Shupe, David G. Bromley, 1980-11 the book is a most useful contribution to the study of social movements It should also be of considerable interest to students of both religion and deviance particularly those interested in symbolic degradation moral crusades and the creation of outsiders Sociology and Social Research Vol 66 No 3 The Darkest Sides of Politics, II Jeffrey M. Bale, 2017-10-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The second volume in this two volume collection focuses primarily on assorted religious extremists including apocalyptic millenarian cults Islamists and jihadist terrorist networks as well as CBRN chemical biological radiological and nuclear terrorism and the supposedly new nexus between organized criminal and extremist groups employing terrorist operational techniques A range of global case studies are included most of which focus on the lesser known activities of certain religious extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics The Oxford Handbook of Religious Conversion Lewis Ray Rambo, Charles E. Farhadian, 2014 The Oxford Handbook of Religious Conversion offers a comprehensive exploration of the dynamics of religious conversion which for centuries has profoundly shaped societies cultures and individuals throughout the world Scholars from a wide array of religions and disciplines interpret both the varieties of conversion experiences and the processes that inform this personal and communal phenomenon This volume examines the experiences of individuals and communities who change religions those who experience an intensification of their religion of origin and those who encounter new religions through colonial intrusion missionary work and charismatic and revitalization movements The thirty two innovative essays provide overviews of the history of particular religions including Hinduism Buddhism Confucianism Taoism Sikhism Islam Christianity Judaism indigenous religions and new religious movements The essays also offer a wide range of disciplinary perspectives psychological sociological anthropological legal political feminist and geographical on methods and theories deployed in understanding conversion and insight into various forms of deconversion The Sociology of Religion Malcolm B. Hamilton, 2012-06-12 This expanded second edition combines a discussion of the main theorists with a wide range of material

illustrating the diversity of religious beliefs and practices **The Oxford Handbook of New Religious Movements** James R. Lewis, Inga Bårdsen Tøllefsen, 2016 The Oxford Handbook of New Religious Movements both covers the current state of the field and breaks new ground Its contributors drawn from both sociology and religious studies are leading figures in the study of NRMs *Agents of Discord* Susan E. Darnell, 2017-12-02 It is widely acknowledged that the United States has always provided fertile ground for the growth of new religious movements and cults but modern organized efforts to oppose and restrict them have been less well understood In *Agents of Discord* Anson Shupe and Susan E Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement Historically there have always been parallel groups opposed to certain religious movements whether these be anti Quaker anti Roman Catholic or anti Mormon The authors establish the cultural context of such movements in the nineteenth century They point out the link between modern anticult movements and nativist movements in American history Turning to the postwar era the authors discuss the rise of anticult movements and focus specifically on one of the most prominent the Cult Awareness Network CAN CAN was a two tiered organization Partly composed of volunteers donors and families affected by cult movements it also included what the authors call an inner sanctum of behavioral science professionals attorneys and deprogrammers Using never before reported data on CAN s activities the authors cite an extensive history of financial impropriety that finally led to the organization s bankruptcy They offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the anticult movement that has been a central assumption undergirding its activities At the same time they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies In their analysis of the anticult movement nationally and internationally Shupe and Darnell merge sociological concepts and social history to make unique sense of a hereto **The Encyclopedia of Politics and Religion** Robert Wuthnow, 2013-12-04 Containing over 200 articles from prominent scholars The Encyclopedia of Politics and Religion examines ways in which politics and religion have combined to affect social attitudes spark collective action and influence policy over the last two hundred years With a focus that covers broad themes like millenarian movements and pluralism and a scope that takes in religious and political systems throughout the world the Encyclopedia is essential for its contemporary as well as historical coverage Special Features Encompasses religions individuals geographical regions institutions and events Describes the history of relations between religion and politics Longer articles contain brief bibliographies Attractively designed and produced The Encyclopedia of Politics and Religion will be invaluable for any library public and academic which serves those interested in politics sociology religious studies international affairs and history Contents include Abortion Algeria Anabaptists China Christian Democracy Ethnic Cleansing Gandhi Israel Italy Jesuits Jihad Just War Missionaries Moral Majority Muslim Brethren Temperance Movements Unification

Church War Zionism *Religion, Rights and Secular Society* Peter Cumper, Tom Lewis, 2012-01-01 Religion Rights and Secular Society by Peter Cumper and Tom Lewis is a both timely and important publication In a series of highly interesting and well written essays some of which are case studies covering many different European nations whereas others are more theoretical the book looks at a key paradox in contemporary Europe the relatively high levels of secularity in most European countries on the one hand and the marked resurgence of religion in public debates on the other While never pretending that there are ready answers to the problems of reconciling secular and religious values in Europe the contributors make it quite clear that Europeans need to return to questions about religion that they had previously regarded as being settled This is food for thought at a very high level Helle Porsdam University of Copenhagen Denmark This topical collection of chapters examines secular society and the legal protection of religion and belief across Europe both in general and more nation specific terms The expectations of many that religion in modern Europe would be swept away by the powerful current of secularization have not been realised and today few topics generate more controversy than the complex relationship between religious and secular values The religious secular relationship is examined in this book which brings together scholars from different parts of Europe and beyond to provide insights into the methods by which religion and equivalent beliefs have been and continue to be protected in the legal systems and constitutions of European nations The contributors chapters reveal that the oft tumultuous legacy of Europe s relationship with religion still resonates across a continent where legal political and social contours have been powerfully shaped by faith and religious difference Covering recent controversies such as the Islamic headscarf and the presence of the crucifix in school class rooms this book will appeal to academics and students in law human rights and the social sciences as well as law and policy makers and NGOs in the field of human rights

Witnessing for Sociology Pamela J. Jenkins, J.S. Kroll-Smith, 1996-06-24 The American court system is making increasing use of sociologists as expert witnesses From toxic torts to religious cults and brainwashing sociological knowledge is becoming increasingly more commonplace in the legal arena This edited volume is a collection of the experiences of sociologists who have appeared as expert witnesses in a variety of court cases Many of the cases covered in this book revolve around central issues of murder self defense religious cults battered women child pornography environmentalism and homelessness This volume is unique in its breadth of topics and contributions Versions of Deconversion John D. Barbour, 1994 In *Versions of Deconversion* John Barbour examines the work of a broad selection of authors in order to discover the reasons for their loss of faith and to analyze the ways in which they have interpreted that loss For some the experience of deconversion led to another religious faith some turned to atheism or agnosticism and others used deconversion as a metaphor or analogy to interpret an experience of personal transformation The loss of faith is closely related to such vital ethical and theological concerns as the role of conscience the assessment of religious communities the dialectical relationship between faith and doubt and the struggle to reconcile faith with intellectual and moral integrity This

book shows the persistence and the vitality of the theme of deconversion in autobiography and it demonstrates how the literary form and structure of autobiography are shaped by ethical critique and religious reflection Versions of Deconversion should appeal at once to scholars in the fields of religious studies and theology who are concerned with narrative texts to literary critics and specialists on autobiography and to a wider audience interested in the ethical and religious significance of autobiography

Religion in Western Society Stephen J. Hunt, 2017-03-14 This book offers a comprehensive account of the nature and expression of contemporary forms of religion in Western societies Drawing both on recent original work and classical and contemporary conceptual frameworks it examines the beliefs practices patterns of organisation and significant trends in both mainstream and fringe religions including cults and quasi religions Competing arguments and theories about key developments are treated fully and fairly and there is a clear sense throughout of the social context The approach is broadly sociological and the well paced jargon free writing style and clearly sectioned chapters make this an ideal text for teaching and study purposes both in sociology and religious studies Amongst the themes and concerns covered are What we mean in the first place by religion Secularisation and new expressions of religiosity The effect of religion on society and the relationship between religion and social change The links between belief belonging and social identity Contemporary Christianity and the religions of ethnic minorities in the West Globalisation religious pluralism and postmodernity STEPHEN J HUNT is Senior Lecturer in Sociology at the University of West of England Bristol He has written widely on contemporary Christianity and new religious movements

Violence, Inequality, and Human Freedom Peter Iadicola, Anson Shupe, 2012-10-26 Violence Inequality and Human Freedom is a sociological introduction to the study of violence that looks at violence on three different levels structural institutional and interpersonal The third edition is updated throughout including a new chapter on educational violence and revised sections on economic and international violence

Religious Diversity, State, and Law Joseph Marko, Maximilian Lakitsch, Franz Winter, Wolfgang Weirer, Kerstin Wonisch, 2022-10-17 Globalisation migration and de secularisation have fundamentally transformed the concepts of religion state and law during the last decades The main goal of this interdisciplinary approach is to clarify the multifaceted theoretical and practical challenges of religious diversity and socio political pluralism in Europe In twenty two chapters the contributions to this volume revisit basic concepts structures and institutional settings such as sovereignty the dogma of the separation of state church and or religion human and minority rights gender and religion varieties of fundamentalisms interreligious dialogue and peacebuilding and not least religious education

Armageddon in Waco Stuart A. Wright, 2014-07-04 On February 28 1993 the United States Bureau of Alcohol Tobacco and Firearms BATF launched the largest assault in its history against a small religious community in central Texas One hundred agents armed with automatic and semi automatic weapons invaded the compound purportedly to execute a single search and arrest warrant The raid went badly four agents were killed and by the end of the day the settlement was surrounded by armored tanks and combat helicopters After a fifty one day standoff the

United States Justice Department approved a plan to use CS gas against those barricaded inside. Whether by accident or plan, tanks carrying the CS gas caused the compound to explode in fire, killing all seventy-four men, women, and children inside. Could the tragedy have been prevented? Was it necessary for the BATF agents to do what they did? What could have been done differently? *Armageddon in Waco* offers the most detailed, wide-ranging analysis of events surrounding Waco. Leading scholars in sociology, history, law, and religion explore all facets of the confrontation in an attempt to understand one of the most confusing government actions in American history. The book begins with the history of the Branch Davidians and the story of its leader, David Koresh. Chapters show how the Davidians came to trouble authorities, why the group was labeled a cult, and how authorities used unsubstantiated allegations of child abuse to strengthen their case against the sect. The media's role is examined next in essays that consider the effect on coverage of lack of time and resources, the orchestration of public relations by government officials, the restricted access to the site, or to countervailing evidence, and the ideologies of the journalists themselves. Several contributors then explore the relation of violence to religion, comparing Waco to Jonestown. Finally, the role played by experts and consultants in defining such conflicts is explored by two contributors who had active roles as scholarly experts during and after the siege. The legal and constitutional implications of the government's actions are also analyzed in balanced, clearly written detail.

A Study of the Movement of Spiritual Awareness D. Tumminia, J. Lewis, 2013-11-18

MSIA, the Movement of Spiritual Inner Awareness, has been called the Cadillac of cults. Those interested in new religions may only know of MSIA from these kinds of labels. However, when looked at from a qualitative sociological perspective, a more complex story of religious innovation and cultural change can be told.
