concepts of culture and law Subsequent chapters examine the dynamic interplay of law and culture with respect to each of the core themes The materials demonstrate the reality and efficacy of comparative international and indigenous law and legal practices in the dynamic context of culture related issues Throughout the book these issues are presented at multiple levels of legal authority international national and subnational **Mexican Women in American Factories** Carolyn

Tuttle,2012-11-01 Prior to the millennium economists and policy makers argued that free trade between the United States and Mexico would benefit both Americans and Mexicans They believed that NAFTA would be a win win proposition that would offer U S companies new markets for their products and Mexicans the hope of living in a more developed country with the modern conveniences of wealthier nations Blending rigorous economic and statistical analysis with concern for the people affected Mexican Women in American Factories offers the first assessment of whether NAFTA has fulfilled these expectations by examining its socioeconomic impact on workers in a Mexican border town Carolyn Tuttle led a group that interviewed 620 women maquila workers in Nogales Sonora Mexico The responses from this representative sample refute many of the hopeful predictions made by scholars before NAFTA and reveal instead that little has improved for maquila workers The women s stories make it plain that free trade has created more low paying jobs in sweatshops where workers are exploited Families of maquila workers live in one or two room houses with no running water no drainage and no heat The multinational companies who operate the maquilas consistently break Mexican labor laws by requiring women to work more than nine hours a day six days a week without medical benefits while the minimum wage they pay workers is insufficient to feed their families These findings will make a crucial contribution to debates over free trade CAFTA DR and the impact of globalization *The Role of the Domestic Law of the Host State in Determining the Jurisdiction *ratione materiae* of Investment Treaty Tribunals* Reza Eftekhari,2021-10-05

*The Role of the Domestic Law of the Host State in Determining the Jurisdiction *ratione materiae* of Investment Treaty Tribunals* The Partial Revival of the Localisation Theory focuses on the largely unexplored role of the host state law in determining the jurisdiction *ratione materiae* of investment treaty tribunals Given domestic law s essential role in subject matter jurisdiction issues and in the light of the broader function of host state law and host state courts in contemporary investment treaty law the author argues that the dormant localisation theory that was raised and defended by developing countries in the 1960s 1970s in the context of foreign investment contract disputes has now been partially revived in the area of the investment treaty law This is a significant milestone in the ongoing discussions on the reform of the investment treaty dispute settlement regime *UNCITRAL Model Laws on Digital Trade*

Trade Promotion Series, 1934 *Miscellaneous Publication* Wells Aleck Hutchins, 1942 **Cross Border Trade and Investment with Mexico** Philip T. von Mehren, 2023-11-27 A penetrating study of the impact of NAFTA on Mexico's economic development this is the only in depth comparison of Mexican trade law before and after NAFTA and of how considerations of trade with Mexico altered the provisions from the earlier Canada U S Free Trade Agreement and the GATT that formed the basis of the new trilateral project Mr von Mehren's book is a point of departure not only for understanding and applying the trade law common to North America but for assessing the likely course of historic negotiations still to come Published under the Transnational Publishers imprint **California Digest** Augustus Loring Rhodes, 1882 *Translating Property* María E. Montoya, 2005-05-15 When American settlers arrived in the southwestern borderlands they assumed that the land was unencumbered by property claims But as María E. Montoya shows the Southwest was no empty quarter simply waiting to be parceled up Although Anglo farmers claimed absolute rights under the Homestead Act their claims were contested by Native Americans who had lived on the land for generations Mexican magnates like Lucien Maxwell who controlled vast parcels under grants from Mexican governors and foreign companies who thought they had purchased open land The result was that the Southwest inevitably became a battleground between land regimes with radically different cultural concepts The struggle over the Maxwell Land Grant a 1.7 million acre tract straddling New Mexico and Colorado demonstrates how contending parties reinterpreted the meaning of property to uphold their claims to the land Montoya reveals how those claims with their deep historical and racial roots have been addressed to the satisfaction of some and the bitter frustration of others *Translating Property* describes how European and American investors effectively mistranslated prior property regimes into new rules that worked to their own advantage and against those who had lived on the land previously Montoya explores the legal political and cultural battles that swept across the Southwest as this land was drawn into world market systems She shows that these legal issues still have real meaning for thousands of Mexican Americans who continue to fight for land granted to their families before the Treaty of Guadalupe Hidalgo or for continuing communal access

to land now claimed by others This new edition of Montoya s book brings the land grant controversy up to date A year after its original publication the Colorado Supreme Court tried once more to translate Mexican property ideals into the U S system of legal rights and in 2004 the Government Accounting Office issued the federal government s most comprehensive effort to sort out the tangled history of land rights concluding that Congress was under no obligation to compensate heirs of land grants Montoya recaps these recent developments further expanding our understanding of the battles over property rights and the persistence of inequality in the Southwest Domestic Law in International Investment Arbitration Jarrod

Hepburn, 2017-02-16 Although domestic law plays an important role in investment treaty arbitration this issue is little discussed or analysed When should investment treaty tribunals engage with domestic law How should investment treaty tribunals resolve matters of domestic law These questions have significant ramifications for both the legitimacy of the investment treaty system and the arbitral mandate of the tribunal members Drawing on case law international law principles and comparative analysis this book addresses these important issues Part I of the book examines three areas of investment law the fair and equitable treatment standard expropriation and remedies in which the role of domestic law has so far been under appreciated It argues that tribunals are justified in drawing on domestic law as a relevant factor in their rulings on these three issues Part II of the book examines how questions of domestic law should be resolved in investment arbitration It proposes a normative framework for use by tribunals in ascertaining the contents of the domestic law to be applied It then considers counter arguments exemptions and exceptions to applying this framework and it evaluates how tribunals have ruled on questions of domestic law to date Investment treaty arbitration has endured much criticism in recent times partly over fears of its encroachment on sovereignty The book ultimately contends that closer attention by tribunals to one of the principal expressions of a state s sovereignty the elaboration of its domestic law will reduce criticism of the field **A**

Selection of Cases and Other Readings on the Law of Nations Edwin De Witt Dickinson, 1929 **Unlawful Violence** Rebecca Janzen, 2022-05-15 Violence has only increased in Mexico since 2000 23 000 murders were recorded in 2016 and 29 168 in 2017 The abundance of laws and constitutional amendments that have cropped up in response are mirrored in Mexico s fragmented cultural production of the same period Contemporary Mexican literature grapples with this splintered reality through non linear stories from multiple perspectives often told through shifts in time The novels such as Jorge Volpi s *Una novela criminal* A Novel Crime 2018 and Juli n Herbert s *La casa del dolor ajeno* The House of the Pain of Others 2015 take multiple perspectives and follow non linear plotlines other examples such as the very short stories in *Basta 100 mujeres contra la violencia de g nero* Enough 100 Women against Gender Based Violence 2013 present perspectives from multiple authors Few scholars compare cultural production and legal texts in situations like Mexico where extreme violence coexists with a high number of human rights laws *Unlawful Violence* measures fictional accounts of human rights against new laws that include constitutional amendments to reform legal proceedings laws that protect children laws that condemn violence

against women and laws that protect migrants and Indigenous peoples It also explores debates about these laws in the Mexican house of representatives and senate as well as interactions between the law and the Mexican public

The Reasons Requirement in International Investment Arbitration Guillermo Alvarez, W.M. Reisman, 2008-08-31 This collection of essays emerged from a seminar on international investment law taught jointly by the editors at the Yale Law School The participants brought a rich experience and as important for a subject like this a rich national diversity A considerable part of the seminar involved close reading of recent international investment arbitral awards These decisions have emerged as the most important engines of legal development in this field Interestingly in almost all instances it was felt that the right decision had been reached But without the building blocks that reasons reflect one could not reconstruct or reverse engineer the reasoning of the tribunal From this experience it was concluded that it would be a useful exercise to examine the adequacy of reasons in some of the most important recent international investment law awards in order to see if there were significant trends with policy implications The studies in this collection represent the best of the seminar
