### **Teaching Character Education Through Literature**

Karen Bohlin, 2005-05-03 Offering guidance to teachers on including character education within their lessons this book shows how teachers can provide an encounter with literature that enables students to be more responsive to ethical themes and questions *The Ethical Dimensions of School Leadership* P.T. Begley, Olof Johansson, 2006-04-11 Among the many significant features of this volume is the dedication to the late Don Willower Professor of Education at Pennsylvania State University It is significant in light of Willower's long record of major contributions to the empirical literature in Educational Administration and his mentorship of many students steeped in the tradition of the so called science of administration These include scholars like Wayne Hoy and Peter Cistone who readily acknowledge their personal and intellectual debt to Willower How is it then that Willower a colleague of the giants of Educational Administration in the 60s and 70s people such as Dan Griffiths Jack Culbertson and Roald Campbell to name just a few came to associate himself with this relatively upstart group of academics and practitioners interested in values of all things As an inheritor of the mantle thrown down by Getzels and Guba all those years ago it might seem strange to see Willower consorting with people who argue about the distinction between fact and value It is true of course that Willower majored in philosophy at the State University of New York at Buffalo as an undergraduate So the language and the ways of thinking among many of those interested in values and ethics were not all that foreign to him He could certainly hold his own in debate with his friend Chris Hodgkinson the foremost philosopher of Educational Administration in the field today and a contributor to this volume Moral Outrage in Education David E.

it may be used in schools      *Conflict, Contradiction, and Contrarian Elements in Moral Development and Education* Larry Nucci, 2005-01-15 The premise of this book is that individuals and societies have an inexorable urge to morally develop by challenging the assumptions of the previous generation in terms of what is right and wrong The focus is on the nature and functional value of conflicts and challenges to the dominant moral and social values framework Through this analysis individuals develop moral character through conflict with their local authority figures including parents The moral structure of societies evolves through intergenerational challenges to and contradictions with the dominant social order The book is divided into three parts to help frame this discussion Part I directly takes up the issue of resistance as it occurs at a cultural level and the implications of such resistance for moral education and socialization Part II explores the normative forms of adolescent resistance and contrarian behavior that vex parents and teachers alike Part III brings back the issue of societal structure and culture to illustrate how negative features of society such as racial discrimination and economic disparity can feed into the construction of negative moral identity in youth posing challenges to moral education Taken together this collection presents a rich counterpoint to the pictures of moral growth as the progressive sophistication of moral reasoning or the gradual accretion of moral virtues and cultural values It will benefit those in developmental social and cognitive psychology as well as sociology political science and education      *A Christian Education in the Virtues* James Arthur, 2021-06-24 A Christian Education in the Virtues examines the connection between human nature and human flourishing It draws on ancient and medieval sources to explore the formation of the person based on a Christian anthropology emphasising the communal nature of the virtuous life and provides a richer approach to the question of contemporary character education The book argues that the only way to understand and construct our character virtues is to have a clear picture of what is the purpose and meaning of human life It highlights the importance of engaging with moral issues and makes the case that for Christian educators human flourishing is inseparable from God's active relationship to human beings The book also explores a teleological approach to character education goals To educate the whole person in the light of an all embracing Christian worldview is challenged by secular and liberal ideology and is often seen as irrational to the modern mind Overall the text seeks to demonstrate that many aspects of a Neo Aristotelian Thomist theoretical underpinning for Christian character education holds out a viable option for Christians It therefore argues the case for the educational potential of Christian character education This important book will be essential reading for academics researchers and students in the fields of character and virtue education religious education and the philosophy of education The Open Access version of this book available at [www.taylorfrancis.com/books/oa/mono/10.4324/9781003141877](http://www.taylorfrancis.com/books/oa/mono/10.4324/9781003141877) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license      [Finding Common Ground](#) Charles Haynes, Oliver Thomas, 1997 Addresses the attempts to find common ground in schools the Supreme court religion strategies for finding common ground religion in the curriculum resources for teaching about religion in U S
