On Thinking The Human Resolutions Of Difficult Notions:

Emotions, Values, and the Law John Deigh, 2011 These essays ask questions about the nature of emotions and the place of voluntary action in our understanding of common phenomena of our moral and political lives *Perceiving Truth and Value* Markus Mühling, David Andrew Gilland, Yvonne Förster, 2019-11-11 The theme of this volume is the question of value perception It is discussed from different philosophical psychiatric theological and anthropological perspectives The thesis that unites all the papers is the recognition that we live in a relational dynamic world in which we primarily perceive and that to dissolve values from facts is fundamentally misleading both in theory as in life The contributions are the outcome of an energetic conference in 2016 where the problems at stake were rigorously discussed The results are presented here and they have an explicit order and are strictly related It opens with basic questions and observations then critical opinions and objections come into play after which the outline of a larger theory of value perception is presented and at the end some concrete examples from material practices are drawn English for Dispute Resolution Barrie J.
