Globalization and the Decline of American Power Cyrus Bina,2022-11-23 This book explores America s decline as a global power arguing that the implosion of Pax Americana was initiated by the process of globalization preceding the collapse of the Soviet Union by nearly a decade The era of Pax Americana and with it American hegemony is conclusively passed and will not return in current global conditions There is a stark contrast between the present epoch and the postwar era of American hegemony 1945 1979 in which the United States at least outside of the Soviet sphere of influence largely managed the international economy and reigned over international politics and relations Drawing on both theoretical and empirical evidence this book shows that the era of globalization unleashed forces social political and economic which broke down the status quo of American hegemony Author Cyrus Bina also establishes that since the Iranian Revolution 1979 US involvement throughout the Middle East in Iraq Afghanistan Libya Syria Yemen and now notably in Ukraine has been motivated by the freefall of American hegemony and an attempt to get it back by direct or indirect military force Bina utilizes these contexts for wider analysis and critique of a number of theories commonly used to analyze economy polity geopolitical and dynamics of crisis and social change in capitalism This book will be of great interest to students academics and policymakers on subjects of Economics International Relations Global Studies International Political Economy Political Geography Sociology and postwar History

Feminism and the Politics of Childhood

Rachel Rosen, Katherine Twamley, 2018-02-22 *Feminism and the Politics of Childhood* offers an innovative and critical exploration of perceived commonalities and conflicts between women and children and more broadly between various forms of feminism and the politics of childhood. This unique collection of 18 chapters brings into dialogue authors from a range of geographical contexts, social science disciplines, activist organisations and theoretical perspectives. The wide variety of subjects include refugee camps, care, labour, domestic violence and childcare and education. Chapter authors focus on local contexts as well as their global interconnections and draw on diverse theoretical traditions such as poststructuralism, psychoanalysis, posthumanism, postcolonialism, political economy and the ethics of care. Together the contributions offer new ways to conceptualise relations between women and children and to address injustices faced by both groups. Praise for *Feminism and the Politics of Childhood*. Friends or Foes. This book is genuinely ground breaking. Val Gillies, University of Westminster. *Feminism and the Politics of Childhood*. Friends or Foes asks an impossible question and then casts prismatic light on all corners of its impossibility. Cindi Katz, CUNY. This provocative and stimulating publication comes not a day too soon. Gerison Lansdown. *Child to Child*. A smart, innovative and provocative book. Chandra Talpade Mohanty, Syracuse University. This volume raises and addresses issues so pressing that it is surprising they are not already at the heart of scholarship. Ann Phoenix, UCL.

A Little Matter of Genocide Ward Churchill, 1997. Ward Churchill has achieved an unparalleled reputation as a scholar, activist and analyst of indigenous issues in North America. Here he explores the history of holocaust and denial in this hemisphere, beginning with the arrival of Columbus and continuing on into the present. He frames the matter by examining both revisionist denial of the Nazi perpetrated Holocaust and the opposing claim of its exclusive uniqueness, using the full scope of what happened in Europe as a backdrop against which to demonstrate that genocide is precisely what has been and still is carried out against the American Indians. Churchill lays bare the means by which many of these realities have remained hidden, how public understanding of this most monstrous of crimes has been subverted not only by its perpetrators and their beneficiaries but by the institutions and individuals who perceive advantages in the confusion. In particular, he outlines the reasons underlying the United States's 40 year refusal to ratify the Genocide Convention as well as the implications of the attempt to exempt itself from compliance when it finally offered its endorsement. In conclusion, Churchill proposes a more adequate and coherent definition of the crime as a basis for identifying, punishing and preventing genocidal practices wherever and whenever they occur. Ward Churchill enrolled Keetoowah, Cherokee. is Professor of American Indian Studies with the Department of Ethnic Studies at the University of Colorado Boulder. A member of the American Indian Movement since 1972, he has been a leader of the Colorado chapter for the past fifteen years. Among his previous books have been *Fantasies of a Master Race*, *Struggle for the Land Since Predator Came* and *From a Native Son*.

Under the Eye of Power Colin Dickey, 2023-07-11 From beloved cultural historian and acclaimed author of *Ghostland* comes a history of America's obsession with secret societies and the conspiracies of hidden power The United States was born in paranoia From the American Revolution thought by some to be a conspiracy organized by the French to the Salem witch trials to the Satanic Panic the Illuminati and QAnon one of the most enduring narratives that defines the United States is simply this secret groups are conspiring to pervert the will of the people and the rule of law We'd like to assume these panics exist only at the fringes of society or are unique features of the internet age But history tells us in fact that they are woven into the fabric of American democracy Cultural historian Colin Dickey has built a career studying how our most irrational beliefs reach the mainstream why and what they tell us about ourselves In *Under the Eye of Power* Dickey charts the history of America through its paranoias and fears of secret societies while seeking to explain why so many people including some of the most powerful people in the country continue to subscribe to these conspiracy theories Paradoxically he finds belief in the fantastical and conspiratorial can be more soothing than what we fear the most the chaos and randomness of history the rising and falling of fortunes in America and the messiness of democracy Only in seeing the cycle of this history Dickey says can we break it
