Rethinking the Uncanny in Hoffmann and Tieck Marc Falkenberg, 2005 This stimulating new book challenges Freud's definition of the uncanny prevalent in the study of Gothic and Romantic fiction by reviving the importance of uncertainty in the uncanny Literary criticism views the uncanny as an expression of the return of the repressed Falkenberg's expanded definition includes but is not limited to the psychoanalytic and instead redefines the uncanny as a cognitive and aesthetic phenomenon Beyond offering a survey of what David Punter has called The Theory of the Uncanny this study places the uncanny in the context of the poetological and philosophical background of the Romantic period In close readings of two stories that have stood at the center of the debate about the uncanny E T A Hoffmann's Sandman and Ludwig Tieck's Blond Eckbert the author shows how these texts are constructed as uncanny phenomena in themselves The study traces fairytale elements framing techniques and interdependencies between the fictional productions of the protagonists and their dark fates to expose how these texts confront the reader with paradoxical decoding instructions This expanded and revised uncanny not only yields new readings of two classic German short stories it also leads to a better understanding of the cultural soil that nourished the Romantic Movement

The Poetry of Gottfried Benn Martin Travers, 2007 This book is the first comprehensive study of Gottfried Benn's poetry to appear in English It covers the entirety of Benn's verse from his early Morgue cycle 1912 and Expressionist poems through to the anthropological

poetry of his middle period to the postmodern Phase II work after the Second World War Against the background of the poet's theoretical writings this study drawing upon the classic texts of Benn scholarship analyzes in detail the major themes of his verse and its distinctive idiom In particular this work focuses on Gottfried Benn's extended process of rhetorical self-fashioning his use of classical iconography color motifs and chiffrés his often confusing historical semantics the seemingly self-constituting absolute poem and the colloquial idiom of his late verse The book also engages with the multiplicity of voices in Benn's work and their varied textual forms the hermeneutically variable positions of speech that they articulate and the often contradictory notion of selfhood to which they give rise *Revolutionary Theater and the Classical Heritage* Michael David Richardson, 2007 This study analyzes the work of three prominent proletarian revolutionary dramatists at the end of the Weimar Republic The work of Bertolt Brecht Friedrich Wolf and Gustav von Wangenheim is looked at against the backdrop of debates among Marxist intellectuals and artists Through a discussion of theatrical theory and close readings of individual plays this work examines the authors' unique aesthetics and their enactment of a critical appropriation of the German literary heritage It also investigates their attempts to transform the audience's relationship to the theatrical production from a passive receptive to an active critical one This volume offers insights into larger questions of political and cultural continuity that characterized the Weimar and the postwar periods *A History of Modern Germany Since 1815* Frank B. Tipton, 2003-01-01 An accessible textbook for courses on modern German history **Historical Dictionary of Postwar German Literature** William Grange, 2009-07-09 Some authors strongly criticized attempts to rebuild a German literary culture in the aftermath of World War II while others actively committed themselves to dealing with the German past There are writers in Austria and Switzerland that find other contradictions of contemporary life troubling while some find them funny or even worth celebrating German postwar literature has in the minds of some observers developed a kind of split personality In view of the traumatic monstrosities of the previous century that development may seem logical to some The *Historical Dictionary of Postwar German Literature* is devoted to modern literature produced in the German language whether from Germany Austria Switzerland or writers using German in other countries This volume covers an extensive period of time beginning in 1945 at what was called zero hour for German literature and proceeds into the 21st century concluding in 2008 This is done through a list of acronyms and abbreviations a chronology an introductory essay a bibliography and hundreds of cross-referenced dictionary entries on writers such as Nobel Prize winners Heinrich Böll Günter Grass Elias Canetti Elfriede Jelinek and W G Sebald There are also entries on individual works genres movements literary styles and forms **Decolonization in Germany** Jared Poley, 2007 When Germany lost its colonial empire after the Great War many Germans were unsure how to understand this transition They were the first Europeans to experience complete colonial loss an event which came as Germany also wrestled with wartime collapse and foreign occupation In this book the author considers how Germans experienced this change from imperial power to postcolonial nation This work examines what

the loss of the colonies meant to Germans and it analyzes how colonialist categories took on new meanings in Germany's post colonial period Poley explores a varied collection of materials that ranges from the stories of popular writer Hanns Heinz Ewers to the novels essays speeches pamphlets posters and archival materials of nationalist groups in the occupied Rhineland to show how decolonization affected Germans When the relationships between metropole and colony were suddenly severed Germans were required to reassess many things nation and empire race and power sexuality and gender economics and culture Encyclopedia of Contemporary German Culture John Sandford,2013-04-03 Pre and post unification culture Includes Austria and Switzerland Annotated suggestions for further reading English and German language works Performance Research Claire MacDonald,1996-10-17 Twenty nine collected essays represent a critical history of Shakespeare's play as text and as theater beginning with Samuel Johnson in 1765 and ending with a review of the Royal Shakespeare Company production in 1991 The criticism centers on three aspects of the play the love friendship debate

Mysticism as Modernity William Morris Crooke,William Crooke,2008 This work reconsiders the connections between mysticism nationalism and modernity in twentieth century German cultures Disengaging mysticism from occultism the author creates a new space for reconsidering mysticism's links to larger structures of modernity already at play at the turn of the century Rather than dismissing mysticism as a strain of anti modern irrationalism with troubling links to radical politics such as Nazism the author reconceptualizes modern mysticism as an unwittingly logical expression of the same compression of time and space created by the emergence of the newspaper radio railways and telegraph and reflected in the novels of Hermann Hesse Robert Musil and Max Frisch **Eros and Thanatos** Bennett I. Enowitch,2005 Walter Vogt the Swiss psychiatrist and author 1927 1988 can be considered a gadfly in the Swiss medical profession and a paradox in the Swiss literary arena This writing doctor shocked the Swiss medical establishment with a scathing expos in his 1965 novel *W thrich* and then continued to write prolifically until his death He was noted for his use of the grotesque as well as for his literary sarcasm and use of parody Vogt's use of the diary as his main genre enhanced his popularity He was one of the first Swiss writers with a strong commitment to preventing environmental degradation Vogt suffered from many physical illnesses in addition to a multitude of psychological conflicts throughout his life He was focused on death and illness from his early adult years This book not only looks at Vogt from a psychiatric point of view but also at his contribution to contemporary Swiss German literature Reading Rilke's Orphic Identity Erika M.
