Reconstructing Climate Policy What The United States Should Do Now:

Rebuilding the State Institutions Juan Antonio Le Clercq, Jose Pablo Abreu Sacramento, 2019-11-29 Contemporary Mexico faces a complex crisis of violence and insecurity with high levels of impunity and the lack of an effective rule of law. These weaknesses in the rule of law are multidimensional and involve elements of institutional design: the specific content of the laws, particularities of political competition and a culture of legality in a country with severe social inequalities. This book discusses necessary institutional and legal reforms to develop the rule of law in a context of democratic social and economic transformations. The chapters are organized to address: 1. The concept of the rule of law and its measurement; 2. The fragility of the rule of law in Mexico; 3. Structural reforms and implementation challenges; 4. Social exclusion and the culture of legality. The book addresses decision makers, civil servants, consultants, scholars, lecturers and students focusing on public policy, rule of law, sociology of law, legislative studies and practice, impunity and areas of political philosophy. The book presents an interdisciplinary and integrated approach for understanding the rule of law in Mexico, taking into account national particularities, the regional context and global comparisons. Chapters discuss recent institutional reforms in Mexico from a critical point of view and explore possible next steps to achieve effective implementation. This book addresses the links between a weak rule of law and social phenomena like insecurity, violence, corruption and democratic deficits.

Community Wealth Building and the Reconstruction of American Democracy Melody C. Barnes, Corey D.B. Walker, Thad M. Williamson, 2020-10-30 How can we create and sustain an America that never was but should be? How can we build a robust multiracial democracy in which everyone is valued and everyone possesses political, economic and social capital? How can democracy become a meaningful way of life for all citizens? By critically probing these questions, the editors of *Community Wealth Building and the Reconstruction of American Democracy* seize the opportunity to bridge the gap between our democratic aspirations and our current reality.

United States. Congress. Joint Committee on Reconstruction, 1969 *The Next Money Crash—And a Reconstruction Blueprint* Uli Kortsch, 2020-12-28 This book lays out an action plan with some room for improvisation. Will we have the courage to act? Kicking the proverbial can down the road feels easy in the moment but can lead to devastating consequences. The point of a system redesign is to acknowledge we have a broken monetary system that has drifted far away from serving We the People. There is a growing recognition even within the Federal Reserve that something is wrong. The needed actions described here on money and banking can restore a better balance for all. With knowledge there is true power. *Approaches to Audit of Reconstruction and Support Activities in Iraq* United States.
