## **On Teaching And Learning In College:**

*On Teaching and Learning in College* Paul Leroy Dressel, Dora Marcus, 1982      **Teaching First-Year College Students** Bette LaSere Erickson, Calvin B. Peters, Diane Weltner Strommer, 2009-11-24 *Teaching First Year College Students* is a thoroughly expanded and updated edition of *Teaching College Freshmen* which has become a classic in the field since it was published in 1991. The book offers concrete suggestions about specific strategies and approaches for faculty who teach first year courses. The new edition is based on the most current research on teaching and learning and incorporates information about the demographic changes that have occurred in student populations since the first edition was published. The updated strategies are designed to help first year students adjust effectively to both the academic and nonacademic pressures of college. The authors also help faculty understand first year students and show how their experiences in high school have prepared or not prepared them for the world of higher education.

## **Learning and Teaching in Higher Education**

Greg Light, Roy Cox, Susanna Calkins, 2009-05-13 This book provides teachers in higher education with what they need a compelling framework for improving student learning. It combines a comprehensive synthesis of the latest research on learning and teaching with practical strategies for implementing it in their classrooms. Professor Ken Bain, Author of *What the Best College Teachers Do*, Vice Provost for Instruction, Montclair State University, Praise for the First Edition: For too long we have waited for a book that brings together the best contemporary thinking about learning and teaching and that connects with academics everyday teaching practice in an engaging way. At last in this book we have it. Ronald Barnett, Institute of Education, University of London. Worldwide higher and professional education services are challenged by increased student numbers and diversity, tougher demands for professional accountability, increasing calls for educational relevance and thinning resources. This new edition addresses key issues in the practice and theory of teaching and learning in the sector and includes fully updated discussions of the professional in academic practice, mentoring, teaching with technology, the relationship between learning objectives, outcomes and assessment, the novice teacher. The authors draw on theory, practice and current research to provide a new way of thinking about the many aspects of learning and teaching in higher education, enabling readers to reflect critically on their teaching. They also propose a model for continuous professional development appropriate to the higher education academic community. *Learning Teaching in Higher Education: The Reflective Professional* is for lecturers, researchers, staff developers and others involved in teaching in higher and professional education. Greg Light is Director of the Searle Center for Teaching Excellence and an associate professor in the School of Education and Social Policy at Northwestern University, Chicago. Roy Cox was a visiting academic at the University of London where he helped establish one of the first centres for learning and teaching in higher education in the world. Susanna Calkins is Associate Director for Faculty development at the Searle Center for Teaching Excellence.      **The Craft of College Teaching** Robert DiYanni, Anton Borst, 2020-03-03 Robert DiYanni and Anton Borst's *Classroom Confidential* provides a clear, compact guide to

the basics of college teaching Grounded in the authors classroom experience their pedagogical coaching at NYU s Center for the Advancement of Teaching and their examination of the latest learning science research it explains how to teach in the college classroom from a learner s perspective what methods principles and activities achieve the best learning outcomes Chapters address major topics from course and syllabus design to discussion based teaching critical reading and assessment while brief interludes cover various pedagogical elements and applications including what to do on the first and last days of class and how to incorporate service and experiential learning into curricula Throughout the authors provide practical suggestions and strategies while explaining the underlying pedagogical principles They also address recent topics that promise to remain fixtures of the educational landscape such as teaching with technology and teaching in a global context They steer a middle course on technology suggesting ways to maximize its benefits while minimizing its distractions The book coheres around a philosophy of active learning and student engagement DiYanni and Borst argue that teaching practices should challenge students to think and learn requiring them to do things with newly acquired knowledge create models conduct experiments debate issues and more The authors enlist reliable scholarly research to demonstrate that active learning of the kind they advocate achieves results students learn more and better and their learning is deeper and longer lasting The authors pedagogy echoes their epistemology as they demonstrate how learning and teaching are inextricably intertwined organic rather than mechanical activities

**Convergent Teaching** Aaron M. Pallas, Anna Neumann, 2019-12-10

How what we know about K 12 education can revolutionize learning in college Honorable Mention in the Foreword INDIES Award for Education by FOREWORD Reviews Winner of the 2021 Bronze IPPY Award for Education II Amid the wide ranging public debate about the future of higher education is a tension about the role of the faculty as instructors versus researchers and the role of teaching in the mission of a university What is absent from that discourse is any clear understanding of what constitutes good teaching in college In Convergent Teaching masterful professors of education Aaron M Pallas and Anna Neumann make the case that American higher education must hold fast to its core mission of fostering learning and growth for all people Arguing that colleges and universities do this best through their teaching function the book portrays teaching as a professional practice that teachers should actively hone Drawing on rich research on K 12 classroom teaching the authors develop the novel idea of convergent teaching an approach that attends simultaneously to what students are learning and the personal social and cultural contexts shaping this process Convergent teaching they write spurs teachers to join students cognitions with the students emotions and identities as they learn Offering new ways to think about how college teachers can support and advance their students learning of core disciplinary ideas Pallas and Neumann outline targeted actions that campus administrators public policy makers and foundation leaders can take to propel such efforts Vivid examples of instructors enacting three key principles targeting surfacing and navigating help bring the idea of convergent teaching to life Full of research based practical ideas for better teaching and learning Convergent Teaching presents

numerous instances of successful campus based initiatives It also sets a bold agenda for disciplinary organizations philanthropies and the federal government to support teaching improvement This book will challenge higher education students while motivating college administrators and faculty to enact change on their campuses *Teaching at Its Best* Linda B. *Developing Faculty Learning Communities at Two-Year Colleges* Susan Sipple, Robin Lightner, 2023-07-03 This book introduces community college faculty and faculty developers to the use of faculty learning communities FLCs as a means for faculty themselves to investigate and surmount student learning problems they encounter in their classrooms and as an effective and low cost strategy for faculty developers working with few resources to stimulate innovative teaching that leads to student persistence and improved learning outcomes Two year college instructors face the unique challenge of teaching a mix of learners from the developmental to high achievers that requires using a variety of instructional strategies and techniques Even the most experienced teachers can find this diversity demanding Faculty developers at many two year colleges still rely solely on the one day workshop model that while useful rarely results in sustained student centered changes in pedagogy or the curriculum and may not be practicable for the growing cohort of part time faculty members By linking work in the classroom with scholarship and reflection FLCs provide participants with a sense of renewed engagement and stimulate collegial exploration of ways to achieve educational excellence FLCs are usually faculty instigated and cross disciplinary and comprise groups of six to fifteen faculty that work collaboratively through regular meetings over an extended period of time to promote research and an exchange of experiences foster community and develop the scholarship of teaching FLCs alleviate burnout and isolation promote the development testing and peer review of new classroom strategies or technologies and lead to the reenergizing and professionalization of teachers This book introduces the reader to FLCs and to the Scholarship of Teaching and Learning offering examples of application in two year colleges Individual chapters describe among others an FLC set up to support course redesign an Adjunct Connectivity FLC to integrate part time faculty within a department and collaborate on the curriculum a cross disciplinary FLC to promote student self regulated learning and improve academic performance and persistence a critical thinking FLC that sought to define critical thinking in separate disciplines examine interdisciplinary cross over of critical thinking and measure critical thinking more accurately an FLC that researched the transfer of learning and developed strategies to promote students application of their learning across courses and beyond the classroom Each chapter describes the formation of its FLC the processes it engaged in what worked and did not and the outcomes achieved Just as when college faculty fail to remain current in their fields the failure to engage in continuing development of teaching skills will equally lead teaching and learning to suffer When two year college administrators restrain scholarship and reflection as inappropriate for the real work of the institution they are in fact

hindering the professionalization of their teaching force that is essential to institutional mission and student success When FLCs are supported by leaders and administrators and faculty learn that collaboration and peer review are valued and even expected as part of being a teaching professional they become intrinsically motivated and committed to collaboratively solving problems setting the institution on a path to becoming a learning organization that is proactive and adept at navigating change

**Why Didn't I Learn This in College** Paula Rutherford, 2009-02 Offers new teachers an overview of the many issues they weren't introduced to in college courses College Teaching Donelson R. Forsyth, 2016 Everything matters when it comes to teaching and learning student characteristics the school itself and cultural ideas about the value of higher education to name a few Most of these influences are outside the college instructor's control Other issues however such as a course's intellectual demands type of feedback students receive the instructional methods and the relationship that connects professor to student are controllable This book examines the many choices professors make about their teaching beginning with their initial planning of the course and its basic content through to the final decisions about grades and assessing effectiveness Chapters address the following topics Planning Lecturing Leading discussions Student centered teaching methods such as collaborative or experiential activities Testing and grading Helping students through feedback and guidance Managing classroom dynamics Using technology effectively and Evaluating and documenting one's contributions as a teacher Brief research analyses show why certain techniques work better than others Through lively examples and prompts to continually personalize the material readers learn how to structure their teaching and what to do to ensure their students are treated fairly This book is for beginning instructors as well as those who have been teaching at the college level for many years Author Donelson Forsyth calls readers attention to basics such as the cognitive motivational personal and interpersonal processes flowing through even the most routine of educational experiences He also addresses online teaching instructional design learning teams and new technologies to help professors re-examine and refresh their existing practices Publicity materials PsycINFO Database Record c 2015 APA all rights reserved
