Saint Benedict for Boomers Christine M. Fletcher,2017-04-28 Saint Benedict for Boomers is based on the idea that no one can retire from being a Christian we are to love God and our neighbor throughout our life And it recognizes that aging presents us with change loss and death as well as new growth and opportunities for deep gladness and peace The Christian vocation is valid when we are healthy and strong and when we are weak and sick Taking Saint Benedict of Nursia as a guide Christine Fletcher insists that those in the autumn of their lives still have much to contribute to society and to those around them even when they are ill and dependent Benedict s wisdom is perennial and it remains helpful to those who negotiate new challenges in living well preserving bodily health discerning purpose in new stages of living deepening faith and ultimately facing sickness and death *Writing as Resistance* Rachel Feldhay Brenner,2010-11-01 In this moving account of the life work and ethics of four Jewish women intellectuals in the world of the Holocaust Rachel Feldhay Brenner explores the ways in which these women sought to maintain their faith in humanity while aware of intensifying destruction She argues that through their written responses of autobiographical self assertion Edith Stein Simone Weil Anne Frank and Etty Hillesum resisted the Nazi terror in ways that defy its horrifying dehumanization Personal identity crises engendered the intellectual spiritual acts of autobiographical self searching for each of these women About to become a nun in 1933 Edith Stein embarked on her autobiography as a daughter of a Jewish family Fleeing France and deportation in 1942 Simone Weil examined her inner struggle with faith and the Church in her Spiritual Autobiography Hiding for more than two years in the attic Anne Frank poignantly confided in her diary about her efforts to become a better person Having volunteered as a social worker in Westerbork Etty Hillesum searched her soul for love in the reality of terror In each case autobiographical writing becomes an act of defiance that asserts humanity in a dehumanized dehumanizing world By focusing on the four women s accomplishments as intellectuals writers and thinkers Brenner s account liberates them from other posthumous treatments that depict them as symbols of altruism sanctity and victimization Her approach also elucidates the particular predicament of Western Jewish intellectuals who trusted the ideals of the Enlightenment and believed in human fellowship While suffering the terror of physical annihilation decreed by the Final Solution these Jews had to contend with their exclusion from the world that they considered theirs On yet another level this study of four extraordinary life stories contributes to a deeper understanding of the postwar development of ethical theological and feminist thought In showing concern about a world that

had ceased to care for them Stein Weil Frank and Hillesum demonstrated that the meaning of human existence consisted in the responsibility for the other in the protection of the suffering God in the primary value of relatedness through empathy Arguing that their ethical tenets anticipated the thought of such postwar thinkers as Levinas Fackenheim Tillich Arendt and Nodding Brenner proposes that the breakup of the humanist tradition of the Enlightenment in the Holocaust engendered the postwar exploration of humanist potential in self givenness to the other

Person in the World Mary Catherine Baseheart, 2013-03-14 Edith Stein has become almost a legend in recent years largely because of her heroic personality and her death in Auschwitz at the hands of the Nazis She is known also as an eminent German Jewish Christian intellectual and feminist but more in the realm of the sacred than of the secular Both are essential to understanding her To know the real Edith Stein one must have some knowledge of her as philosopher for philosophy was central to her very being For this reason the present work is designed to be of interest to the general reader as well as to philosophers Many of the latter have given evidence of interest in Stein's phenomenology and may welcome an introduction that gives clues to its substance and quality Those who knew Edith Stein personally and professionally Edmund Husserl Roman Ingarden Hedwig Conrad Martius Peter Wust and other friends at the universities of Göttingen and Freiburg affirm her genius and her passionate pursuit of truth in philosophy James Collins distinguished American historian of philosophy who discovered some of her works about the time she died wrote that we may expect critical studies on her philosophy to multiply rapidly with the issuance of her collected works and the recognition of her high philosophical genius The fact is that this has not happened although fourteen of her major works have been published posthumously by Nauwelaerts and Herder and many are available from other sources
