federal deportation drive launched in 1931 created an atmosphere of fear and tension in Mexican American communities Immigration agents conducted surprise searches for people who had entered the country illegally and Mexicans who had crossed the border before restrictive legislation was passed became prime targets of the deportation campaign Welfare agencies throughout the United States organized repatriation programs The Los Angeles County Welfare Bureau with the most extensive program was responsible for the removal of more than thirteen thousand Mexican Americans A few well publicized deportations had frightened Mexicans who were unsure of their immigration status Many chose repatriation over possible deportation Using much archival material and many previously unpublished government documents Hoffman focuses on the repatriation experience in Los Angeles The city's large Mexican American population provides an excellent case study of the entire movement He also surveys the process of Mexican repatriation throughout the entire United States
