On The Ontological Differentiation Of Human Gender A:

On the Ontological Differentiation of Human Gender Beatriz Vollmer de Marcellus, 2005-01-01 In the Western Hemisphere gender issues have become an integral part of our lives Few people realize however that they are based on profound philosophical presuppositions After an extensive literary critique on the subject Beatriz Vollmer analyzes the different philosophical currents which have taken gender issues and feminism in so many directions As her doctoral dissertation this work has innovative views regarding the complementarity and asymmetry of the sexes as well as a detailed philosophical explanation of equality identity difference and sameness in the context of male and female Perhaps her greatest contribution to this subject is the new perspective she gives to the sex gender distinction **An Aristotelian Feminism**

Sarah Borden Sharkey, 2016-08-01 This book articulates the theoretical outlines of a feminism developed from Aristotle's metaphysics making a new contribution to feminist theory Readers will discover why Aristotle was not a feminist and how he might have become one through an investigation of Aristotle and Aristotelian tradition The author shows how Aristotle's metaphysics can be used to articulate a particularly subtle and theoretically powerful understanding of gender that may offer a highly useful tool for distinctively feminist arguments This work builds on Martha Nussbaum's capabilities approach in a more explicitly and thoroughly hylomorphic way The author shows how Aristotle's hylomorphic model developed to run between the extremes of Platonic dualism and Democritean atomism can similarly be used today to articulate a view of gender that takes bodily differences seriously without reducing gender to biological determinations Although written for theorists this scholarly yet accessible book can be used to address more practical issues and the final chapter explores women in universities as one example This book will appeal to both feminists with limited familiarity with Aristotle's philosophy and scholars of Aristotle with limited familiarity with feminism **On the Nature of Human Sexual**

Difference: A Symposium Timothy Paul Fortin, 2024-11-05 This work offers a symposium on the nature of human sexual difference drawing on Plato's masterpiece having explored the observed phenomena of sexual difference four stories are told of the origins essence and ends of the human male and female First the evolutionists and then Simone de Beauvoir and Judith Butler present their accounts Next a fourth and unique vision for our age is added the thought of Thomas Aquinas is placed in dialogue with the evolutionists Beauvoir and Butler thereby introducing into contemporary discourse a voice that is both ancient and new The work seeks to trace each protagonist's account to its fonts so providing a perspective from which various streams of thought might be understood both in their divergence and common origins It thus hopes to offer a common language and an interpretive key in a realm where confusion and misunderstanding too often reign Women and

What Is Sexual Difference? Mary C. Rawlinson, James Sares, 2023-06-06 Luce Irigaray has written that sexual difference is one of the major philosophical issues if not the issue of our age Spanning metaphysics phenomenology and psychoanalysis her work examines how sexual difference structures being and subjectivity organizes our experience of the world and affects the images and discourses involved in knowledge production and practical action No other philosopher has paid such careful attention to the consequences of the elision of sexual difference in philosophical thought However at a time when notions of sexual and gender difference are hotly contested Irigaray's thought has often been dismissed as essentialist or reductively binary This book brings together leading scholars to consider the philosophical implications of Irigaray's writing on sexual difference particularly for issues of gender and race Their essays directly confront the charge of essentialism exploring how Irigaray's thought opens new possibilities for understanding the complexity of gender identities including nonbinary and trans experiences as well as alternative configurations of masculinity and femininity Though Irigaray is sometimes accused of a failure to appreciate racial difference contributors show the productive role of her work in thinking race This book also illuminates how Irigaray's work provides creative practices that help realign human experience and our relations with nature and each other Poetics of the Flesh Mayra Rivera, 2015-10-15 In Poetics of the Flesh Mayra Rivera offers poetic reflections on how we understand our carnal relationship to the world at once spiritual organic and social She connects conversations about corporeality in theology political theory and continental philosophy to show the relationship between the ways ancient Christian thinkers and modern Western philosophers conceive of the body and flesh Her readings of the biblical writings of John and Paul as well as the work of Tertullian illustrate how Christian ideas of flesh influenced the works of Maurice Merleau-Ponty and Michel Foucault and inform her readings of Judith Butler Frantz Fanon and others Rivera also furthers developments in new materialism by exploring the intersections among bodies material elements social arrangements and discourses through body and flesh By painting a complex picture of bodies and by developing an account of how the social materializes in flesh Rivera provides a new way to understand gender and race *Geopolitics and*

Decolonization Fernanda Frizzo Bragato, Lewis R. Gordon, 2017-12-06 Gathering researchers from or towards Global South epistemologies this book enriches the debate on crucial questions for liberation in the South and the improvement of South relations It argues that coloniality and colonialism are not outdated phenomena of the historical past but contemporary marks that remain repressed The dominance of Eurocentric paradigm in the social sciences explains the long lasting detachment between thinkers and politicians from the Global South which have been historically presented according to their respective relations with the West Europe and North America The dialogue on common problems and challenges to people and societies in the South largely derived from their colonial past and condition is still sparing This book actively promotes and demonstrates the value of intercultural dialogue and debate amongst voices from within the Global South on issues to do with decoloniality cultural rights law and politics

The Face of Africa Stan Chu Ilo, 2012-12-01 This book is a call on Africans and non Africans to once more believe in the possibility of a better future for Africa In these pages Stan Chu Ilo writes of his experience and the experiences of many young Africans like himself who are disturbed by

the present condition of Africa He writes about the challenges facing most Africans who are growing up in the African continent without any hope of quality education without any guarantee of adequate food water housing and clothing without any hope of getting a job and without any prospect of living in peace with their neighbors He writes of the sad situation of millions of young Africans who are dying of malaria and HIV AIDS and the African women whose fate and fortune have been shackled by a male dominated society He questions the bases of the existence of the failed states of Africa who are caught up in a cycle of violence and disorder and who are not asking the right questions about the future of their nations He argues that corruption excessive authoritarianism a stubborn hold on power and lack of openness to consensus building among some African leaders insult the cultural value of Africans with regard to a sense of community love and solidarity He also writes of the pain of globalization the debt burden immigration and trade restrictions on Africans and African countries exploitation of ordinary Africans by fellow Africans and Western governments and business conglomerates He wonders why many Western nations should turn their backs on Africa when they all share some responsibility in bringing Africa to her knees However even though many Africans have become exhausted in the battle for national survival and for a living space to pursue their ordered ends this book proposes that Africans should not claim perpetual victimhood rather they should stand up once more and work for a better tomorrow which is possible and within their reach Ilo insists that the imposing mountains of economic and social ruin the rising moans and groans of numberless Africans should not weaken the inner energy and ardent hopes of millions of Africans struggling against the untested assumption that the cracking social political and economic foundations of present day Africa are incapable of supporting the structures of a new Africa The face of Africa today is ugly but behind the ugly face is the beauty that has been distorted by historical and cultural factors The present condition of Africa is only the sign of the urgent need for the peoples of Africa to brace up for the long and hard journey to reclaim their future Ilo outlines how non Africans who are interested in the African condition can be involved with the peoples of Africa A proper understanding of the African continent and her peoples her history and cultural evolution is a necessary first step for those who wish to be engaged with the Africans His total picture approach model as the key to interpreting the African condition and in comprehensively addressing the challenges facing Africa offers a helpful and original tool in understanding Africa It helps to overcome the stereotypes prejudices and paternalism which non Africans apply in their reading of African history and their relation with the African reality With masterly skills a keen sense of history a balanced perspective and objectivity Ilo identifies the constraints to growth and innovation in Africa in terms of the low stocks in the human capital and cultural development He introduces a new concept in the interpretation of the African condition homelessness in terms of cultural and existential crises that confront Africans today His conclusion is that cultural and human development is the irreducible decimal in any proposal for the transformation of the continent that grassroots village based action should be preferred over bogus and unworkable national approaches to African development

Elsewhere in America David Trend, 2016-04-28 Americans think of their country as a welcoming place where everyone has equal opportunity Yet historical baggage and anxious times can restrain these possibilities Newcomers often find that civic belonging comes with strings attached riddled with limitations or legally punitive rites of passage For those already here new challenges to civic belonging emerge on the basis of belief behavior or heritage This book uses the term elsewhere in describing conditions that exile so many citizens to some other place through prejudice competition or discordant belief Yet in another way elsewhere evokes an undefined not yet ripe with potential In the face of America's daunting challenges can elsewhere point to optimism hope and common purpose Through 12 detailed chapters the book applies critical theory in the humanities and social sciences to examine recurring crises of social inclusion in the U S After two centuries of incremental progress in securing human dignity today the U S finds itself torn by new conflicts over reproductive rights immigration health care religious extremism sexual orientation mental illness and fear of terrorists Is there a way of explaining this recurring tendency of Americans to turn against each other Elsewhere in America engages these questions charting the ever changing faces of difference manifest in contested landscapes of sex and race to such areas as disability and mental health their spectral and intersectional character recent discourses on performativity normativity and queer theory and the grounds on which categories are manifest in ideation and movement politics metapolitics cosmopolitanism dismodernism

Heidegger and the Politics of Disablement Thomas Abrams, 2016-04-23 This book presents the early existential phenomenology of Martin Heidegger as a way to reformulate academic disability studies and activist disability politics It redresses the almost categorical neglect of human difference in the philosophy of Heidegger It proceeds by applying a revised version of his phenomenology to social policy aimed to get disabled persons to work and to methods in rehabilitation science intended to be more client friendly Phenomenological

philosophy is extended to the topic of disability while at the same time two key concerns facing disability studies are addressed the roles of capitalism in disablement and of medical practice in the lives of disabled persons By reframing disability as a lived way of being in the world rather than bodily malfunction the book asks how we might rethink medicine and capitalism in democratic ways It aims to transform Heidegger's work in light of his troubling politics to produce a democratic social theory of human difference

Sexual Difference Between Psychoanalysis and Vitalism Arun

Saldanha, Hoon Song, 2015-03-24 Throughout the twentieth century psychoanalysis and feminism were the practical intellectual fields most systematic and subversive in demonstrating that humanity is sexually fissured More recently further advances in the philosophy of difference and renewed emphases on embodiment materiality and life offer possibilities for attending to dimensions of gender and sexuality that were previously underdeveloped This collection examines these possibilities insofar as they can either deepen or displace the traditional centrality of psychoanalysis in matters sexual The authors come from a wide range of backgrounds and defend their approaches to the problem of sexual difference in a variety of idioms drawing on key thinkers such as Lacan Irigaray Deleuze Foucault and Badiou It is rare to come across these thinkers together but sex is too crucial a site for critical thought not to mobilize every conceptual power available This book was originally published as a special issue of the journal Angelaki The Journal of the Theoretical Humanities

Nature, Human Nature, & Human Difference Justin E. H. Smith, 2015-06-30 People have always been xenophobic but an explicit philosophical and scientific view of human racial difference only began to emerge during the modern period Why and how did this happen Surveying a range of philosophical and natural scientific texts dating from the Spanish Renaissance to the German Enlightenment Nature Human Nature and Human Difference charts the evolution of the modern concept of race and shows that natural philosophy particularly efforts to taxonomize and to order nature played a crucial role Smith demonstrates how the denial of moral equality between Europeans and non Europeans resulted from converging philosophical and scientific developments including a declining belief in human nature's universality and the rise of biological classification The racial typing of human beings grew from the need to understand humanity within an all encompassing system of nature alongside plants minerals primates and other animals While racial difference as seen through science did not arise in order

to justify the enslavement of people it became a rationalization and buttress for the practices of trans Atlantic slavery From the work of Fran ois Bernier to G W Leibniz Immanuel Kant and others Smith delves into philosophy s part in the legacy and damages of modern racism With a broad narrative stretching over two centuries Nature Human Nature and Human Difference takes a critical historical look at how the racial categories that we divide ourselves into came into being **Latin American Philosophy from Identity to Radical Exteriority** Alejandro A.
