Music and Ideology in Cold War Europe Mark Carroll, 2006-11-02 This book places the radicalization of art music in early post war France in its broader socio cultural and political context It pursues two general and intersecting lines of inquiry The first details the stances towards musical conservatism and innovation adopted by cultural strategists representing Western and Soviet ideological interests at the onset of the Cold War The second which draws upon the commentaries of Theodor Adorno and Jean Paul Sartre recognizes that the Cold War generated a heightened political awareness amongst French musicians at the very time when the social relevance of avant garde music had become the subject of widespread debate The study considers the implications of the performance at L Oeuvre du XXe si cle an international arts festival staged in Paris in 1952 with the intention of discrediting socialist realism by means of two opposing musical types neo classicism represented by Stravinsky s Symphony in C and serialism Boulez s Structures 1a

The Rise and Fall of American Art, 1940s-1980s Catherine Dossin,2016-03-03 In The Rise and Fall of American Art 1940s 1980s Catherine Dossin challenges the now mythic perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition Dossin reconstructs the concrete factors that led to the shift of international attention from Paris to New York in the 1950s and documents how peripheries such as Italy Belgium and West Germany exerted a decisive influence on this displacement of power As the US economy sank into recession in the 1970s however American artists and dealers became increasingly dependent on the support of Western Europeans and cities like Cologne

and Turin emerged as major commercial and artistic hubs a development that enabled European artists to return to the forefront of the international art scene in the 1980s Dossin analyses in detail these changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors Her transnational and interdisciplinary study provides an original and welcome supplement to more traditional formal and national readings of the period
