New Shapes Of Reality Aspects Of A N Whiteheads Philosophy:

New Shapes of Reality Martin Jordan, 2025-03-01 *New Shapes of Reality* 1968 examines the works and thoughts of A N Whitehead a major philosopher of great originality whose work touches all our preoccupations but who fell out of favour and became rather obscure This book encourages a Whitehead revival and stresses a point of importance to any who wish to understand this great modern philosopher there is more than one way of looking at the universe You can see things either as material existing in space or as events which create their own conditions as they come and go The exploration of the latter prospect is the true excitement to be found in Whitehead

Whitehead's View of Reality W. Creighton Peden, 2010-03-08 Whitehead's View of Reality developed from conversations between the authors about the need for a work that would be of assistance to students ready to undertake a study of Alfred North Whitehead's Process and Reality The volume begins with a biographical sketch of Whitehead's life in order that one can understand the various stages in his professional development as well as the radically changing times in which his thought progressed It is hoped that the Whitehead's encounter with Gertrude Stein will provide the student with a stronger feeling of Whitehead as a person Charles Hartshorne undertook the task of placing Whitehead within a historical context The context in which Whitehead is presented is that of being one of the few great philosophers in Western culture who engaged in speculative or metaphysical philosophy The influence of Plato and Leibniz is noted as well as Hartshorne's personal preference for Peirce and Bergson in relation to Whitehead's speculative philosophy Whitehead agreed with all these great metaphysicians that the explanation of matter was to be sought in mind not that of mind in matter Hume Kant Russell and William James are noted as major non speculative thinkers whose thought received careful consideration by Whitehead Hume the Buddhists and Whitehead agreed that strictly speaking a so called substance is a new concrete reality each moment It is Hartshorne's judgment that Whitehead does the best job of retaining aspects of truth in our commonsense notions of individual things and persons Hartshorne also discusses the paradoxes that arise as we search for our self identity He contends that we can escape from these paradoxes if we accept Whitehead's contention that concrete actualities are not in the last analysis enduring changing substances but successive momentary stages of what are called substances or individuals This should lead us to understand that we have an asymmetrical identity with the successive momentary stages of our relations Hartshorne also notes that the basic concepts developed by Whitehead are based on his understanding that actual entities are the real subjects that experience perceive remember and think Thus the basic form of experience is perception Hartshorne further suggests that perhaps Whitehead is the first philosopher to view perception which includes memory as experience of the past rather than of the present In discussing Whitehead's philosophical theology Hartshorne indicates that his view of God was an alternative to the standard metaphysical conception of deity which had prevailed since Aristotle The problem of divine knowledge had been at the core of the problems with classical theism The issue was whether everything I do is decided at my coming to exist If so then we are nothing but a clog

in the cosmic machinery Hartshorne suggests that the first theologian to view this issue sharply was Fausto Socinus who took the idea of human decision making seriously and rejected the notion that divine omnipotence determines human decisions He suggested among others had something in common with the Socinians Hartshorne concludes his remarks focusing on unresolved problems in Whitehead's theism Creighton Peden's responsibility is to present an exposition of Whitehead's philosophy with primary attention at first given to his basic terms as well as to the foundation principles and structure of his method Analysis is then given his metaphysical scheme from the perspective of his method The focus of attention then shifts to Whitehead's doctrine of God and his view of religion Peden concludes with a comparative evaluation of Whitehead's position with traditional Christian thought Consideration is given to three general problems raised by traditional Christians The first point of contention is that Whitehead's God is not the infinite and eternal God of the Universe but is rather a limited God within the Universe In the second case traditional Christian theology would assert that Whitehead's God does not actually save because he does not save the individual The third problem would hold that Whitehead's God is not the or a personal God

Creativity and Its Discontents Alan Wyk, Michel Weber, 2013-05-02 I do not expect a good reception from professional philosophers wrote Whitehead in 1929 immediately after the publication of *Process and Reality* Indeed it took nearly thirty years before scholars seriously started to try to decipher the book taken as a whole And there remains today professional Whiteheadians who claim that this work can or even should be bracketed by anyone wishing to get a clear picture of Whitehead's true speculative agenda *Creativity and Its Discontents* aims to provide evidence of the conditions for this state of affairs by gathering and contextualizing all the major reviews translated where need be of *Process and Reality* its original 1929 edition its various translations some of them still ongoing and its 1978 corrected edition It is designed as the ideal tool to accompany the recently published *Handbook of Whiteheadian Process Thought*

Fifty Major Thinkers on Education Joy Palmer, Liora Bresler, David Cooper, 2002-09-11 In this unique work some of today's greatest educators present concise accessible summaries of the great educators of the past Covering a time span from 500 BC to the early twentieth century each essay gives key biographical information an outline of the individual's principal achievements and activities an assessment of their impact and influence a list of their major writings and suggested further reading Together with *Fifty Modern Thinkers on Education* this book provides a unique reference guide for all students of education

Experiencing the Knowing of Faith Sharon Warner, 2000 What is religious faith And how does modern society view truth Sharon Warner in *Experiencing the Knowing of Faith* discusses the understanding formed by deep truth or knowledge intrinsic to a person's self identity She critiques today's susceptibility to the paradigm of Cartesian dualities such as mind body and subject object and in doing so utilizes the philosophy of Alfred North Whitehead and Michael Polanyi Concluding with an exploration of the relevance of this theory for teaching faith the work will be of great use to religious scholars and to philosophers

[The Epochal Nature of Process in Whitehead's Metaphysics](#) F. B. Wallack, 1980-06-30 While my book

attempts to reflect the full range of scholarly debate I have also attempted to make it useful to anyone interested in Whitehead To this end I have introduced the Whiteheadian terms one by one explaining each in the light of my interpretation and I have used examples wherever possible I try to show that Whitehead intended his philosophy have a place in our lives by reshaping our common conceptions and that he did not intend it to be relegated to purely abstract or esoteric application F Bradford Wallack The twentieth century has seen the greatest innovations in philosophical cosmology since Newton and Descartes and Alfred North Whitehead was the first and greatest of the philosophers to work out these innovations in systematic ways In a book that will be controversial in the philosophical community F Bradford Wallack argues that interpretations widely accepted by Whiteheadians need revaluation because these interpretations are based on materialist and substantialist assumptions that Whitehead sought to replace Specifically she proposes a thorough revision of accepted interpretations of Whitehead s concept of the actual entity Wallack then elucidates Whitehead s ideas in order of their increasing dependence upon other basic Whiteheadian terms to complete the study of Whiteheadian time and to clarify its purpose within the cosmology of Process and Reality Whitehead s philosophy then emerges as more intelligible and cohesive than is generally believed

Process Theology John B. Cobb, David Ray Griffin, 1976-01-01 This book offers an interpretation of the basic concepts of process philosophy and outlines a process theology based on it that will be especially useful for students of theology teachers ministers and those interested in theological trends

Management Learning John Burgoyne, Michael Reynolds, 1997-10-28 Management Learning introduces the context and history of management learning and offers a critical framework within which the key debates can be understood The book also provides an incisive discussion of the values and purpose inherent in the practice and theory of management learning and charts the diverse external factors influencing and directing the processes of learning The volume concludes with a look forward towards the future reconstruction of the field

Whitehead's Philosophy Janusz A. Polanowski, Donald W. Sherburne, 2012-02-01 This volume explores the range of Alfred North Whitehead s philosophy and his relevance to contemporary philosophical traditions While philosophers and theologians with only a passing acquaintance with Whitehead might think that his philosophy is unconnected to our Western philosophical tradition the contributors prove that nothing could be further from the truth The most respected scholars in the field George Allan Lisa Bellantoni John B Cobb Jr Frederick Ferr David L Hall William S Hamrick Robert Cummings Neville Janusz A Polanowski Patrick Shade and Donald W Sherburne illustrate points of connection between Whitehead s ideas to the following Descartes the so called Father of Modern Philosophy classical American thought several contemporary American thinkers including Richard Rorty and Alasdair MacIntyre aspects of European philosophy and current reflections upon the environment and technology

Process Philosophy and Christian Thought Delwin Brown, Ralph E. James, Gene Reeves, 1971

I'd Rather Be Dead Than Be a Girl John Marcus Sweeney, 2009-11-02 In I d Rather Be Dead Than Be a Girl the author explains a threefold thesis of a study that language

influences how human beings perceive reality that the development of theoretical constructs can help explain resistances to and possibilities for inclusive language and that the implementation of inclusive language is an important goal for religious education The study begins with a description of the problem to be considered that is the role of sexist language in perpetuating sexual discrimination Beginning in the third chapter insights from Alfred North Whitehead's philosophy of organism Benjamin Lee Whorf's principle of linguistic relativity and Jean Piaget's genetic epistemology are used to investigate the stubbornness of sexist linguistic habits and the bases for developing inclusive linguistic habits Finally inclusive language is shown to be important for religious education and some strategies for implementing inclusive language are presented

Un empirisme spéculatif Didier Debaise, 2006 Lorsque Whitehead publie *Proces et realite* 1929 il a déjà construit une oeuvre importante les *Principia mathematica* An enquiry concerning the principles of natural knowledge Concept of Nature et Science and the Modern World Pourtant c'est à partir de *Proces et realite* que se met véritablement en place sa philosophie systematique qui fascinera des penseurs aussi différents que Bergson Dewey Merleau Ponty Wahl ou encore Deleuze Whitehead y invente avec une extraordinaire fécondité de nouvelles catégories qui transforment puissamment le champ de la metaphysique La presente etude se propose de suivre la construction conceptuelle de *Proces et realite* en partant de la question centrale qu'est ce qu'un événement et en s'organisant autour de trois problèmes distincts l'identification de la metaphysique à une pensée speculative qui se définit essentiellement comme une méthode d'interprétation l'affirmation du réel comme ensemble de devenir et de processus d'individuation et non plus de choses et de substances l'élucidation de l'expérience immédiate à partir du concept de société
