stopover but Snow stayed on in China for thirteen more years The idealistic young Midwesterner became a journalist and
ultimately developed close friendships with China s emerging revolutionary leaders His 1938 classic *Red Star over China*
strongly influenced American views of the Chinese Communists and is still in print nearly sixty years later This biography
breaks fresh ground with its unique and extensive use of Snow s diaries of over forty years These writings convey Snow s
private hopes and fears his moods and motivations Thomas skillfully links them with Snow s public writings and deeds By
recreating the milieu in which Snow worked in China Thomas provides a clearer understanding of both the man and his times
Snow came to China devoid of any political agenda or sinological background He returned home a politically astute China

Kazushi Minami, 2024-03-15 In People's Diplomacy Kazushi Minami shows how the American and Chinese people rebuilt US China relations in the 1970s a pivotal decade bookended by Richard Nixon's 1972 visit to China and 1979 normalization of diplomatic relations Top policymakers in Washington and Beijing drew the blueprint for the new bilateral relationship but the work of building it was left to a host of Americans and Chinese from all walks of life who engaged in people to people exchanges After two decades of estrangement and hostility caused by the Cold War these people dramatically changed the nature of US China relations Americans reimagined China as a country of opportunities irresistible because of its prodigious potential while Chinese reinterpreted the United States as an agent of modernization capable of enriching their country and rejuvenating their lives Drawing on extensive research at two dozen archives in the United States and China People's

Diplomacy redefines contemporary US China relations as a creation of the American and Chinese people **The Criminal Process in the People's Republic of China, 1949-1963** Jerome Alan Cohen, 1968 This volume represents the fruits of a preliminary inquiry into one aspect of contemporary Chinese law the criminal process Investigating what he calls China's legal experiment Mr Cohen raises large questions about Chinese law Is the People's Republic a lawless power arbitrarily disrupting the lives of its people Has it sought to attain Marx's vision of the ultimate withering away of the state and the law Has Mao Zedong preferred Soviet practice to Marxist preaching If so has he followed Stalin or Stalin's heirs To what extent has it been possible to transplant a foreign legal system into the world's oldest legal tradition Has the system changed since 1949 What has been the direction of that change and what are the prospects for the future Today immense difficulties impede the study of any aspect of China's legal system Most foreign scholars are forbidden to enter the country and those who do visit China find solid data hard to come by Much of the body of law is unpublished and available only to officialdom and what is publicly available offers an incomplete idealized or outdated version of Chinese legal processes Moreover popular publications and legal journals that told much about the regime's first decade have become increasingly scarce and

uninformative In order to obtain information for this study Mr Cohen spent 1963-64 in Hong Kong interviewing refugees from the mainland and searching out and translating material on Chinese criminal law From the interviews and published works he has endeavored to piece together relevant data in order to see the system as a whole The first of the three parts of the book is an introductory essay providing an overview of the evolution and operation of the criminal process from 1949 through 1963 The second part constituting the bulk of the book systematically presents primary source material including excerpts from legal documents policy statements and articles in Chinese periodicals In order to show the law in action as well as the law on the books the author has included selections from written and oral accounts by persons who have lived in or visited the People's Republic Interspersed among these diverse materials are Mr Cohen's own comments questions and notes Part III contains an English-Chinese glossary of the major institutional and legal terms translated in Part II a bibliography of sources and a list of English language books and articles that are pertinent to an understanding of the criminal process in China

The Raider Stephen R. Platt, 2025-05-13 The extraordinary life of forgotten World War II hero Evans Carlson commander of America's first special forces secret confidant of FDR and one of the most controversial officers in the history of the Marine Corps who dedicated his life to bridging the cultural divide between the United States and China He was a gutsy old man A corker said another You couldn't find anyone better They talked about him in hushed tones This Major Carlson wrote one of the officers in a letter home is one of the finest men I have ever known These were the words of the young Marines training to be among the first U.S. troops to enter the Second World War and the Major Carlson they spoke of was Evans Carlson a man of mythical status even before the war that would make him a military legend By December of 1941 at the age of forty-five Carlson had already faced off against Sandinistas in the jungles of Nicaragua and served multiple tours in China where he embedded with Mao's Communist forces during the Sino-Japanese War Inspired by their guerilla tactics and their collaborative spirit which he'd call gung ho introducing the term to the English language and driven by his own Emersonian ideals of self-reliance Carlson would go on to form his renowned Marine Raiders the progenitors of today's special operations forces who fought behind Japanese lines on Makin Island and Guadalcanal showing Americans a new way to do battle In *The Raider* Cundill Prize-winning historian Stephen R. Platt gives us the first authoritative account of Carlson's larger-than-life exploits the real story based on years of research including newly discovered diaries and correspondence in English and Chinese with deep insight into the conflicted idealism about the Chinese Communists that would prove Carlson's undoing in the McCarthy era Tracing the rise and fall of an unlikely American war hero *The Raider* is a story of exploration of cultural misunderstanding and of one man's awakening to the sheer breadth of the world

Archival Resources of Republican China in North America Chengzhi Wang, Su Chen, 2015-12-08 North America maintains the largest collection of archival materials relating to the Chinese Republican era 1911-1949 outside of China. Most of the archival materials are also unique and the collections contain special materials supplementing historical records in China and Taiwan. In many cases, North America's holdings represent the best and only public access to the tumultuous Republican government and society of the first half of the twentieth century. An essential guide for researchers and students of Republican China, this volume presented in both English and Chinese covers personal papers, correspondences, memoirs, diaries, photographs, moving images, and other materials held at academic and research institutions across the United States and Canada. It includes concise descriptions of the people, organizations, and events connected to each entry and notes when certain collections are closely related and when materials are digitized for online access. The book corrects common errors associated with the library records of many archives and updates or completes information on the objects of these records. More than a straightforward itemization, this book adds significant depth to any research on the history and global impact of China's modern development.
