subaltern studies **Armies of Early Colonial North America, 1607-1713** Gabriele Esposito, 2020-01-24 Gabriele Esposito presents a detailed overview of the military history of Colonial North America during its earliest period from the first colonial settlement in Jamestown to the end of the first continental war fought in the Americas. He follows the development of organization and uniforms not only for the British Colonies of North America but also for the French ones of Canada. Every colonial unit formed by the Europeans in the New World as well as the regular troops sent to America by Britain and France is covered in detail from the early militias of the Thirteen Colonies to the expeditionary forces formed during the War of the Spanish Succession. Great military events like King Philip's War or Bacon's Rebellion are analyzed and the evolution of tactics employed in this theater are discussed showing how much warfare was influenced by the terrain and conditions in North America. Dozens of illustrations including color art works show the first military uniforms ever worn in North America as well as interesting details of weaponry and equipment used.

Dutch and Indigenous Communities in Seventeenth-Century Northeastern North America Lucianne Lavin, 2021-05-01 This volume of essays by historians and archaeologists offers an introduction to the significant impact of Dutch traders and settlers on the early history of Northeastern North America as well as their extensive and intensive relationships with its Indigenous peoples. Often associated with the Hudson River Valley, New Netherland actually extended westward into present-day New Jersey and Delaware and eastward to Cape Cod. Further, New Netherland was not merely a clutch of Dutch trading posts; settlers accompanied the Dutch traders and Dutch colonists founded towns and villages along Long Island Sound, the mid-Atlantic coast, and up the Connecticut, Hudson, and Delaware River valleys. Unfortunately, few nonspecialists are aware of this history, especially in what was once eastern and western New Netherland, southern New England, and the Delaware River Valley, respectively, and the essays collected here help strengthen the case that the Dutch deserve a more prominent position in future history books, museum exhibits, and school curricula than they have previously enjoyed. The archaeological content includes descriptions of both recent excavations and earlier unpublished archaeological investigations that provide new and exciting insights into Dutch involvement in regional histories, particularly within Long Island Sound and inland New England. Although there were some incidences of cultural conflict, the archaeological and documentary findings clearly show the mutually tolerant, interdependent nature of Dutch-Indigenous relationships through time. One of the essays by a Mohawk community member provides a thought-provoking Indigenous perspective on Dutch-Native American relationships that complements and supplements the considerations of his fellow writers. The new archaeological and ethnohistoric information in this book sheds light on the motives, strategies, and sociopolitical maneuvers of seventeenth-century Native leadership and how Indigenous agency helped shape postcontact histories in the American Northeast.
